lenged any one to say that even a shovelful was taken to his place at the expense of the town.

Mr. McCrae—The gentleman admitted it at this Board.

Mr. Coffee—The gentleman admitted it at this Board.

Mr. Coffee—The gentleman admitted it at this Board.

Mr. Coffee—I will explain before the member gets insane. (Laughter.) I told Smith to put the manure on the vacant lot near the Drill Shed, and long after that I took part of it away at my own expense. When the Inspector put it down as being carted to Coffee's lot, he did not know but that it was mine. It seems to me the gentlemen are very hard up'bor charges, and that some of them have dung on the brain. Then there was another charge about carting the manure to the hospital. There was not a load sent there, nor to the hill, either, for nothing. Some of it was taken there, but the Inspector got the money for it. It seems that all those men wanted to find out was how this stuff was mis-appropriated. He didn't care how the chairman cocked his figures.

Here some more discussion took place on this point, and Smith's entries of the manure taken off the street were read the number of loads being specified, and, each load charged at 20 cents. The same charge wasmade on that said to be put on Coffee's lot, but Mr. Coffee had already explained that it was carted on the vacant lot, near the Drill Shed, and that what he took he carted away at his own expense.

Mr. Hodo objected to this, as some work on the road ought to be gone on with without delay, and it would put things in a bad position.

The motion was carried.

A By-Law for leval that the Inspector be at once discharged, and call upon find that the Laughter. I doubt that a full statement of the expenditure and liabilities of said Committee expenditure and liabilities of said Committee expenditure and liabilities of said Committee of the text the conucil.

Mr. Hood objected to this, as some hot point with the manure of the Mayor—4.

A By-Law for leval may be a true for the conucil with the move, and mile and the May

patt on Coffee's lob, but Mr. Coffee had already explained that it was carted on the vacant lot, near the Drill Shed, and that what he took he carted way at his offer manure be struck out.

Mr. Elliott said no. They had found it in the books, and it must remain an one of the results of their enquiry, but he was willing to accept Mr. Coffee's explanation.

Mr. Howard said there seemed to be an attempt of some members fo screen and cover up the doings of the Committee or Con anything the Inspector would say.

On motion of Mr. Elliott, the following paragraph was added to this clause:

"The Chairman explains that the removal of manure from the place of deposit cost the town nothing."

On the next clause being read, Mr. Elliott asked the Chairman has been cased to look at the appropriations for each street; keep written bounds; not to exceed the amount, if possible; but in some cases he might a little. Haves not my business to watch him. I gave him general instructions.

Mr. Elliott—This answer fully bears out the report. Was this the way for a Chairman of a Committee to at in this general instructions.

Mr. Elliott—This naswer fully bears out the report. Was this the way for a Chairman of a Committee to at in this general instructions.

Mr. Elliott—This naswer fully bears out the report. Was this the way for a Chairman of a Committee to at in this general instructions.

Mr. Elliott—This naswer fully bears out the report. Was this the way for a Chairman of a Committee to at in this general instructions.

Mr. Elliott—This naswer fully bears out the report. Was this the way for a Chairman of a Committee to at in this general instructions.

Mr. Elliott—This naswer fully bears on the report was the work done in St. George's Square, when he was there overlooking the men. The town had not not obe cents in the value for their many and the head of their head, who was head to watch them, doing so, he was likely in some of the salons. Yet the Chairman was actually reported. How conditions to the way then were working and got

Davisson, moved the adoption of the report, with Mr. Coffee's explanation a'ded.

Mr. Robertson here asked Mr. Coffee if the Inspector's conduct was satisfactory in his estimation.

Mr. Coffee said that for the work he believed he was as able a man as they could get, but he was satisfied he had his failing, and was more or less addicted to drink. He would not say he was a competent person. He was an exceedingly clever man except one failing, and he can keep books.

Mr. Robertson asked about the money said to have been received by him, and Mr. Coffee said he had no reason to think there was anything wrong, or dishonest. If he had not charged himself with as much as he might it was unintentional.

With regard to the money paid by Brown, it was known to the other members of the Committee but Mr. McCrae said he had led the Committee to believe that he got \$6.40 in July, when he actually got it in May.

Mr. Hood moved in amendment, seconded, by Mr. Petrie, that the report be laid over till ext meeting. Both mover and seconder said they favored this in justice to the Committee, and in order to give them time to bring in a full report. The amendment was lost, three only voting for it.

The Yeas and Nays were taken on the motion.

YEAS.—Messrs. Howard, Elliott, Da.

motion.
YEAS.—Messrs. Howard, Elliott, Davidson, Bruce, McCrae, Robertson and Harvey—7.
NAYS.—Messrs. Hood, Coffee, Petrie, and the Mayor.—4.
Messrs. Raymond and Mills declined to vote. The former explained his position as a number of the Committee, that he had upported the adoption of the 10th-results and at the same first the

from the Inspector. I took his figures as he reported them.

Mr Coffee—I reference to the clause about the manure taken off Macdonnell st, said he knew nothing about it. If the Inspector received money he did not know it. He nover knew of a load having been taken to this place, and he challenged any one to say that even a shovelal was taken to his place at the expense of the town.

Mr. McCrac—The gentleman admitted it at this Board.

Mr. Coffee—I will explain before the member gets insane. (Laughter.) I told Smith to put the manure on the vacant lot near the Drill Shed, and long after that I took part of it away at my own expense. When the Inspector put it down as being carted to Coffee's lot, he did not know but that it was mine. The seems to me the gentlemen are very the seems to me the gentlemen are very the council.

Mr. Howard said that it was evident that it may now one. He would move, seconded by the care of the men or oversee the work. Agreat amount of blame attaches to some one. He would move, seconded by the council substituted and any further expenditure and liabilities of said Committee shall have been submitted and any further expenditure sauctioned by the Council, and that said the council.

Mr. Hood objected to this, as some

	one place, and another class would say they were on another. There were appropriations made last year, and not a cent of them spent on the place intended.  Mr. McCrae — The chairman has a strange idea of his duties when he thinks he has nothing to do with the Inspector. When he felt so little interest in the work, why was he so anxious to be put on the Committee? And yet he was not	August 6. He was a voluminous writer, and his work stands high in ecclesiastical literature.  Lord Dunmore, the last royal governor of Virginia, had a daughter born in the colony not long before he left, whom he named in honor of the colony, Virginia, and who is still living in England at the advanced age of 90 or 100 years.
