The Portia Arrives.

The s.s. Portia, Capt. T. Fitzpatrick, arrived from the westward at 7 p.m. yesterday. After leaving here on the 30th September she had fine weather during the following Saturday and Sunday, but Monday had a heavy N.E. gale, the same as experienced here. She arrived at Bonne Bay Wednesday last after being delayed at Bay of Islands 6 hours, owing to landing 12 tons of cable there. Thursday morning she started for home and called at Bay of Islands, Bay St. George and at the Gravels this trip, as there was a large freight to land there for Codroy, entraining several hours' delay. After turning Cape Ray she met a S. E. wind and dense fog, which lasted until midnight, after which the wind blew a hurricane. She left Rose Blanche at 2 a.m. Saturday and had fine weather until she left Placentia at 11 Sunday night, when it became very stormy, and by 1 a.m. Monday the wind was blowing a hurricane from the S.E. with heavy rain. The ship did not reach Salmonier until 9 o'clock Monday morning. Arriving at St. Mary's at noon that day the steamer continued unobscured and the ship had to remain there until 4 a.m. yesterday. She had a good run to port after with a fresh westerly wind and rain showers all yesterday. The ship brought a half cargo of fish, oil, &c., and the following passengers: Messrs. Duder, McKnight, Coady, Penny and Father Walsh; Mesdames Devereaux (2), Misses Porter, Hogan, Woods, Sutton, Shanahan, Morry, Kinsella (2), Murray, Costello and El steerage.

How They Were Stranded.

By the Portia we learn that the schooners Ella Francis and Sea Nymph, already alluded to in the Telegram, went ashore before daylight Saturday morning last at Fortune in a gale of N. E. wind with heavy rain and sea. The former was from Bonne Bay to Balena, with part cargo of fertilizer, and the latter from Sydney with coal. Both dragged their anchors, and in the case of the Sea Nymph her crew tried their best to keep her off the rocks, but like those in the Francis, it was impossible to avert the inevitable, and the men on each schooner barely escaped with their lives. The men took to their boats, and after great exertion got ashore. The Ella Francis was broken in pieces Saturday, but the Sea Nymph is not badly damaged and hopes are entertained that she will come off when her cargo is taken out. The crews saved all their effects.

Take Advice and take **Abbey's Effervescent Salt**. Physicians recommend it as the ideal laxative and liver regulator. 25c and 60c. At dealers.

Prizes Presented.

The medals and cups won at the football matches the past season were presented last night to the victors at the C. C. C. Armoury. After the C.C.C. battalion had been put through their exercises Mr. Chaplin, the President of the League, was moved to the chair and made a speech, reviewing the work of the season and congratulating the boys on their success, making special reference to the Star lads, the champions for the year. The cups and medals were then handed over to Mr. E. Power, captain of the Star team. The medals won by St. Bon's team were presented to Mr. W. Hearn, captain of that team, and Captain Hart received the cup and medals won by the C. C. C. Mr. W. J. Higgins, the popular Secretary and Referee of the football games, was taken by surprise on being presented with a gold watch by Mr. J. P. Crotty, on behalf of the League. Mr. Crotty eulogized the work done by the recipient, who replied in suitable terms, warmly thanking the donors of such a valuable present. Mr. E. M. Jackson, Vice-President of the League, also made a nice speech, congratulating the winning teams. The C. C. C. band played some fine selections during the evening.

FISHERY STILL GOOD.—The fishery at Bay de Verde is still very good and the men are doing well every day they can get out on the grounds.

SMALL CATCHES OF FISH.—The local fishermen secured small catches of fish on the grounds outside the Heads yesterday.

Prepared the Way.

To Sir Robert, who is without doubt one of the greatest statesmen in the East, belongs most of the credit for the satisfactory settlement to Newfoundland of the fisheries dispute. Sir Robert Bond prepared the way and made it quite easy for his successor. —The Enterprise, Alberta.

Fishery Not Good.

Taken all round the fishery in Placentia Bay the past summer has not been a good one and can only be considered a fair voyage. From Miramshen to Odein good work was done, but at mostly all the other places it was of an indifferent nature. Since the 20th of August no big feres have been taken in the bay. The voyage is certainly not near so large as last year.

FIG PILLS Cure Backache, Bladder and Kidney Trouble.

A few doses of FIG PILLS will convince you that a few more will cure you. Every box of FIG PILLS is guaranteed. If they do not cure all Bladder, Kidney, Rheumatism and Liver Trouble, your money will be refunded. 25c. a box at all leading drug stores. T. McMurdo & Co., Selling Agents for Newfoundland.

Collegians Defeat Fieldans.

