

Your cough, like a dog's bark, is a sign that there is something foreign around which shouldn't be there. You can quiet the noise, but the danger may be there just the same. Scott's Emulsion of Cod-liver Oil is not a cough specific; it does not merely allay the symptoms but it does give such strength to the body that it is able to throw off the disease.

You know the old proverb of "the ounce of prevention." Don't neglect your cough. Your druggist keeps Scott's Emulsion of Cod-liver Oil. Put up in glass and tin.

ST. ANTHONY. BY FLORENCE BAIN SEYMOUR. [Written for the S. H. Review.] We hail thee, Padua's gentle saint Of whom in lore and legend quaint Such deeds are told. The birds would gather at thy voice And o'er the word of God rejoice, Then didn't unfold.

HEAD-NERVES. Are Disturbed when the Stomach Refuses to do its Work—Indigestion upsets the Whole System and Makes Wrecks of More Hospital Lives than any other Complaint Under the Sun.

During the evening session, on Tuesday, Hon. Mr. Blair moved the house into committee on the Grand Trunk and Drummond County railway deal. He made a two-hour speech, defending the Government's actions in this matter and claiming that the arrangement would be of advantage to the country.

SPEECH. Delivered in the House of Commons on June 17, by A. C. McDonald, M. P., during the Tariff Debate. [FROM HANNAH.] MR. MACDONALD (King's).—I wish to say a few words on this item which affects the whole country, but affects very specially the province from which I come.

On Thursday Mr. Blair moved the house into committee on the Crow's Nest Pass contract, which he defended by describing the great natural wealth of the country to be traversed, supporting his statements by quotations from the other authorities. The minister showed the increased mineral output of gold, silver and copper in British Columbia in the last five years. Mr. Blair argued that at present the United States were getting the benefit of the market of the Canadian side. Great responsibility

rested on the government and parliament to take action in this matter. He went on to explain the terms of the contract. Dismissing the terms of the contract, Mr. Blair stated that the Canadian Pacific company, which got the Crow's Nest charter from the British Columbia Southern company, left that corporation all the coal lands, which the provincial government had given as a subsidy for the line, but the C. P. R. would have to revise its agreement with the old company and get fifty thousand acres, which are by contract before the house, to be transferred to the government of Canada.

of still further depreciating the price we have had for the large quantity of coarse grain, grown in our country. While free corn may be of some advantage to the farmers who are large stock feeders, and are able to take advantage of it, the great majority of the poorer classes of this country cannot afford to grow oats, which they must grow, and sell them for 20 cents or 22 cents a bushel and then import corn from the United States, where 2,151,000,000 of bushels of corn is grown. It may be of some small advantage to the large feeders, but the general farmers and the poorer classes of people who really have more power of legislation in their favor than the large and wealthy farmers will not be able to take advantage of it in any sense. I know sufficiently of my own country to say that, and I know what I am talking about.

An Advertisement. This is an advertisement which tells the truth about Milburn's Heart and Nerve Pills. PEOPLE WHO SUFFER from sleeplessness, dizziness, shortness of breath, smothering feelings, palpitation of the heart, nervousness, the brain and heart, anxious, morbid condition of the mind, groundless fears of coming danger, angina or impoverished blood, after effects of a gripe, general debility, etc., should TRY THESE PILLS as they cure these complaints. Every box is guaranteed to give satisfaction or money refunded through the party from whom the pills were purchased, and we authorize them to do so on the strength of the above statement. This offer is limited to the first box used by any one person. T. MILBURN & Co., Toronto.

Fleetwood 2.39! FLEETWOOD, the big hand some trotting and carriage stallion, formerly owned by Mr. Barrett Henderson will be at Conners' stables, Grafton Street, every market day, and balance of time at his owner's stable, West Point, one mile from the city. This is the finest large thoroughbred trotter on P. E. Island, and his stock are turning out splendid, fine, large and handsome. Some of the shrewdest and most successful raisers of fine horses are patronizing "Fleetwood" this year and his future as a great stock horse is assured. People who have his stock say they never had any better and are going to raise more of them.

What Is Cheapness. Cheapness is not peculiar to prices. Goods are often cheaper than the prices; particularly is this true when the purchaser feels that the goods are bought with a certain amount of uncertainty and unreliability. We have no cheap goods, although no one disputes the cheapness of our prices.

Farmers, We want your trade when you want anything in our line, come in and see what we can do for you. FENNEL & CHANDLER.
