

SUFFERED FOR THREE YEARS.

HEADACHES AND RUSHING OF BLOOD TO THE HEAD.

APPETITE WAS GONE.

TRIED MANY DIFFERENT REMEDIES BUT

BURDOCK BLOOD BITTERS CURED

MRS. WALTER MANTHORNE, BROOKLYN, N.S.

She says: "I suffered for three years with terrible headaches and rushing of blood to my head. I lost my appetite and became very thin and weak. I tried many different remedies and consulted doctors, but all in vain until I started to use Burdock Blood Bitters. I had not taken more than two bottles when I began to feel better, my appetite improved wonderfully and I increased rapidly in weight. I took altogether four bottles and am now as well as can be, for which I owe my thanks to Burdock Blood Bitters. I can recommend it to all those suffering as I did."

Wood's Phosphorine

Is an old, well established and reliable preparation. Has been prescribed and used over 40 years. All ailments of the Digestive System, such as Indigestion, Flatulence, Spasms, Colic, Nausea, and all effects of Abuse or Excesses, the Excessive use of Tobacco, Opium or Stimulants, Mental and Brain Worry, all of which lead to Insanity, Consumption, and an early grave. THE CHINOOK WINDS.

Mr. Stupart Gives Reasons for Inequalities in N.E.'s Climate.

In a recent lecture, Mr. Stupart, director of Canada's Meteorological Survey, said that what was known in Europe as the Föhn and in America as the Chinook wind, was frequent on all ranges of British Columbia, as well as on the Alberta prairies.

The Chinook was directly connected with the regular wind system, of the cyclonic areas which at intervals pass the continent from the Pacific, attended in districts to the southward by westerly winds, the strength of which is proportionately to the energy of the cyclonic disturbance. The pressure of the atmosphere decreases upwards, when, therefore, a mass of air is forced by any cause to raise itself from the surface of the earth to a certain height, it is submitted to a constantly diminishing pressure, and accordingly expands, and as every expansion is a work which is accomplished by a consumption of heat, the air cools not greater than will allow the air to retain its watery vapor the temperature will continue to fall at the rate of about 1 Fahr. for every 180 feet rise; but as soon as the dew point is reached the water vapor passes to the fluid or solid state, clouds are formed and rain or snow falls. The confined heat is set free, proceeds more slowly, and it may be within the limits of which we have experience be stated as about 1 Fahr. for every 180 feet.

"When a mass of air, on the contrary, sinks towards the surface of the earth," Mr. Stupart continued, "it comes under higher pressure, is compressed and, consequently, heated. Its temperature will rise more and more above the dew point, and the moisture will, with continually increasing ease, be held dissolved in the state of vapor. The heating during the whole descent will be 1 for every 180 feet.

These physical laws, first applied by Dr. Hann, of Vienna, explain the properties of the Chinook. The air comes from the Pacific, saturated with moisture, is precipitated in the form of rain on the low levels, and snow at higher levels, and then, rushing through the passes and over the summits of the mountains, descends into the eastern valleys at a considerably higher temperature than it had at a corresponding altitude on the western slopes.

"The Pacific winds are deprived of their moisture as they ascend the western slopes of the Coast Range, and a wet climatic results along the Coast and in the Lower Fraser valley, but the air, after passing over the Coast Range, other flows eastward or is drawn down to lower levels, becoming drier and warmer, and the interior plateau between the Selkirk and the Coast Range possesses a comparatively dry climate. Imposing on the western slopes, first of the Gold Range and then of the Selkirk, the air is again forced upwards with a lowering temperature, and a large snowfall results in the warm seasons. After passing the summit of the Selkirk, the air, being no longer forced upward to the higher levels, ceases to deposit moisture until it again impinges against the still more lofty Rockies.

"The lower Fraser River and the Coast neighborhood of British Columbia possess a much more equable climate than other parts of the Province. The annual mean temperature is between 48 and 50. The winters are not cold, the January temperatures being nearly the same as London, England.

Different Climate Eastward.

"Passing to the eastward of the Coast Range, we find a different climate; the summers are warmer and the winters are colder than on the Coast. As regards temperature, December and January may be fairly compared with the corresponding months in the Niagara District, and indeed the whole summer may well be compared with Southern Ontario, except that the air is much drier and the precipitation is scant, in addition to this, the spring is earlier. "Griffin Lake is situated about 100 miles to the eastward of Kamloops, among the foothills of the Selkirk, and the effect of this greater distance from the high Coast Range and increasing altitude is shown in a somewhat lower temperature than at Kamloops, and a larger amount of precipitation. The snowfall here aggregates about 130 inches each winter.

