

ST. VITUS DANCE

Cured Through the Use of Dr. Williams' Pink Pills.

Chorea, or as it is more generally known, St. Vitus dance, is a disease that usually attacks the young children, though older persons may be afflicted with it. Its most common symptoms are a twitching of the muscles of the face and limbs. As the disease progresses this twitching takes the form of spasms in which the jerking motion may be confined to the head, or all the limbs may be affected. The patient is frequently unable to hold anything in the hands or to walk steadily, and in severe cases even the speech is affected. The disease is due to debility of the nerves and is always cured by Dr. Williams' Pink Pills, which enrich the blood, tone and strengthen the nerves and thus restore the sufferer to good health. The following is a striking instance of what Dr. Williams' Pink Pills will do in this trouble. Mrs. Chas. Phipps, Pelee Island, Ont., says:—"At the age of fourteen my eldest daughter, Edith, became much run down, and the trouble developed into St. Vitus dance. First her left arm became affected, then the left leg and entire left side. She grew so bad that she actually could not hold anything in her hand, and could only go about with a sliding, jerking motion. Notwithstanding that we were giving her medicine, she seemed to be growing worse, and finally her speech became much affected. We became so much alarmed about her that finally her father got a supply of Dr. Williams' Pink Pills, and we began giving her these. In the course of a few weeks she was much better, and before all the pills were gone she was again enjoying perfect health. This was in 1908, and as she has not had a symptom of the trouble since I feel justified in saying the cure is permanent."

Be sure you get the genuine pills which are sold by all medicine dealers or may be had at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

YOUTH FOUND COMET.

Made Discovery With Home-Made Telescope.

To a young amateur astronomer in London, England, working with a telescope of his own making fell the honor of discovering, simultaneously with Prof. Quenisset, the new comet which was the other day for the first time observed in the heavens. This youth—he has just turned 21—communicated the news of his discovery to the Royal Observatory at Greenwich before Prof. Quenisset's observation became known, and had he communicated with the Kiel Observatory, as the more experienced astronomer did, it is probable that the new comet would have been registered under the double name of Quenisset-Brown, Francis Brown being the name of the Englishman.

Mr. Brown lives with his parents at Lee, where for five years he has been studying the stars as a hobby. Two years ago he constructed there a big reflecting telescope, with a twelve-inch aperture, which is rigidly up in his father's back garden.

SKIN SUFFERERS

Do you realize that to go through life tortured and disfigured by itching, burning, scaly and crusted eczemas, or other skin and scalp humors is unnecessary? For more than a generation, warm baths with

Cuticura Soap

And gentle applications of Cuticura Ointment have proved successful in the most distressing cases, of infants, children and adults, when all else had failed.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on treatment of skin and hair, will be sent, post-free, on application to "Cuticura," Dept. 974, Boston, U. S. A.

MEN OF GENIUS AT TABLE.

Tales of Great Men Who Were Great Eaters.

It would appear that the man of genius usually requires a large supply of substantial food. Intellectual work demands full nutrition to repair the waste of brain tissue. Scott was wont to attribute his extraordinary capacity for continuous work to his digestion and the wholesome restraints of his appetite in his youth. "I have as keen an appetite now as any man," he said, "but I know when to stop."

Mirabeau is stated to have been an enormous feeder, eating as much at a meal as would suffice three ordinary men. Talleyrand was also a noted eater. Goethe and Napoleon ate large quantities of food, but cared little for the quality. Bismarck was noted for his appetite, which was insatiable, but his food was of the simplest.

Many stories are told of the gross delight in eating evinced by the two Dumas, father and son, one of which is that the younger, being overtaken by a storm, took refuge in a hotel near Paris. Twenty-four turkeys were hanging upon the spit.

"And all for a single traveler," explained the host.

"C'est mon pere!" exclaimed Alexandre. He was right.

FACT AND FANCY.

Oats make the most fattening cereal.

The voice of winter is, perhaps, snow-balling.

In 1350 skilled labor was paid ten cents a day. Unskilled got only three cents. But half a dollar in 1350 would buy a sheep.

No consistent vegetarian has a right to wear mutton-chop whiskers.

A slight lightning stroke has been known to cure neuritis.

Rich bachelors often make poor husbands.

Stubborn mules will work splendidly if a little wine or beer is mixed with their food.

Full dress in most regiments involves, oddly enough, beards.

Lord Roberts and Lord Wolseley, the two English field marshals, are 79.

The army is nowadays the safest and healthiest profession.

