Ad of Small Things

Small things are very useful, or at least some are. We have these useful things at our Store: Pins, safety pins, domestics, hooks and eyes, whisks, scribbles, writing tablets, umbrellas, thread, spool silks, pocket books, scissors, tooth brushes, watches, thimbles, buttons (large assortment), tin pails, burners, wicks, creamers, iron white lined pots, carpet tacks, shoe tacks, half soles and heels, granite ware, bean pots, teapots, tumblers, salt and pepper shakers, syrup jugs, lux, gold dust, bon-ami, ammonia powder, soap, starch, grit and shell for hens, shoe dressing, soap, stove polish, lantern and lamp chimneys, and other small things too numerous to mention. Nearly everything in light groceries. CALL AND INSPECT.

4 Specials—11c each

Clark's 250-yard Reel Thread
Coat's Mercerized Crochet Thread

Snap Hand Cleaner
Celluloid Starch, regular package

Out of Stock: Light Weights

A man that will sell to his own hurt and then squeal
A woman that will make old butter into prints and sell for new
A man that says he has no faults but sees lots in others
A woman that will sell preserved eggs for fresh
A man that says he never makes a mistake
A man that does not feel comfortable in seeing parcels leaving any store but his own

A man that tries to monopolize trade
A man that won't buy goods from any firm that sells to his neighbor
A clerk that keeps his eye on the clock and not on trade
A manager that thinks he knows it all
A preacher that will compromise to save his pocket book or head

Overalls, we carry them and jackets too, but none small enough for these light weights
These light weights may lead a prayer meeting or teach a Sunday school class providing topic was on Tennyson or Longfellow, but what would they do if the subject was "As ye would that men should do unto you do ye even so to them." If this pinches corners, "Blue Jay" won't cure as disease is not located not in feet. Guess—

Still have Seeds, Fertilizer, Paints, Gasoline, Feeds, Car of Salt, Car of Flour and Feeds to Arrive

HARTLAND BRIDGE TO BE REPAIRED

Almost Immediate Resumption of Traffic is Assured by the Local Government.

On Friday Superintendent D. A. Campbell and R. C. Fletcher went to Fredericton to interview the Minister of Public Works with regard to the Hartland bridge. They found that, as serious as Hartland's calamity is, the government could do or say nothing until the whole effect of the freshet has been reported. Fredericton bridge was in imminent danger while the International bridge between St. Stephen and Calais called for the immediate attention of all engineers available. It will not be possible for any official of the government to come to Hartland within a week or longer. But Messrs. Campbell and Fletcher were assured that every endeavor would be put forth to provide a means of transportation across the river at Hartland.

The people absolutely insist upon the resumption of traffic across the river. Means of crossing the river at this point is so important that in the past the people themselves built a bridge. Only a government that desires to commit suicide would withhold the means of crossing the river at this point. If the government intends to restore traffic here they should notify the people at once for if they do not the people will themselves provide means of communication as they were forced to do years ago.

The very latest information that the government will provide temporary spans immediately and will proceed at once with construction of concrete piers for the bridge with the idea of rebuilding of steel.

It is expected that traffic will be resumed not later than May 15.

Big Races for Woodstock

The Woodstock horsemen are very much alive and several enthusiastic meetings of the Delvis Club have been held lately. For May 24 a matinee race has been arranged. There will be three classes and races will be run off on the three heat plan, every heat a race. Probably only Hartland and Woodstock horses will race on that date. On July 1 there will be four classes—a 2.15 or 14, a 2.19 a 24 and a 30, all mixed trot and pace. Purses in each event, \$200. These races will also be run off on the three heat plan. These ought to be quite classy, as in addition to the large number of local horsemen there will be horses from Arcoostook and some of the circuit horses on the way to Houlton for the 1st circuit race on July 6-6. A number of horsemen have announced their intention of training on the Woodstock track and they will also be ready for a little easy money on July 1. A circuit has been formed which gives 13 weeks continuous racing. This starts at Houlton July 5, with Woodstock July 12 and 13, when six classes will be run off with attractive purses. St. Stephen is next, then Fredericton, Chatham, Moncton, Springhill and St. John. Most of these places have two meets during the summer. The second circuit in Woodstock will be during the Provincial Fair to be held in Connell Park Sept. 13 to 17—five days continuous racing with at least three classes each

day. Look out for records at this meeting as the best horses in New Brunswick and Arcoostook will struggle for supremacy and the racing will be for blood.

