## Allies to Make Military Demonstration at Constantinople -- Anglo-French Reply Pleases Wilson -- Japan Forcibly Retains Vladivostock -- Denmark Prohibits U. S. Imports -- Sagona Delayed at Sydney Waiting for Kyle.

### THE IRISH BILL.

NEW YORK, March 7. Addressing the Canadian Club here Saturday on the Irish question, Philip Whitwell, special correspondent of the London Daily News, and formerly a member of the British House of Commons, stated that under the Lloyd George Bill, now before Parliament, Ireland would receive as a gift the entire capital value of the land purchase scheme, amounting to half a billion dollars, or one hundred dollars for every man, woman and child in the country.

### SENATEERING.

WASHINGTON, March 7. A resolution designed to put the Senate on record as favoring the award to Greece of Northern Epirus, including, definitely, the Greek portions of the Western Coast of Asia Minor, was introduced on Saturday by Senator Lodge. It was referred to the Foreign Relations Committee.

### NEW FAR-EAST SERVICE.

BERLIN, March 6. The North German Lloyd Steamship Co. and the Hamburg American Line have taken over agencies in Bremen and Hamburg for Alfred Holt and Co., of Liverpool, and the Ellerman-Bicknell Steamship Co., of London, which are to inaugurate monthly for eastern service out of both of these German ports.

### CANADIAN HUMOUR.

OTTAWA, March 7. D. B. Hanna, President of the Canadian National Railways, speaking to the Canadian Club on Saturday, predicted that, before long all Government railways in Canada would be on a paying basis and that the strong probabilities were that returns would in a few years in a great measure help pay Canada's war debt.

### NEWSPAPER PROFITS.

LONDON, March 7. William Shaw, member for Forfar, intends to ask the Premier if he will institute an inquiry into the profits of the great newspaper trusts in England. The Express declares there is not a daily paper here to-day showing profit taking commodities at their present prices.

### BRICKLAYERS' CLAIM MET.

ST. THOMAS, Ont., March 6. After a conference between local contractors and their workmen yesterday, the employers granted the bricklayers \$1 an hour for a nine hour day. This is an increase of thirty cents an hour over last year's scale.

### S.S. KYLE GONE TO RESCUE.

SYDNEY, N.S., March 7. The Reid-Nfld. Co.'s steamer Sagona, which carries the remains of Blaney Power, who died here on Saturday last night, but was waiting in port for the transfer of passengers to the steamer Kyle, which had come to the rescue of a steamer reported ashore on Scatterie. The Kyle on her latest trip from St. John's to Sydney was unable to reach Port aux Basques on account of ice conditions, and consequently her Port aux Basques passengers were brought to St. John's and were to be transferred to the Sagona for the return passage. The steamer on Scatterie is believed to be the Cape Breton, of the Dominion coal fleet.

### HUNDRED THOUSAND DOLLAR FIRE AT SYDNEY.

SYDNEY, N.S., March 7. Loss estimated at one hundred thousand dollars, was sustained by the Dominion Steel Corporation when their electrical warehouse was completely destroyed by fire to-day.

### AFTER THE BUTCHERS.

LONDON, Mar. 7. The Allies despatched their note to the Turkish Government yesterday. The terms of the communication were not disclosed, but it is understood they are drastic, and will be followed by drastic action should necessity arise. The proposed Allied military control of Constantinople is not to be an occupation in the sense which that term usually implies, according to Peace conference plans, which, however, have not as yet been matured. The idea of the Conference, it is indicated, is to impress upon the Turks that the

expressed intention regarding certain essential points to urge upon the Governments interested that they should bring their desires into line with the American point of view."

### JAPAN AND CHINA.

WASHINGTON, Mar. 7. Although planning to withdraw the bulk of her troops from Siberia, Japan will not relinquish control of Vladivostok and the vicinity of the Chinese eastern railway and the strategic railway junction in the trans-Baikal region, according to official information received here.

### COMBATING EXCHANGE CONTROL.

COPENHAGEN, Mar. 7. A bill designated to prevent all American imports into Denmark, unless sanctioned by the Financial Council, was introduced to-day in the Folketing by the Minister of Commerce. He described the measure as urgently necessary to prevent further decline in exchange.

### TONNAGE PROBLEM DISAPPEARING.

BERLIN, Mar. 7. Captain Persius, naval expert of the Berliner Tageblatt, discussing the position of Germany's mercantile marine, says: "It will require much time and patience before we are again able to behold the German mercantile flag on the high seas." He declared he finds it most depressing to observe the British and Japanese flags predominating in the port of Hamburg, which is now in the control of foreign shipping interests. He predicts an over-abundance of tonnage for all nations as a result of their present building activities.

MEIGLE AT BURIN.—S. S. Meigle, from Louisburg with mails and passengers, put into Burin yesterday morning out of the storm. When weather permits she will proceed to Pictou to land her mails and passengers for here.

### What They Could Do.

It was a decent-sized country town, and a meeting of the leading tradesmen which had been called decided that the fire brigade staff and appliances available were not sufficient for a place of such importance. They therefore decided to form a supplementary brigade, composed of amateurs, and, having enlisted several members, consulted the chief of the fire department as to what was to be done.

"Well," said the chief, "let us suppose there were two fires in the neighbourhood, and all our available men were called to one, do you think you could manage to put the other out?"

"No, we couldn't exactly do that; but we could keep our burning till you came back from the other!"

While a tank at Hitchin, Herts, G.B., was being placed on its pedestal, a live shell was found in it.

The record for a large family in France seems to belong to Joseph Roger, a sexagenarian shepherd, who is a candidate for one of the ninety 25,000 franc prizes which the Academic Francaise will distribute next year. He was married twice, and had sixteen children by his first wife and eleven by his second. Eighteen of his children survive. One was killed early in the war, but six others went through the campaign unscathed.