A Pill that Proves its Value.—Those of weak stomach will find strength in Parmenter's Vegetable Pills, because they serve to maintain the healthful action of the stomach and the liver, irregularities in which are most distressing.

Dyspepsia are well acquainted with them and value them at their proper worth. They have afforded relief when other preparations have failed, and have effected cures in ailments of long standing where other medicines were found unavailing.

Nearly every man has a fool theory that he believes the world will finally adopt.

Minard's Liniment Cures Diphtheria.

Some men are born great and some others roll up their trousers and wade right into the midst of greatness.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil, which acts like magic. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

"MONDAY MORNINGITIS."

Have you ever felt it—that queer lackadaisical, "don't care," "can't do" feeling? It wakes up with you on Monday mornings, and continues with ordinary, hard-working man or woman, subject to the ills and worries of everyday life. At a very early hour the Monday morning "old man of the sea" perches himself on his victims' shoulders, and the first spell cast is a haunting inclination to rise. Nor does the fell influence stop at this. Work loses completely its usual savour. Strong and irresistible waxes the temptation to "slack" wholeheartedly. And the strange part of it is that members of every community are liable to attacks of this peculiarly paralyzing form of Monday-phobia.

Even kings and princes cannot escape it. And the one only cure for it is a little determination. Make an effort to get up quite to time. Arrive early at your work. Attack that work, whatever it be, immediately and with spirit. Do not dilly-dally, and thus give the "tired feeling" time to get a permanent grip.

SAWDUST AS BREAD.

Sawdust may not appeal to the palate as a digestible or appetizing substitute for flour in the making of bread, but all the same there is a large bakery in Berlin, Germany, turning out 20,000 loaves of sawdust bread daily. The sawdust is first subjected to a process of fermentation, and various chemical manipulations. Finally it is mixed with one-third part of rye flour, formed into loaves, and baked in ovens like any other bread.

Although this new "pain de bois," as the French call it, is meant for consumption by horses only, claim is made by the manufacturers that in case of famine it would furnish a nutritious and highly satisfactory food for human beings.

NOTHING LIKE THEM

FOR A SORE BACK

DODD'S KIDNEY PILLS STILL DOING GREAT WORK.

Mrs. T. G. Alexander, of Hawthorne, after twelve years' suffering, tells the public what they are doing for her.

Hawthorne, Ont., Dec. 11 (Special).—"There is nothing like Dodd's Kidney Pills for a sore back." That is the statement of Mrs. T. G. Alexander of this place, and all her neighbors agree that she should know. "I suffered for twelve years from a pain in my back, Rheumatism and Heart Disease," Mrs. Alexander continues. "I was always tired and nervous and my sleep was broken and unrefreshing. Since taking Dodd's Kidney Pills I am feeling so much better that I feel I must say a good word for them."

No matter how long you have suffered Dodd's Kidney Pills cannot fail to help you if your trouble is of the kidneys. If you use Dodd's Kidney Pills early the cure will be quick. If your trouble is of long standing it will take them longer to cure you. But they always cure. People from all parts of Canada who have been cured are telling about it in the newspapers almost every day.

ALE TESTER HAD SINECURE.

Elaborate precautions were taken in the eighteenth century to insure the fitness of English ale. The official sugar seeker was an institution. His post, though no sinecure, required little brainwork.

But leather breeches were indispensable. Here is his programme: "He would enter an inn unexpectedly, draw a glass of ale, pour it on a wooden bench and sit down in the little puddle he had made. Here he would sit for 30 minutes by the clock."

He would converse, he would smoke and he would drink with all who asked him to, but he would be very careful not to change his position.

At the end of the half hour he would make as if to rise, and this was the test of the ale; for if the ale was impure, if the ale had sugar in it, the tester's leather breeches would stick to the bench."

THE POPULAR PIANO.

It is just a little over two hundred years since the piano was first invented and used in Italy, and it was not till nearly sixty years later that England came to know the "new musical instrument called Piano-forte." Since that day the piano has progressed. And the majority of homes regard the piano as a necessity rather than a luxury.

You can buy one for \$75, or you may pay \$75,000, as one millionaire did. For how many people the piano finds employment it would be difficult to estimate. Apart from the host of teachers, every piano manufactured passes through the hands of some fifty different people; while more than forty different materials are employed in the construction of the most ordinary instrument.

"What is the hardest thing to learn about farming?" inquired the visitor. "Gettin' up at five o'clock in the mornin'!" replied Farmer Cornstossel.