"As the Selkirk are ascended the effect of increasing altitude becomes manifest, and at Glacier House, at the base of Mount Sir Donald, the mean monthly temperature averages nearly 8 degrees lower than at Griffin Lake, and the precipitation being comes greater owing chiefly to an exceptionally heavy snowfall between October and April; the fall aggregating as much as 36 feet.

Warm Days, Cold Nights. "July and August are months with a mean temperature rarely exceeding 57 degrees or 58 degrees, and with pleasantly warm days and usually bright sunshine, followed by cold nights, the marvelous scenery of the Selkirk and the great Macleod Glacier can be thoroughly enjoyed.

"East of Rogers Pass, in the valley of the northward-flowing Columbia, again is found the Chinook effect, as evidenced by drier weather and a greater preponderance of clear skies than on the Western slopes. The level is still high, however, the lofty Rockies are not far to the eastward, and the distance from the Coast is not so great that except when the Chinook is blowing, the character of the winter betrays rather of the Continental than the Coastal type. At Donald nearly all months are characterized by a large daily range of temperature, and that especially in winter extremely low temperatures are recorded."

THE STAGE

"All the world's a stage and all the men and women merely players."

ANNOUNCEMENTS.

At the Chatham Grand:—Rev. Charles McLean, "Schlatter," May 12.

Washburn's "Uncle Tom's Cabin"—May 18.

(Supplied to The Planet by Press Agents.)

LETTER BOX

CITY SHOULD ACT.

To the Editor of The Planet:—Dear Sir,—I notice in your issue of Saturday a short article "Good Suggestions." I can assure "Citizens" that the Navigation Company agree heartily in all he says in regard to the crowds that congregate there at night is very annoying to the Navigation Company as well as the public. Fully nine-tenths are there simply out of curiosity and a large proportion of them are boys and girls from six to ten years of age and should be at home in place of on the streets. Unfortunately the Navigation Company have no control or power to fence off the landing as it is a public street or the Company would be only too glad to put a fence and gate.

Yours truly, WM. BALL, President Navigation Company.

CAPITAL SUGGESTION.

To the Editor of The Planet:—Dear Sir,—In your issue of Friday night I note that the Chief thought it was adding insult to injury to ride past his house on the sidewalk. I would advance as a possible explanation the theory that many of the cyclists do not know where they live. Personally I do not know where any of the policemen live. The Planet would confer a very great favor by publishing the exact location of their homes and at what hours they are likely to be there.

I would also suggest that the Health Inspector wear a broad bright red sash across his uniform, as it is most annoying to get off the sidewalk on seeing a blue coat in the distance after riding some distance over the rough roads to find it was only the H.I. Please advocate CYCLIST.

A STRANGE STORY

Willie Compland, of this city, comes from Dresden with an almost incredible story. He, however, vouches for the truth of it and says it is an actual fact.

"I stopped over in Dresden the other night," said he, "and while there I saw one of the oddest things I ever saw in my life before. It was a cat, raising and caring for a small rat."

"A man named Ripley, who resides near Dresden, had a cat with five kittens. He did not want so many cats around him so he drowned two of the kittens. The old cat missed her two children and went out to look for them. She came back with a small rat and ever since then she has cared for it and nursed it along with her three kittens. This was some time ago, and the rat has now grown to quite a size, but she still seems to have as much affection for it as she has for the remainder of her family.

"One queer incident in connection with the story is that since she undertakes to raise the rat, killed and brought to her young several other rats and she and her kittens have eaten them in the presence of the favored rat."

"This sounds like a well-made-up story," concluded Mr. Compland, "but if anyone doubts the truth of it and is in Dresden next week he can see with his own eyes that it is true, and Mr. Kimmerly has the cat and rat in his store window as an advertisement."

WALKED LIKE AN OLD MAN

Joseph Hamel Suffered Long Before he Used Dodd's Kidney Pills.

Had Lost All His Energy and was Discouraged—The Great Kidney Remedy Cured Him Completely.

