We face this Problem of the West

**WILD AND TAME OATS IN WHEAT HAVE BECOME A PEST  
WE ARE SPECIALISTS. WE ARE THE DOCTOR**

It is a special case and requires special expert treatment. The oats are there. You must have them out. You want them all out. Nothing can take them out too fast to suit you.

We have some reputation in our business. We make Fanning Mills for all the world, and every place on this green earth needs something special in a Fanning Mill.

Last year we sent 1000 Mills to Australia. They are as different from the Canadian type as a Kangaroo is from a Buffalo. We send special Mills to Bengal, Natal, Buenos Ayres, Glasgow, and even to Quebec. When we diagnose the case we send the mill that does the work.

**We have been making Fanning Mills since 1867**

Don't you think we could manage to make a special Mill for you? We know we are equipped to build the Mill you need. We make our own Wire Cloth. We punch our own Zinc. There is no mesh of cloth of size or shape of hole in Zinc we cannot make or use.

**OUR UNITED STATES FACTORY**

Ten years ago, when our United States business got so large and the tariff wall too high, we built a factory in DETROIT, MICH., and now over there we make 10,000 Mills a year. We have several kinds. For every State needs something special in the set of screens.

**One Mill will not do Everything and Everywhere**

Don't you think we have the experience, the brains and means to build the very Mill for you. The Canadian West is no new field to us. Our Mills were there before the C. P. R.

**This Latest Special Mill for THE WEST will be sent out to you  
ON THIRTY DAYS' FREE TRIAL**

with the binding guarantee that it will SEPARATE OATS FROM WHEAT better and faster than any Mill on the Market. We have seen them all, we know what we are talking about.

At the regular work it is the same old stand-by. It cleans Oats, Barley, Flax, all the grass seeds just the same.