Any man can secure an appreciative audience by letting his money talk.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

A man's natural bent seems to be crooked.

Holloway's Corn Cure takes the corn out by the roots. Try it and prove it.

A KNIGHT ERRANT.

Gwendoline—"If it were but possible, in these prosaic days, for you to do something brave and knightlike, in order to prove your love!"

George—"Well, ain't I going to marry you next month on a salary of \$10 a week?"

Some people never appreciate a favor until they need another.

BRITAIN'S TOTAL EXPENDITURE IN NAVAL MATTERS IN 1910 WAS NEARLY THREE TIMES THAT OF FRANCE FOR THE CORRESPONDING PERIOD.

Hamlin's Wizard Oil is recommended by many physicians. It is used in many public and private hospitals. Why not keep a bottle on hand in your own home?

MAN AS MACHINE.

It is a little startling to learn that man is superior to all machines. In the best artificial machines the efficiency is only fourteen per cent. The human machine gives a profit of from twenty-five to thirty per cent. on the fuel; in other words, on the food consumed. A man always wastes energy during the first five minutes of work Monday's labor in man is the worst, and Tuesday's the best in the week. That is, according to a large number of experiments made by a distinguished professor. Man, he considers, is more liable to make mistakes in the afternoon than in the morning. Is this the reason banks close early?

ALMOST INVISIBLE SCREWS.

Are Four One-thousandths of an Inch in Diameter.

The smallest screws in the world are made in a watch factory. They are cut from steel wire by a machine, but as the chips fall from the knife it seems as though the operator was simply cutting up the wire for this own amusement. No screws can be seen, and yet a screw is made at every third operation. The fourth jewel screw is next to invisible, and to the naked eye it looks like a grain of dust. With a magnifying glass, however, it is seen to be a screw with 260 threads to the inch, and with a very fine glass the threads may be seen plainly.

These little screws are four one-thousandths of an inch in diameter. It is estimated that an ordinary thimble would hold 100,000 of them. About a million are made in a month but no attempt is ever made to count them.

In determining the number, 100 of them are placed on a very delicate balance, and the number of the whole amount is calculated from the weight. All the small parts of the watch are counted in this way, probably 50 out of the 120.

After being cut the screws are hardened and put in frames, about 100 to the frame, heads up. This is done very rapidly, but entirely by the sense of touch instead of by sight, so that a blind man could do it as well as the owner of the sharpest eye. The heads are then polished in an automatic machine, 10,000 at a time. The plate on which they are polished is covered with oil and a grinding compound, and on this the machine moves them very rapidly by a reversing motion until the polish is perfect.

COLD SORES AND ULCERS ARE HEALED BY ZAM-BUK.

Cold sores, chapped hands, ulcers and winter eczema are common troubles just now, and for all these, Zam-Buk will be found the surest and quickest remedy. Sometimes cold sores arise from chilblains on the toes or fingers, and in the former case, where colored socks are worn, there is a danger of blood-poisoning from the dye. Zam-Buk being so powerfully antiseptic removes the danger as soon as applied.

Mr. W. J. Halliday, of Ash Grove, Ont., says: "I had my little finger frozen, and it cracked at the first joint, causing a bad sore, which discharged freely and would not heal. The pain was very bad, and the whole of my hand became swollen."

"A friend advised me to try Zam-Buk, and in a very short time it healed the sore."

Miss Lillie May, of Stoney Creek, Ont., says: "A few weeks since, several nasty, disfiguring cold sores suddenly broke out on my lips, which became much swollen. I tried Zam-Buk, and after a few applications of this balm, every sore was healed."

Zam-Buk will also be found a sure cure for eczema, blood-poison, various sores, piles, scalp sores, ringworm, inflamed patches, babies' eruptions and chapped places, cuts, burns, bruises, and skin injuries generally. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, upon receipt of price. Refuse harmful imitations and substitutes.

Use also Zam-Buk Soap, 25c. tablet. Best for baby's tender skin!

BONDS WILL INCREASE YOUR INCOME

Your surplus money, your savings, float most of the big undertakings in Canada. The banks, loan and insurance companies, etc., use the money you deposit with them to buy bonds.

The government charter under which these companies act, restricts them to certain kinds of investment. They cannot invest where their money is not quickly available when wanted. They can and do buy bonds.

When you increase the yield of your money it is equivalent to increasing your principal. When you can do this without any sacrifice of security, as the case when purchasing bonds, it is a matter which demands your close and immediate attention.

Literature on the subject of bonds which we will send you on application, describes fully this premier form of investment.
