

Invest in a VESSOT and a MOGUL. You Cannot do Yourself a Better Turn

YOU can run a Vessot "Champion" Grinder just as well as any miller could. With it you can save the miller's profit on all kinds of grinding---flax, barley, corn, crushed ear corn, oats, wheat, rye, peas, buckwheat, screenings, mixed grain, or any kind of feed stuff, fine or coarse as desired.

This grinder cleans grain as well as it grinds. The spout that carries the grain to the grinder is made with two sieves, a coarse one above and a fine one below. The coarse sieve catches nails, sticks and stones, but lets the grain fall through. The fine sieve holds the grain but takes out all sand and dirt. The grain passes to the grinding plates as clean as grain can be.

And it comes from the plates well ground. Vessot plates have such a reputation for good work that we have had to protect our customers and ourselves by placing the trademark "SV" on all the plates. Look for it.

To do its best work a Vessot grinder should be run by the steady power of a Mogul kerosene engine. Then you have an outfit that cannot be beat for good work or economy. Write us a card so that we can send you catalogues of these good machines.
