EVERITT & BUTLER,

ST. JOHN, N. B.

KANSAS LANDS

WE own and control the Railway lands of Kansas, and are selling at an average of \$5.25 per acre on easy terms of payment. Alternate sections of Government lands can be taken as homesteads by actual settlers.

These lands lie in the GREAT LIME-STONE BELT of Central Kansas, the best winter wheat producing district of the United States, yielding from 20 to 25 bushels per acre.

The average yearly rainfall in this county is nearly equal to that of any other third greater than in the much-extolled Arkansas Valley, which has a yearly rainfall of less than ten inches per annum in the same locality.

Stock-Raising and Wool-Growing are very remunerative. The winters are short and mild. Stock will live all the year on grass. Living Streams and Springs are numerous. Pure water is found in wells from 20 to 50 feet deep. The healthiest climate in the world! No fever and ague there. No muddy or impassable roads. Plenty of fine building stone, lime and sand. These lands are being rapidly settled by the best class of Northern and Eastern people, and will so appreciate in value by the improvements now being made as to make their purchase at present prices one of the very best investments that can be made, and from the profits to be derived from their cultivation. Members of our firm reside in WA-KENNEY, and will show and give full information in regard to soil, climate, water supply, &c., will be sent free on request. Address

WARREN, KENNEY & CO.,
102 Dearborn,
OR WA-KENNEY, Trego Co., Kansas.

HAIR

RENEWER

This standard article is compounded with the greatest care.

Its effects are as wonderful and as satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff. It gives the head a cooling, soothing sensation of great comfort, and the scalp by its use becomes white and clean.

By its use, the hair is restored to the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing, nothing has been found so effective or desirable.

A. A. HAYES, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Price, One Dollar.

Buckingham's Dye

FOR THE WHISKERS.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being in one preparation, and quickly and effectually produces a permanent color, which will neither rub nor wash off.

Manufactured by R. P. HALL & CO., NASHUA, N.H. Sold by all Druggists, and Dealers in Medicines.

New Stove and Tin Shop.

THE Subscriber would intimate to the people of Sackville and vicinity that he has arranged with the Proprietors of the Colonial Foundry for the

RETAIL TRADE OF THEIR

STOVES,

And has now removed to his new Store, near Alex. Gray's house, Sackville, where he is prepared to furnish Stoves of nearly all description. Also,

STOVE PIPE and TIN WARE

OF ALL KINDS.

Persons wanting anything in this line, it will be to their advantage to call and inspect my samples before purchasing elsewhere.

ALL JOB WORK will be promptly attended to, and charges most reasonable.

Country Produce taken in exchange for Stoves and work, for which the highest prices will be paid.

HARVEY PHINNEY.

The Penman of the Bible.

Moses wrote Genesis, Exodus, Leviticus, Numbers and Deuteronomy. Joshua, Phineas or Eleazar wrote the book of Joshua, though it is not certainly known which of them.

Samuel is the penman of the books of Judges and Ruth. He also wrote the first and second books of Samuel.

Nathan and Gad wrote his last acts. The whole was formed into two books which were named after Samuel, as the most eminent person, called the first and second books of Samuel.

Jeremiah most probably compiled the two books of the Kings.

Ezra compiled the two books of the Chronicles. He is also author of the book bearing his name.

Nehemiah wrote Nehemiah.

The author of the book of Esther is unknown.

Ezra was most probably the writer of the book of Job. Moses may have written the first two chapters, and also the last. Some think Job wrote it himself.

David wrote most of the book of Psalms. Asaph penned a few of them.

Solomon wrote Ecclesiastes, Proverbs and the Songs of Solomon.

Isaiah is the author of the prophecy of Isaiah. Jeremiah wrote the book bearing his name, and Lamentations of Jeremiah.

Ezekiel, Daniel, Hosea, Obadiah, Joel, Amos, Habakkuk, Zephaniah and Haggai and Zachariah, wrote the prophecies bearing their respective names.

Matthew, Mark, Luke and John wrote the Gospels named after them.

Paul is the author of the epistles to the Romans, Corinthians, Ephesians, Galatians, Philippians, Colossians, Thessalonians, Timothy, Philemon, Titus and Hebrews.

James the son of Alphaeus, who was cousin-german to Christ, and one of the Apostles, wrote the epistle of James.

Peter wrote the epistle bearing his name.

The Apostle John wrote the three Epistles and the Revelation.

Jude the Apostle, and brother of James, called also Lebbeus, whose surname was Thaddeus, a relative of our Lord, wrote the Epistle of Jude. John the divine wrote Revelation.

Tax English girls have improved upon the language of the fan and the handkerchief by dividing a very copious vocabulary of the gloves, which for the benefit of American women we beg to "pirate" from an English contemporary. It runs thus:

Drop a glove--

Crumple a glove in the right hand--No.