Nicolet, Que., May 10.—(Special).—Of the many people in this neighborhood who have been brought back to health and strength through the use of Dodd's Kidney Pills few are in a better position to give the public the benefit of their experience than Joseph Hamel. He knows both sides of the question—the suffering and the relief.

"I suffered from Kidney Disease for three or four years," says Mr. Hamel. "For two years I would take two or three days off work a week. I was continually sick and forced to walk like an old man. I lost all my energy and became discouraged. "After trying a lot of medicines that only gave relief for a while I was fortunate enough to try Dodd's Kidney Pills. After using three boxes I was completely cured."

Mr. Hamel is enthusiastic in his praises of Dodd's Kidney Pills and there is not the slightest doubt of the correctness of his statement as dozens of people can testify to his illness and cure.

WHAT ONE BOY DID.

How a Manly Boy Reformed the Manners of an Entire Hotel.

"Don't tell me that boys have no influence," said the dark-eyed lady with emphasis. "Why I myself knew a boy of twelve whose influence changed the manners of an entire hotel. Tell you about it? Certainly. It was a family hotel on the seacoast in southern California, and almost all the guests in the house were there for the winter. We had become well acquainted and—well, lazy, I guess is the best word for it. So we decided that it was too much trouble to dress for meals, and dropped into the habit of coming in just as we chanced to be from lounging in the hammock, or fishing off the pier, or bicycle-riding down the beach. Our manners, too, had become as careless as our dress; we were there for a rest, a good time, and these little things didn't matter, we said."

"But one day there was a new arrival. Mrs. Flinn, a young widow, and her little son Robert, a sturdy, bright faced lad of twelve as you often see. The first time he came into the dining-room, erect, manly, with his tie and collar in perfect order, escorting his mother as though she had not been a princess, and standing until not only she but every lady at the table was seated, we all felt that a breath of new air had come among us and every one there, I think, straightened up a little. How- ever, we looked at one another and nodded our heads as much as to say, 'He won't keep this up long.' We were strangers and in the familiarity of every-day life we did not doubt that it would soon wear away."

"But it did not. Bob was full of life and active and busy as a boy could well be. At the same time, when twenty minutes before meals his mother blew a silver whistle, no matter where he was or what he was doing, everything was dropped, and he ran in to make himself ready. And every time he came to the table with his clean face and smooth hair and clothes carefully arranged or changed, he was himself a sermon on neatness and self-respect, which though none of us said much about, we felt all the same. Then by and by one and another began to respond to the little silver whistle as a bicycle bell, and another a half-invalid neighbor, till you would hardly have believed it was the same company of a few weeks before."

"It was the same with manners. Bob's politeness, simple, unaffected, and unassuming, at the table, on the veranda, upon the beach, wherever you met him, his readiness to be helpful, his deference to those older, his thoughtfulness for all, was the best lesson—that of example. As a consequence the thoughtless began to remember, and the selfish to feel ashamed, and those who had been simply careless to keep themselves more in hand."

"And so as I said in the beginning, in less than a month the whole atmosphere of that hotel was changed by the influence of one boy, and the only one there who was utterly unconscious of this was Bob himself. This is truly a pleasant incident. We like to think of this boy who, because he was at heart a true little gentleman, drew what was kindly and courteous and gracious in those about him to the surface as by a magnet. In like manner it is possible for every boy to be so true and kindly and tender, so unselfish of himself, so responsive to conscience, that wherever he goes he shall carry an inspiring atmosphere an influence with him; and whoever he meets shall, because of him, unconsciously be drawn to better thoughts and nobler living."

LET VOYAGERS REJOICE.

French Naval Officer Has Devised an Antisubmarine Boat.

M. Turc, a French naval officer, has invented a boat which, he says, will neither pitch nor roll, and therefore will not cause seasickness. As the roll of a wave rarely lasts longer than ten seconds in a narrow sea, the Mediterranean and the Atlantic his vessel would have to have a counter roll lasting twenty-two seconds.

The form of the vessel may be described as a combination of submarine and plane, the latter rising high above the surface of the sea. In the submarine, 300 feet long, 75 feet broad and 12 feet deep, would be placed the boilers, engines and steering gear, which would be submerged to a depth of twelve feet. From the submarine would rise vertically two floaters 200 feet long and ten feet broad, lying parallel at a distance of sixty-five feet from each other. Communication would be maintained by these floaters between the submarine and the platform, containing a cabin at a height of thirty feet above the water.