We already have a good number of race horses here but we expect more before the season gets underway. There is strong talk of a free-for-all being brought here to clean up everything in sight. It will be a flying machine for there are some very good horses racing in Maine and New Brunswick.

REAL ESTATE AND BUILDING

C. R. Violette has purchased the store being rebuilt on the Boyer lot on Main street. He has sold his residence to C. W. McQuarrie.

J. F. Murdoch will build a residence on his finely located lot on the east side of Main street. This building will be of concrete.

James W. Tompkins, a retired farmer of Mount Pleasant, has bought from Marly Estabrook, the concrete building on Hillcrest erected by H. N. Dickinson a few years ago.

It is an assured fact that the Bank of Montreal will this season erect a building of their own that will be a credit of dignity to that grave institution. The site will be the Main street front of the Thornton lot purchased last season by S. S. Miller and later resold to the Bank. A Woodstock report states that the new Bank building will be exactly like the one just completed in that town. But this seems hardly likely as one is on a corner lot while the other is not. Local officials of the bank can give no information as to whether the new bank is to be of concrete or brick. The bank will not, however, undertake to build until the city fathers have discovered where the Main street of Hartland is situated.

R. R. Lison has sold his house to W. D. Keith.

David Shaw will undertake the completion of his fine residence at the west end of the bridge road as soon as traffic is restored across the river.

J. M. McLeod has moved into the tenement over the store lately purchased by G. Murray McLeod and H. N. Dickinson has moved into the S. Hayden Shaw house.

The Observer is almost daily in receipt of inquiries for rents in town. The further growth of Hartland is at a standstill until there is an increase in housing facilities. It is true that the cost of building is higher than it has ever been, but even at the certain high cost of materials and the relatively high cost of land, building houses in Hartland should be a profitable industry. There is no false boom to the town. It is a desirable place to make a home and many farmers are retiring and looking to the towns and villages for a home wherein they may spend their declining years.

C. of E. Easter Meeting

The Easter meeting of the Church of England was postponed until April 12 on account of bad weather conditions. F. H. Stevens will be re-elected senior warden and T. E. Thistle, junior warden. Vestrymen are the same as last year. T. B. Thistle was appointed lay delegate to Synod which meets next week in Fredericton with Joseph Howells as substitute.

PERTH TO HAVE BIG PAPER MILL

Fraser Industry to be of Gigantic Proportions, Employing 1000 Men.

The Fraser interests, represented principally by Archibald and Donald Fraser, already incorporated as the greatest lumber company in Canada, are asking for a charter to incorporate Fraser Paper Co., Ltd., with a capital of \$5,000,000.

It is the purpose of the Fraser Paper Company, Limited, if granted authority by the Legislature, to establish a power plant at the Tobique Narrows "to generate, manufacture, use, develop, transmit, store and sell electricity, electric, pneumatic, hydro-electric and other forms of power, to use, sell and otherwise acquire and dispose of store, transmit and other wise deal in and with hydraulic power, electric power, electric heat and electric light, for any and all commercial and other lawful purposes."

The main purpose of the new company is to dam the Narrows for the purpose of generating power to operate an immense paper and sulphite pulp mill to be built adjacent to the power sight. It is expected that the mill when in operation will employ 1000 hands in which case a new town must spring up. It is estimated that the total outlay for the mill at the time it is ready for operation will exceed \$15,000,000.

It will of course require two or three years of constant work, night and day, summer and winter, to get this gigantic enterprise in operation. The residents of Perth, of the Tobique, of Victoria county nor of the province as a not in a moment comprehend all the possibilities that this great undertaking presents.

The people have looked for this and that government to help along industrial projects and are quite unprepared to learn that an industry so stupendous in its magnitude is to be launched with so little preliminary agitation.

On Tuesday a meeting was held at Perth and was attended by more than 100 residents of the immediate vicinity. The whole gathering was heartily in accord with the Fraser interests and prepared a petition for the local government asking that the application of the Company be granted.

A very strong delegation was also elected to go to Fredericton to impress the government with desirability of having the project go through.

In a New Role.

"Mr. Sutton makes Budget Speech" is the caption which the Woodstock Press put over a report of the speech delivered in the House last week by the junior member for Carleton. In the parlance of the street, that is going some. Surely opposition critics will no longer complain of Carleton's lack of representation in the present House.—Press.

Fleming—Braun

A quiet wedding took place on Wednesday afternoon, March 31, at the home of Chas. Corey, Woodstock, when Albert Fleming and Reta Braun were united in marriage by Rev. P. J. Quigg. They will reside at Millville.