Half unglove the left hand--In difference.

Tap the left shoulder with the gloves--follow me.

Tap the chin with the gloves--I love you no longer.

Turn the gloves inside out--I hate you!

Fold the gloves neatly--I should like to be with you.

Put on the left glove, leaving the thumb uncovered--Do you love me?

Drop both gloves I love you.

Twirl the gloves round the fingers--Be careful; we are watched.

Slap the back of the hand with the gloves--I am vexed.

Take a glove in each hand and separate the hands--I am furious.

THAT Lord Beaconsfield does not propose to divide the fifty millions without sharing in them, is shown by the award of Cyprus to England. This island, which is about half the size of Massachusetts, has for two thousand years been famous for its richness and fertility. Its northern shore approaches within fifty miles of Asia Minor, while the eastern end is distant sixty-five miles from the shores of Syria. Famagusta, a modern seaport, occupying the site of the ancient Arsinoe, possesses a magnificent harbor once capable of containing hundreds of galleys, but now choked up with filth and debris. By the expenditure of a moderate sum, it could be turned into a naval station superior to that which England lost when Corfu--in obedience to the Pan-Hellenic notions of Mr. Gladstone--was ceded to Greece. It is said that England will also demand Mytilene, another island on the northwest coast of Asia Minor, and within striking distance of the Dardanelles.

THOMAS GUARDIA President and dictator of Costa Rica, would like to unite all the Central American States under his rule. He has purchased of the former blockade runner "Memphis," subsequently known as the "Pelican," is the beginning of a navy that may put the Pacific coast of the other republics at his mercy. Nicaragua, Honduras, Guatemala, and San Salvador are making defensive preparations with view of resisting the proposed absorption. Guardia is a man of great wealth, unbounded ambition, and high executive ability.

You deserve to suffer, and if you lead a miserable, unsatisfactory life in this beautiful world, it is entirely your own fault and there is only one excuse for you--your unreasonable prejudice and skepticism, which has killed common sense. Personal knowledge and common sense reasoning will soon show you that "Green's August Flower" will cure you of Liver complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual constipation, distension of the head, nervous prostration, low spirits, &c. Its sales now reach every town on the Western Continent, and no Druggist but will tell you of its wonderful cures. You can buy a Sample Bottle for 10 cents. Three doses will relieve you. For sale by Amos Dixon.

THE NATURE OF WOMAN ILLUSTRATED--"Now," they said to her, "you can go in and see him; but remember that he is very sick with heart disease and don't say a word that will trouble him." Then she walked in, sat down on the edge of a chair, and remarked cheerfully, as she shook her head, "Ah--ah!--I--said, didn't I? Thought I'd just run in, 'cause they said there was no known 'ho soon you might drop off!"--Chicago Inter-Ocean.

IRON

Is pre-eminently tonic and peculiarly well fitted to improve the quality of the blood, and to remove impurities from the system.

The diseases, in the treatment of which it is most useful, are ANEMIA, or Deficiency of the Blood Corpuscle, HYSTERIA, or Palpitation of the Heart, DEJECTION, Anxiety, and Difficult Breathing.

SCORFUT, or Swelling of the Glands, particularly of the Neck, behind the Ears, and under the Chin, also called Kero's Evil.

RICKETS, or inflammation of the Spine, peculiar to Children; DYSPEPSIA and INDIGESTION, or NON-ASSIMILATION of the Food; LEUCORRHOEA, AMENORRHOEA, PILES, BLOTTCHES, SALT RHEUM, and all troubles arising from impure and thin blood.

HARRINGTON'S Quinine Wine and Iron is a perfect combination of IRON and QUININE, with the Finest Sherry Wine, pleasantly flavored.

Hence it is especially curative in the treatment of the above-named diseases, besides countless other ills arising from impure blood, or a debilitated state of the system.

Price 50c. per Bottle. Six for \$2.50.

A RECENT TRAVELLER IN PALESTINE

was astonished by the number and preservation of roads built in the Roman era. They were laid out on all main routes, being constructed so perfectly that in many sections they endure to-day as well as if finished but a few years ago.

The country of Palestine was one of the most difficult to carry a system of roads ways over, and yet its obstacles were surmounted with the least possible expenditure of labor. Every route was curbed on each side with lines of stones projecting from one side of the road above the level of the soil; between these boundaries the avenue was paved; streams was crossed by bridges, whose style remains preserved also in those days of Italy to the present hour--as, for example, those of Venice; valleys were traversed by viaducts; and causeways carried the line up or down mountain sides, either by piers of masonry or in channels sufficiently wide out of living rock. Often zig zags and steps were resorted to in climbing steep slopes. Whenever the street passed over solid rock the road was carried on viaducts, and causeways carried the line up or down mountain sides, either by piers of masonry or in channels sufficiently wide out of living rock.