This craft would have a displacement of 6,300 tons and would be propelled at a speed of nineteen knots an hour by engines of 16,000 horsepower.

In the submarine Degree. The largest armor-plate ever rolled was made by the firm of Krupp, at Düsseldorf, last year. It weighed 106 tons.

Strophantidin is said to be the most deadly poison on earth. It is made from an African plant by ether and alcohol.

The largest negative ever taken of a sitter was 64 inches by 33 inches, on practically life-size. It was the work of a Dublin firm.

The largest estate sold last year in the United Kingdom was that of Glenapp, in Ayrshire. It is 8,600 acres. But the most expensive was Battle Abbey, in Sussex, for which was paid £300,000.

Information for Boston Scientist. A Boston scientist has been trying to find out what makes drunken men so double. Heretofore, says The Chicago Record-Herald, it has been generally supposed that it was the stuff they drank.

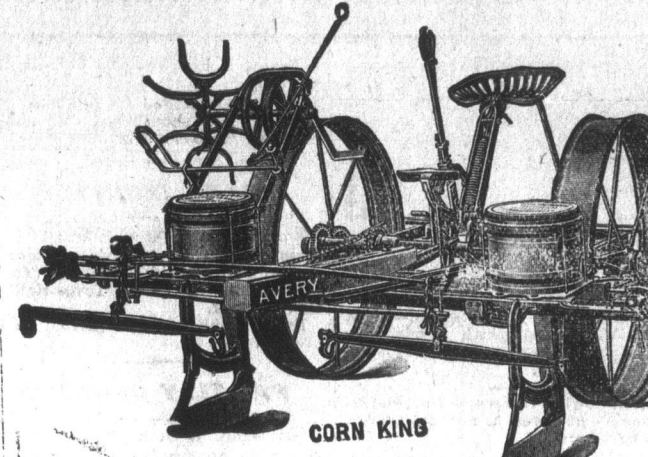

PERFECT MANHOOD

is rightly yours; but if you are not the man you should be, if you are losing your energy, your vital force, shrinking parts, and feeling you don't care what happens, you are suffering from Lost Vitality; it creeps upon you unawares; do not deceive yourself or remain in ignorance while you are being dragged down by this disease; no matter what the cause may be, whether early abuse, excess, or overwork and business cares, the results are the same: premature loss of strength, emphysema, impotency, Varicocele and shrunken parts. THE LATEST METHOD TREATMENT WILL CURE YOU. Guaranteed as a positive cure for these conditions. Read the following sworn affidavit. Positively no testimonials used unless patients give sworn permission.

Jan. 13, 1900. This is to certify that I had been a sufferer from Nervous Debility, lost vitality and weakness for a long time; had been doctoring both in Canada and Detroit without receiving any benefit, and placed myself under Dr. Goldberg's care, Dec. 22, 1900. I noticed an improvement in my condition in less than one week; was discharged entirely cured April 19, '01, and have had no return of said trouble. Signed, A. E. LE CHATRE, Wm. A. Smith, Notary Public, Wayne Co., Mich.

Cure Guaranteed—Pay When Cured. I CURE Varicocele and Stricture without cutting, stretching or loss of time; also Blood Poison, Chronic Nervous, Private, Impotency, Kidney, Liver, Bladder, Stomach, Female and Rectal Troubles. Consultation Free. If you cannot call, write for blank for home treatment. Perfect system of home treatment for those who cannot call. Book Free. All medicines for Canadian patients shipped from Windsor, duty prepaid.

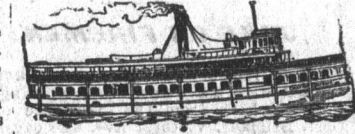

DR. GOLDBERG, 208 WOODWARD AVE., COR. WILCOX ST., DETROIT, MICH.

When you want a Corn Planter, buy the **CORN QUEEN**. There were over sixty planters sold by last year. Notice the spring lift adjustment; notice the large grain boxes; notice the solid frame and steel adjustable Eversens, and we never had any trouble with any corn planter sold yet. As we have a large stock on hand, we will sell at a reduced price, until our stock is cleaned out. We guarantee this planter to give perfect satisfaction, and it is manufactured expressly for Kent County. Call and see it at
