

IMPORTANT NOTICE

RESPECTING SOME

Books mentioned in this Catalogue.

 **W**E beg leave to call your special attention to "**The London Law Monthly**," a Series of Text Books mentioned on page 60. Arrangements were made by us with the leading London Law Publishing Houses to supply at very low prices in **Canada** only, with a monthly issue of Standard Books. The demand for law books in Canada is necessarily limited, so, in order to insure the success of the Series, it requires the attention of nearly all the profession throughout the various Provinces. We take this opportunity of thanking those who are so liberally supporting this enterprise both by their subscriptions and expressions of appreciation for the class of books supplied by us in this Series, but from lack of support, we cannot continue the same longer than to fill our contracts with the London Houses and our customers.
