[Canadian Press.] MINEOLA, N. Y., July 14 .- While the grand jury was engaged today in hearing nine witnesses tell what they knew about the mysterious murder of Mrs. Louise Bailey, and the actions of Mrs. Florence Conklin Carman just before and just after the crime, detectives were running down a clue District Attorney Smith said he believed would lead to the finding of the two strange women whom Mrs. Carman and her sister, Mrs. Ida Powell said they saw hurrying away directly after Mrs. Bailey fell to the floor of Dr. Edwin Carman's office in Freeport, with a butlet hole through her heart. These women, the district attorney asserted, may be able to offer corrobor ation to the testimony given by Elwood T. Bardes at the inquest, and the story

At the inquest, Celia Coleman flatly denied that she had seen Mrs. Carman on the night of the murder from the time she left the dinner table until fifteen minutes after the

shot was fired, when, she said, Mrs. Carman was in her room George Golder, another witness, has changed his story since the inquest, at which he said he was sure it was Mrs. Carman he saw walk through the hall just prior to the murder, and that he was also positive he saw her on the porch, and in her husband's office while Mrs. Bailey's body was still lying on the floor. His revised assertion is that he is not sure the women he saw was FROM SILK STOCKING Mrs. Carman. The district attorney said Golder had at first made an 'honest mistake."
