College War Hospital to Care For Wounded

On a nineteen acre tract in New York, the Columbia University War Hospital, probably the greatest constructive medical project brought into being by the war, is being rapidly transformed from a mere idea into a physical actuality. Eleven of the squat one story portable buildings which will constitute the hospital have already been erected on the site. All the administrative buildings are up, and the wards, twenty-two in number, are following fast. During the period of the war the intention is to use the hospital as a receiving and distributing centre for the wounded that are brought back to America. After that the temporary barracks-like structure will be given to the Red Cross for storage of equipment. The pictures show some of the buildings and a section of one of the many wards.

RAISING U. S. ARMY TO BE SLOW WORK

Only 100,000 Men Will Reach Europe This Year and 600,000 by Sept., 1918.

Washington, July 25.—Six hundred thousand Sammies is the largest number the United States can send by September, 1918. This was stated semi-officially today, along with the declaration that no more than 100,000 men can be in Europe by next January. The first of the new national army will scarcely be in the cantonment before October 1, at the present rate of camp construction. It takes practically a year to turn a civilian into a good soldier. Hence the second section of the new national army will not be called out before next summer, it is believed.

MONEY VALUE LESS.

Geneva, July 25.—The Lausanne Gazette, in a financial article, published today, says that not since the war of secession has the American dollar fallen so low. It was quoted here today at 4 francs 40 centimes, while before the war it stood at 5.12. One hundred rubles, which were worth 256 francs before the war, are now quoted at 99 francs. One hundred marks are worth less than half value, while 100 Austrian crowns were quoted at \$9.50.

Some New York brides are wearing smart white hats with white straps instead of the hackneyed veil.

DRAW CORDON AROUND LIONESS

Central Illinois has mobilized to hold the line about the Allerton mansion in Platt county, against a lioness, with hunters from Decatur, Lincoln, Mount Pleasant, and Platt county marksmen in the great Allerton estate.

Night and day a picket guard is being kept about the house and at intervals along the roads. The magnificent sunken garden, in the history of which Stanford White, victim of Harry K. Thaw, once figured, is regarded as a possible trap for the lioness as its gargoyles set all around the ten feet wall might easily attract the animal.

AMERICANS USE TRENCH MORTAR

American Training Camp in France, July 25.—The American troops began today intensive bayonet, hand grenade, trench mortar and machine gun practice and will devote two hours daily to these branches of modern warfare.

RIGID ECONOMY IN USE OF COAL

Canadian Fuel Controller Arranging for Canadian Supply from United States.

Ottawa, July 25.—The United States authorities while facilitating the shipment of coal to Canada, are insisting that there must be rigid economy and that the use must be confined to the actual needs. For this reason Mr. C. A. Magrath, the Canadian Fuel Controller, is insisting in his arrangements for Canadian supply in keeping the demand down to the last necessary ton.

HOW FOOD PRICES HAVE SKYROCKETED

Washington, July 25.—Heavy increases in retail food prices in the United States within the last three years are shown in statistics compiled today by the Department of Labor. The sharpest advance was in flour, which jumped 150 p. c. in price. Potatoes increased 125 p. c.; lard, 85 p. c.; sugar, 79 p. c.; cornmeal, 77 p. c.; bacon, 56 p. c.; and bread, 56 p. c.

U. S. GOVERNMENT TO INSURE MEN

Broad Plan for Protection of Freighters Outlined—Policies Up to \$10,000.

Washington, July 25.—The Federal Government's plan for insuring officers and men of the Army, Navy and Marine Corps against death and injury while in service broadened today into a complete programme which would provide Government allowances for families of soldiers and sailors and the rehabilitation and training of injured men to fit them for making a livelihood after the war.

The programme was discussed at conferences today among officials and officers of leading insurance companies. Issuance of insurance policies from \$1,000 to \$10,000 to officers and men at ordinary peace-time rates, the Government paying the extra cost, indemnities for total or partial disability, and administration of the entire plan by the Government's War Risk Insurance Bureau.

Details Unsettled. "The plan has not yet assumed definite form," said a statement issued at the Treasury late today, "but when it has been worked out in all its fundamentals and details Sec. McAdoo will present it to the President for his approval and if approved the recommendation will be submitted to Congress at an early date for its consideration.

"Under the plan discussed, it is suggested that provision be made for the support of dependents of soldiers and sailors by giving them an allotment out of the pay of the men and also an allowance by the Government, that officers and men be indemnified against death or total or partial disability, that a system of rehabilitation and re-education of disabled men be inaugurated and that the Government insure the lives of sailors and soldiers on their application, at rates of premium based upon ordinary risks."

"Dependents of soldiers and sailors in service would be provided for through allotments from their pay, supplemented by family allowances by the Government. The amount of the Government allowance would depend upon the size of the family and, as to others than the wife and children, upon the actual allowance upon the men. The family allowance would be made only if the sailor or soldier takes an allotment for his dependents out of his pay."

"The risk of death or total disability would be compensated for somewhat on the analogy of Workmen's Compensation acts, with the compensation measured by the men's services, the size of the families and the loss to the family. Partial disabilities would be compensated for upon a percentage of the compensation for total disability. The cost of this compensation naturally must be paid wholly by the Government."

Also Cream Serge Skirts, special at \$6.75.

FRANCE PROTECTS HER WAR ORPHANS

Paris, July 25.—The Chamber of Deputies, by an unanimous vote yesterday, adopted the bill which had already passed the Senate known as the wards of the national. The bill, which is drawn upon broad-minded lines, provides that the state shall assume the position of legal guardian of all French war orphans. The bill when under discussion of parliament gave rise to much debate along clerical and anti-clerical lines, but the evident effort to solve the difficult question on broad lines resulted in its passage.

An Invitation

Is extended to you to come and examine our display of Gerhard-Heintzman, Goulay, Bell and Ennis Pianos on WEDNESDAY, JULY TWENTY-FIFTH.
