The following report has been adopted by the public school beard :

pecting promotion.

In all the divisions the teachers appeared to be interested in their work and doing what they thought best for their factory. This was due, in some cases, partly to lack of experience on the part of the teacher, and partly to the very large attendance. In some of the forms it is impossible to do the work as it should be done on account of the experience. be done, on account of the excessive numbers. The younger pupils are more numbers. The younger pupils are more difficult to manage and require a teacher with more tact than the older ones, yet we find the lowest form in each of the ward schools overcrowded and placed in charge of inexperienced teachers. These defects must be removed before satisfac-

ber of changes in the ward and central schools, and I trust you will see fit to better working machine, and Mr. Girvin is to be congratulated on the fact that he is able to supply the farmers of this section so thorough and labor-saving a farming implement.

AN OPEN LETTER.

AN OPEN LETTER,

To the Public,—I have much pleasure in informing my many friends in the counties of Huron and Bruce that I have returned to Goderich, and opened a branch office for the sale of the People's Co.'s Pianos, Organs and Sewing Machines, in my former stand, North Side of Market Square. This Co. have made a new departure in the selling of these goods, by employing no agents or peddlers, and selling direct to the people at low rates. The intending purchaser has the privilege in every case of testing the goods before buying, and if they are not as represented the Co. will allow them to be returned and pay freight both ways. This offer should be sufficient inducement to anyone to try our goods, and should also convince the most skeptical that they are in every way first-class. Trusting to my past record in the business, and to the quality of the goods I represent, for a fair share of your patronage,

I am, yours respectfully.
