

	PAGE
Concentration by dry methods.....	67
Pneumatic jigs.....	68
Air classifiers.....	73
Rolls and screens.....	74
Electrostatic machines.....	78
Concentration by wet methods.....	80
Buddles.....	80
Mechanical washers.....	83
Log washers.....	83
Rake washers.....	84
Wet tables.....	85
Flotation.....	86
Frothing oil flotation.....	90
Callow system.....	98
Minerals Separation system.....	99
Simplex system.....	100
K. and K. system.....	101
Surface tension or film flotation.....	108
Miscellaneous.....	110
Refining of Graphite concentrates.....	111
Summary.....	112
Chemical refining of Graphite.....	112
CHAPTER VI.	
Artificial Graphite.....	114
CHAPTER VII.	
Uses of Graphite.....	119
Crucibles.....	119
Clays for crucibles.....	125
Manufacture of crucibles.....	131
Other Graphite refractory products.....	144
Pencils.....	149
Foundry facings.....	149
Dry batteries.....	150
Electrotyping Graphite.....	151
Graphite brushes.....	154
Graphite electrodes.....	155
Graphite for lubricating.....	158
Graphite paints.....	159
Stove polish.....	159
Boiler Graphite.....	160
Graphite for powder glazing and shot polishing.....	160
Subsidiary uses.....	160
CHAPTER VIII.	
The Canadian Graphite Industry.....	162
Production, exports, imports, etc.....	162
Domestic consumption of Graphite.....	167
General review of the industry.....	167
Review of market conditions 1914-1918.....	170
CHAPTER IX.	
Sources of the world's Graphite supply.....	174
Austria.....	174
Ceylon.....	175
Chosen (Korea).....	177
Germany.....	177
Italy.....	178
Madagascar.....	178
Mexico.....	180
South Africa.....	180
