# **GLEVER THEFT** IN MONTREAL

Two Men Carry Off Valuable Silver Plate

Finest Cabinet in Mentreal's Residential Section Left Bare—Thieves No Amateurs

MONTREAL, Nov. 26.—Two men dur-ing the hours of elven-thirty last night and six this morning perpetrated one of the most skilfully executed burg-laries the city has ever known in the residential section. It was from the residence of James Crathern, 32 Mc Gregor street, that the men stole up-wards of \$2,500 worth of silverware.

This morning about 7 o'clock one of the maids from the dining room found both the doors on to the balcony standing wide open, the curtains pulled forward and on the floor the drawers o the silver cabinet which had contained possibly the finest set of silver table ware in Montreal. The method of entrance showed the touch of a master hand. The two men had first crosses a fence about eight feet in height, carefully removing the spikes on the top for a couple of feet, bringing with then a ladder from the partially constructed residence of Mr. Ogilvie. The oute doors were forced, the bolts being push ed back by means of a chisel. Then the inner doors of mahogany, pannelled in the lower part and plate glass in th upper, were tackled. The glass wa tried first. The putty all about wa cut out, but the glass would not move Then an auger was set to work on the mahogany panelling and with the ai of the chisel a hole was made larg enough to let the hand through to tur the key on the inside.

The drawers in the cabinet we swept clean. The visitors were con noisseurs for the plated ware on the sideboard was thrown contemptuou on the floor, but all the sterling good a part of this purchased only a cour of years ago, was taken, as well as set of pearl-handled knives and fork The booty was put in bags and lov ered from the balcony by means of rope made from two linen table cloth Fortunately, the oil paintings on wall, of which Mr. Crathern has an ceedingly valuable collection, were le untouched. As evidence of the th oughness with which the work done, it may be mentioned that balcony had been carefully swept snow with a broom, probably so t no tracks might be left. The loss partially covered by insurance.
