A beautiful head of huir is appreciated by everybody, and how to secure it, interests everybody. The hair and scalp must be kept free from scurf and dandruff, and not be allowed to get dry and harsh. The roots must be stimu lated to healthy action. Flexibility and a handsome gloss are essential. All these requisites are easily secured by the use of Ayer's Hair Vigor.

From the easy expectoration. increased respiratory power of the Lungs, and the removal of irritation, manifest from cessation of Cough and other alarming symptoms, after using Fellows' Compound Syrup of Hypophosphites, it is clear that the formation of tuberculous BRASS matter is not only stopped, but that already deposited is being carried away.

The common expressions, " I feel so dragged," "My food don't digest," "I 50 bales Cotton Warp, do not feel fit for anything," which we so often hear during the spring and early summer months are conclusive evidence that the majority of people require at that season especially a reliable medicine that will strengthen the organs of digestion, stimulate the circalation of the blood, and " tone up the debilitated constitution.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derivge-ment and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any dis-ease which arises from impurity of the blood need despair who will give AYER'S SARSAPARILLA a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials. and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AYER'S SARSAPARILLA is a medicine of such concentrated curative power, that it is by far the best, cheapest. and most reliable blood-purifier known. Physicians know its composition, and pre-scribe it. It has been widely used for forty years, and has won the unqualified contience of millions whom it has benefited.
