**IN MEMORIAM.**  
OVERTON.—William Overton gave his life in the great cause of right and the liberty of the world February 12, 1918.  
Had He asked us, well we know  
We should cry, Oh spare this blow;  
Yet with streaming tears, should pray:  
Lord, we love him, let him stay.

Dr. J. W. S. McCullough, provincial officer—Health, has expressed himself as opposed to the proposal that people in cities and towns should keep pigs in their back yards as part of the food production campaign. Dr. McCullough pointed out that no municipality had the right to pass a bylaw permitting it without the consent of the provincial health authorities, and he had no intention of allowing it.  
When a man offers you something for nothing, walk around it.  
Nature supplies a man with character, but the neighbors furnish his reputation.

**Brantford Asphalt Slates**  
An added touch of beauty to any house is a roof of Brantford Asphalt Slates, which are in soft, harmonious shades of reddish brown and dark green. The colors are permanent and unfadeable, being the natural shades of the slate just as it is taken out of the quarries.  
It will also prove a very economical roof, because Brantford Asphalt Slates do not split, get loose, absorb water or rot. They are strongly fire-resistant and are classified as non-combustible by the fire insurance companies, and allowed to be used in cities where the most rigid fire-prevention By-laws are in force.  
Brantford Asphalt Slates are very moderate in cost. The regular size of the slates and their pliability make them easily and quickly laid, thus saving time and cost of labor. Being made of high grade felt saturated and coated with asphalt, and with a surface of crushed slate, they make a roof that defies the elements and is a permanent part of the building, just like the walls and the foundation.
