

### The Cream of Cream Separators

The Sharples Dairy Tubular is the cream of cream separators—the pick of the whole bunch. Supply can wait, you can fill it with one hand. All gears enclosed, dirt free, absolutely self-oiling—no oil holes, no bother—needs only a spoonful of oil once or twice a week—uses same oil over and over. Has twice the skimming force of any other separator—skims twice as clean. Holds world's record for clean skimming.

Bowl so simple you can wash it in 3 minutes—much lighter than others—easier handled. Bowl hung from a single frictionless ball bearing—runs so light you can sit while turning. Only one Tubular—the Sharples. It's modern. Others are old style. Every exclusive Tubular features an advantage to you and fully patented. Every Tubular thoroughly tested in factory and sold under unlimited guaranty. Write immediately for catalog 7-108 and ask for free copy of our valuable book, "Business Dairying."

**SHANNON BANK STOCK FARM**  
FOR AYRSHIRES AND YORKSHIRES  
Young stock of both sexes for sale from imported stock.  
W. H. TRAN, Cedar Grove, Ont.

A well-known clubman of New York was in camp with a friend from Minnesota. Toward morning the New Yorker awoke shivering with cold. The fire was very low. His companion was fast asleep. It isn't nice to get out of a warm blanket to roll frosty logs to the fire, so the wily New Yorker gave his friend a kick and then pretended to be asleep. There was no response, and presently he tried another kick. At this the Westerner broke into a laugh. "I did the same thing to you twenty minutes ago," he explained, "and that's how you came to be awake." Then, of course, both turned out to build a fire.

A stout man once presented himself to Sir Francis Burdett, and asked him for employment. "I do not know you," said Sir Francis, looking at him. "Why, have you forgotten me?" said the man; "I was formerly a page in your house." "My good man," said the baronet, "since then you have become a volume!"

reputation of this medicine.

### QUESTIONS AND ANSWERS. Veterinary.

#### IRREGULAR STRANGLES.

Mare took swelling under the jaw in August. It broke and discharged matter. Another swelling formed from angle of jaw to ear. It is hard and hot.

Ans.—It is probable the swelling contains matter, and, as there are important blood vessels in that region, it would be wise to employ a veterinarian to operate and search for pus. If no pus be present, the swelling can be reduced by rubbing well, once daily, with compound iodine ointment.

#### SORE NECK—CONDITION POWDER.

1. Horse is subject to a sore neck whenever he is worked to a machine whose tongue causes weight upon the collar. Little boils form, then break, and are hard to heal. I have had a collar made to fit him, and have tried zinc and mostly all kinds of pads to no purpose.

2. Give recipe for good condition powder.

Ans.—1. Some horses are particularly predisposed to this trouble. It is almost impossible to heal the parts without giving rest. During the first stages the application of hot linseed-meal poultices hastens the formation of pus and allays inflammation. After eruptions take place, the parts should be dressed, three times daily, with a lotion composed of one ounce each sulphate of zinc and acetate of lead, half ounce carbolic acid and one pint water. All that can be done to prevent the trouble is to wear a good-fitting collar, with a hard, smooth leather pad, which must be kept clean, and the collar should be taken off whenever the horse is in the stable, even for a short time.

2. Take one pound each of sulphate of iron, gentian, ginger and nuxvomica, and two ounces quinine. Mix. Dose: one tablespoonful, twice daily.

#### Miscellaneous.

#### WEIGHT OF SHROPSHIRE.

Please inform me, through your paper, the highest weight attained by Shropshire sheep.

Ans.—We know of no published records of extreme weights. Weight depends very much on condition and age, or stage of maturity. A fully-matured Shropshire ram, in really good condition, should weigh 225 pounds; but the same animal might be fed to weigh 275 pounds, or even to exceed that weight. Big weights in these days do not count for so much as superior type, quality and covering.

#### MISCELLANEOUS QUERIES.

1. How are Polled Herefords bred?
2. How are Rose-comb Brown Leghorns bred?
3. How are Rose-comb White Leghorns bred?
4. What are the dimensions of a ton of ensilage?
5. Is it necessary for a person having pure-bred stock, in case of death, to notify the secretary of the association?
6. What stallion was the winner in the two-year-old class (imported) at the Toronto Industrial, 1905? By whom was he imported? Who is the present owner?
7. What is the law regarding sheep being worried and killed by dogs? Can you shoot the dog? Has the owner of dog to pay damages?

Ans.—1. We are not aware of a Polled Hereford breed having been established. 2 and 3. The secret does not appear to have been published. 4. Fifty cubic feet, as an average, depending somewhat on depth of silo and weight pressure. 5. No. 6. You do not say what breed. If a Clydesdale, the records say, Leamside [5015], exhibited by Andrew Aitchison, Guelph; imported by John A. Turner, Calgary, Ont. Present owner not known. 7. Too lengthy for publication here. Apply to Hon. Nelson Monteith, Dept. of Agriculture, Toronto, for copy of the Act.

### Stoneycroft Ayrshires.

#### Beaver Creek Herd of Holsteins

FOR SALE: A few cows and five yearling heifers, and some heifer calves. All bred from good milkers.

**Albert Mittlefehldt, Elcho, Ontario.**

#### FAIRVIEW HERD is the place to buy your next bull.

I can furnish you with a bull sired by our great herd bull, **PONTIAC KORNDEKE**, who has 19 daughters in the last year's report that made official records from 12 pounds at less than two years old to over 31 pounds at four years, and the whole number averaged over 41% fat. No other bull in the world has ever made such a showing in one year. I have just tested another of his daughters that made 36.40 pounds butter in seven days with second calf. I have over 50 cows and heifers in calf to him. Come and look my herd over before making your selections elsewhere. **E. H. DeLong, Havelton: St. Law. Co., N. Y., near Prescott**

#### RIVERSIDE HOLSTEINS

For sale: Eight young bulls from 3 to 8 months old, out of Record of Merit cows, sired by **Johanna Rue 4th's Lad** and **Sir Pieterje Posch DeBoer**, whose dam and sire's dam average in official test 75.87 lbs. butter in 7 days, and 87.6 lbs. milk 1 day.

**J. W. RICHARDSON, Caledonia, Ont.**