At 4 o'clock yesterday the postponed game between the Collegians and Fieldans was played. The Collegians won the toss and decided to take advantage of the strong breeze which was blowing from the west. The line up was:—

Collegians—Harvey, goal; Benson, Ross, backs; Lench, Fenwick, Parsons, halves; Jones, Stevenson, Bastow, Herder, Hayward, forwards.

Fieldans—Pilot, goal; Jerrett, Rendell, backs; Shaw, Joyce, Hollands, halves; Winter, Knight, Trebble, Oke, Martin, forwards.

After five minutes play the Collegians secured the first goal. The Fieldans endeavoured to make the equalizer, but through the good play of their opponents the ball was kept in the Fieldians' territory. Benson getting the ball gave a shot to Pilot which passed him, and made the second goal for the Collegians. Just before the whistle sounded for half time the Collegians secured the third goal.

The second half opened with fast play, the Fieldians being determined to equalize. The ball was kept in the Collegians' territory, which was through good combination taken up the field and made the Fieldian backs do some defending for their team. Jerrett cleared the ball from the goal and sent it down the field to his forwards. The Collegians did their utmost to keep their opponents from scoring, but Joyce secured the ball and with a good shot sent in No. 1 for his team.

The Fieldians being encouraged, worked harder and did some good combination for a time. The ball was sent up the field by the Collegians and Joyce, being in his place, sent the ball whizzing in the Collegians' goal, which still gave the Fieldians greater encouragement. The play was lively for the last five minutes, the Fieldians working harder and endeavouring to add the equalizer, but the Collegians defended well, and the whistle sounded with the Collegians, 3; Fieldians, 1. Mr. W. J. Higgins, referee.

Will Regulate All Kidney Disorders

Kidney disease is the most dangerous, because the first symptoms are seen in other parts of the body before anything wrong is noticed with the kidneys themselves.

Some of the symptoms, though, cannot be mistaken; for instance, sick, unhealthy kidneys cause thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, or there is a dull misery in the sides and loins, headaches and dizzy spells may occur, nervous twitchings, disturbed sleep, inflamed or puffy eyelids, weakness, bilious stomach, heart palpitations or the sufferer is often weighed down by a feeling of languor or fatigue.

The time to cure kidney trouble is while it is only trouble—before it settles into Diabetes, Dropsy, Gravel or Bright's disease. The moment you suspect the slightest kidney, bladder or urinary disorder begin taking Pape's Diuretic as directed, with the knowledge that there is no other medicine, at any price, made anywhere else in the world, which will effect so prompt and thorough a cure.

Don't be miserable and remain in danger another moment because of a lame back or clogged, inactive kidneys or bladder or urinary misery; all this will surely go after you take Pape's Diuretic for a few days.

Bankers Doing Well.

By the Portia we learn that Capt. Jno. Lewis of the banker Hispaniola was in Harbor Breton on Thursday last with 900 qtls. of fish from Labrador. This brings his total up to 2,900 qtls. for the season. Capt. Lewis is now giving up the voyage. He reports the Excelsa, Mary Smith and Gladys Smith with good trips on the Labrador, and they should be along in a day or so. Capt. Lewis reports that the weather on the Labrador is very stormy and exceedingly cold. This being so, it is questionable if the Harmony, which left here to-day, will be able to reach the most northerly of the Moravian stations—Okak and Killinek.

Unnumbered Houses.

Inspector Bambrick, in the West End, and Inspector Barnes, in the East End of the city have been busy for several days past taking a list of unnumbered houses. In some cases Inspector Bambrick found whole streets unnumbered where new houses had gone up within the past eighteen months. These were mostly on the higher levels.

A SECOND CROP.—Several farmers of the suburbs cut a second crop of hay this year. It has been one of the best seasons for hay on record.

Schooner's Hard Time

The schr. Jubilee had her canvas carried away, her foremast sprung and main boom and foreboom broken in the storm of last Sunday while on the voyage from P. E. Island to Botwood with a load of hay, oats, etc., for the A. N. D. Co. The Jubilee met the full force of the N. E. gale. Her decks were washed again and again, by heavy seas while trying to get hold of the Newfoundland coast. The wind abated a little next day and the captain succeeded in getting into St. Lawrence, where repairs are now being effected under the direction of Mr. T. Farrell, a business man of St. Lawrence.

Baltimore, Md., Nov. 11, 1903.

Minard's Liniment Co., Limited.
Sirs,—I came across a bottle of your MINARD'S LINIMENT in the hands of one of the students at the University of Maryland, and he being so kind as to let me use it for a very bad sprain, which I obtained in training for foot races, and to say that it helped me would be putting it very mildly, and I therefore ask if you would let me know of one of your agents that is closest to Baltimore so that I may obtain some of it. Thanking you in advance I remain,
Yours truly,
W. C. McCUEAN.

Care Oliver Typewriter Co.
P.S.—Kindly answer at once.

Spend Money.

Editor Evening Telegram.

