WOMEN'S COMFORT BOOTS

Soft Dongola Kid Laced Boots, with broad toe and low heel; a really comfortable fitting Boot away under regular price, \$10.00. Friday, Saturday and Tuesday **\$5.98**

Raid Engineer's report the dump was filling in the River, diverting the stream, creating a danger of it getting choked by ice and consequently damaging the Company's railway bed, for which the Council would be held responsible. The Council is not using the dump at present and private citizens will be prohibited from using it.

Councillor Ouarbridge brought the following matters before the Council: (1) The necessity of more lights from Cavendish Square to Cochrane House and from Cochrane House to the head of Cochrane Street; (2) The condition of the lane just West of W. P. Shortall's, Water Street, which overflowed at each rain storm and flooded Mr. Shortall's cellar; and (3) The matter of horses and carts being parked in front of W. R. Goobie's and other places along Water Street. These matters will be discussed at a special meeting.

The Sanitary Supervisor submitted his annual report, in which he offered several suggestions, including the building of new sanitary stables, the widening of street crossings, public underground lavatories, and a place for the dumping or disposal of city refuse.

The report along with the City Engineer's dealing with the watering of vessels was deferred to a special meeting, which will be held Tuesday next, when the matter of arrears, which amount to \$130,000.00, covering a period of 30 years, will also be discussed.

WILL BUY STONE.
The Mayor called attention to a rumour which was to the effect that the Council positively refused to purchase broken stone from the Committee on Unemployment. Such is not the case as the Council informed the Committee if such was required and provided the stone was suitable and the prices right the matter would receive the consideration of the Board.

ARBITRATIONS CONSIDERED.
George W. B. Ayre, Solicitor, on behalf of his client, P. Mallard, 15 Pleasant Street, asked compensation to the amount of \$100.00 for alleged damage to premises through overflow of defective gully on this street. The matter was referred to the Solicitor. A letter was received from W. G. Rendell, asking if conciliation board, to adjust claims in connection with leaseholds, as provided for by Section 96 of the Municipal Act, 1921, had been appointed. It was decided the Government be communicated with, with a view to having this Board immediately appointed.

C. J. Fox wrote in reference to the Summers Arbitration, asking if it was the intention of the Council to proceed with same. If not he would be compelled, on behalf of his client, to take some other steps to have the arbitration gone on with. The City Clerk was instructed to arrange matters to the satisfaction of Mr. Fox, and to call the arbitrators together as soon as possible.

PLANS PASSED.
The following plans were passed, subject to the approval of the City Engineer:—D. J. Pearce, (annex Hamilton Avenue; B. J. Miller, (Bungallow Hill) of Chps—provided the material used in the construction of this building is in accordance with the Municipal Regulations, as the locality referred to is in the Fire Zone.

IMPROVEMENTS DISCUSSED.
The following matters were discussed, and deferred to a future meeting: (1) Necessity of placing an additional light on Gower Street. (2) Necessity of placing surface drains on George Street, near Beck's Cove to offset overflowing during rainstorms. (3) The matter of cabs occupying space in front of Water Street premises, much to the inconvenience of the owners of said premises and trade generally.

WILL COLLECT ARREARS.
Considerable discussion took place as to the amount of arrears of City Taxes appearing on the books of the Council, and it was decided the matter be taken up at a Special Meeting, and that, in the meantime, the City Clerk prepare a list of names and amounts owed by delinquents in this respect. The Council intends that all persons indebted to the City, who are able to pay their just taxes, but who shirk payment, be exposed. During the past few days, a number of writs have been issued against parties in arrears to the Council, and it is certainly time that people be made realize their responsibilities as citizens. The annual report of the Sanitary Supervisor was tabled, but discussion of same was deferred to a future meeting. Applications were read from E. R. Peters, David England and James Kirby for positions in connection with the Municipal staff. As there are no vacancies at present, the applications were ordered filed. Application of T. P. Davis to erect shed rear of his premises, 42 Prince of Wales Street, was referred to the City Engineer, who if he approves of same, may issue the usual permit. Reports of City Engineer, Health Officer, etc., were read, requisitions for various departments accorded to; pay rolls and bills presented ordered paid, after which the meeting adjourned.
