motive of their writing the groundless and unjust opinions, impressions and prejudices generally prevalent among English-speaking people in regard to the true character of the Spanish people. Mrs. Woolson gives a clue to the origin of this unavorable estimate of the Spanish character. After alluding to the universal agreement in denouncing the Spaniard as a "cruel, blood hirsty and treacherous being, and his na-tion as a corrupt, fast decaying power," she says :-

"It is a view embalmed in the immortal literature of the sixteenth

judice, but, thank God, there are always some honest, independent souls who are willing to do justice ven in the face of hostile prejudice. Mrs. Woolson's testimony in favor of the Spanish character is very emphatic. A luding to the popular, opinion she says:— "Yet, observation has taught me that, so far from being correct, this prevalent opinion regarding the people of Spain is the exact opposite of the truth. Judging orly from what I have seen for myself, I am compelled to believe that the Spaniards at home are a singulary hones', quiet, sunny-natured race, corning meaness, and honorable for onor's sake. With great sobriety of demeanor, especially in the north they have kindness of heart and generosity of spirit, and maintain a frank, sincere bearing in all their in ercourse. I am aware how incredible this will sound; yet allegiance to truth and justice makes any othe testimony on my part impossible."
Speaking of the invariable courtesy

and kindness with which she was everywhere treated she continues :-"Nowhere did I behold any violence of demeanor or speechsuch as one often sees in Italy, if not honorable mention, Bernard McDon- evidence of a passionate and revengeful temperament, Everywhere was order, quiet, good-humor.