We hear a lot nowadays about typhoid fever germs being in Windsor Lake. I, for one, do not credit any such rubbish, owing to the fact that every foreign and coastwise vessel takes a supply of this water. Now every foreign sailor will tell you that after a certain time the water stinks and then will purify itself. I have been several voyages to Brazil and West Indies, and with our casks on deck with millions of small flies coming out of the bung holes, and have seen sailors after a meal go to the long dipper and drink their millions, but I never knew one case of typhoid fever. We consider our water taken at St. John's far ahead of water either got at Brazil or West Indies. How can it be otherwise when we have thousands of natural springs in Windsor Lake and other ponds all over the country. We have, Mr. Editor, the finest and purest water in the world. If we have money to spend let it be in supplying water and sewerage to localities requiring same.

NO AXE TO GRIND.
St. John's October 11, 1910.

Here and There.

FIRST AID LECTURE.—A lecture on First Aid will be delivered by Dr. Rendell in the Central Fire Hall this evening at 5.30.

"COLUMBUS" DAY.—To-day being the anniversary of the discovery of America, Columbus Day, is being celebrated with great eclat in the United States.

SQUID PLENTIFUL.—Capt. Fitzpatrick reports squid plentiful from Cape Ray to Cape Spear. If the weather holds favorable the fishermen along the coast there will get some fish.

LARACY'S have just got in Men's Work Shirts, all Black, Black and White Stripe, and Fancy, from \$1.00 a pair. At LARACY'S, 345 & 347 Water Street, opposite the Post Office.—aug10,tt.

IN TRAINING AGAIN.—Last night Otto Oppel began training at the Oppel rooms. His friends gathered around him enthusiastically and will help him to get in good condition to meet Olsen for another bout in a few weeks' time.

TO-NIGHT Cascarets
THEY WORK WHILE YOU SLEEP

To make a delicious breakfast dish pit a dozen large plums, put a blanchard almond in each, dip in olive oil and toast on a broiler until they are fairly soft. Then wrap them in thin slices of bacon and grill on the coals.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, Ohio, who prepare Pape's Diuretic—50 cent treatment—sold by every druggist in the world.

TINSMITHS' MEETING.—A meeting of the Tinsmiths' Union was held last night in the Mechanics' Hall. The men are determined to remain out on strike and will be assisted by the other unions.

Mexoline—
Liquid Metal Polish.

Baker's Chocolate,
Baker's Cocoa.

Red Cross Salmon,
The reliable brand.

Dust of Lebanon,
Immediately removes the
smell of cooking.

T. J. EDENS.

Son Dead, Father Dying

Yesterday evening a message was received by friends here stating that Mr. John Winsor of Westleyville had died at 2.30 p.m., and that his father's demise was momentarily expected. Deceased met with an accident to his spine a couple of years ago and this caused his death. He was a well-known young man, 23 years of age, and is regretted by a large circle of friends. His father, Cornelius Winsor, has been ill of consumption for several months past.

Portia's Fishery News.

By the Portia we learn that at Port aux Basques, Rose Blanche and all along that section of the coast there is yet plenty of fish on the grounds, but the weather is unsettled and men can't get the chance to catch it. There is abundance of squid bait, all along the grounds of the West Coast, and particularly from St. John's to Cape Ray. East of Burn's head is practically no person catching fish, all the western boats given up the voyage. Yet there was 12 fishing schooners in Trepassay out of the gale, as well as Capt. Larder's two vessels, the Amphitrite and Nassau. West of Port aux Basques there is nothing doing. All are now preparing for the herring fishery, which begins at Bonne Bay and Bay of Islands next month. There are no vessels yet on the coast for herring.

Frank's Klondyke.

The Daily News this morning announces that Mr. Frank Simms is cutting a second crop of hay from his farm the "Klondyke." Frank's friends are glad to see him doing so well. But he struck a bigger Klondyke 18 months ago when he struck the Picnic Party.

CAPE REPORT.

Special Evening Telegram.
CAPE RACE, To-Day.
Wind W. N. W., blowing a gale with rain showers. The S. S. Portia passed east; S. S. Rosalind, west, and a two-topmast schooner inward yesterday afternoon. Nothing sighted to-day. Bar. 28.78; ther. 48.

Nutritive Hypophosphites.

When a person feels "blue"—"all tired out"—"doesn't feel like doing anything"—cannot concentrate his mind on his work—feels weak mentally and physically—doubts his powers—complains of poor appetite and sleeplessness—suffers from headaches—then his nervous system is run-down and demands a good up-building tonic. Nervous exhaustion is a modern disease, caused by too close attention to business, overwork, worry, devotion to trying family cares, overstudy, etc. Nutritive Hypophosphites forms the best nerve and brain food known, and have restored thousands of sufferers to health. Large bottle, \$1.00.
