Stomach Worm Loss Preventable.

Animal husbandry division men at the University of Minnesota Farm say that sheep owners of the state have suffered great losses among their flocks by reason of the stomach worm. The lambs suffer the most. "The best preventive and the one most easily given," says Philip A. Anderson of the division, "is copper sulphate or blue stone, as it is often known. Make a 1 per cent. solution by dissolving one-quarter of a pound of the blue stone in a pint of boiling water, adding cold water to make three gallons, being sure that a clear solution is obtained and always using an earthenware or a wooden receptacle. The dose for lambs, according to size, is three-quarters of an ounce to one and one-half ounces; for older sheep, two and one-half ounces to three ounces. An ordinary tablespoon holds one-half ounce. "A veterinarian's syringe can be used, but care must be exercised in not pushing the plunger of the syringe too rapidly, as the solution may enter the lungs and give trouble. This treatment should be repeated in ten days or two weeks, or, if the flock is badly infested, two or three times during seasons at intervals of 30 days."

Women should Insist

No matter what you buy in kitchen utensils, demand that each article carry the SMP trade-mark shown below. SMP Enameled Ware is safe to use; acids or alkalis will not affect it; it cannot absorb odors; cleans like china; wears for years. Tell the storekeeper you want either

SMP Diamond WARE
or Pearl WARE

Diamond Ware is a three-coated enameled steel, sky blue and white outside with a snowy white lining. Pearl Ware is enameled steel with two coats of pearl grey enamel inside and out.
