CROW'S NEST BARGAIN.

Three and a Half Millions for the
C.P.R., Which Makes Liberal Re-
ductions on Through Freight.

Road to Pentstemon Also to Be Sub-
sidized, and That to the Coast
"In Due Course."

(From Our Own Correspondent.)

OTTAWA, June 1.—It is said that the
Crow's Nest Pass proposals to be sub-
mitted by the Government to the Lib-
eral caucus to-morrow involve the pay-
ment of \$8,500 per mile to the C.P.R., in
return for which the company makes im-
portant concessions in regard to freight
rates.

There is talk in the lobbies to-night of
Parliament proroguing by the 19th to
enable most of the members to celebrate
the Jubilee at their own homes.

The house spent the whole day in
committee on the tariff and as midnight
the reciprocity clause was passed.

The Senate to-day passed an address
to the Queen congratulating her on the
Jubilee. Sir Oliver Mowat and Sir Mac-
kenzie Bowell made appropriate
speeches. The Commons will pass the
address to-morrow.

Premier Turner interviewed Mr. Laurier
to-day on British Columbia matters.
D. C. Corbin, of British Columbia,
wrote the special committee on the Mac-
lean and Casey bills to protect railway
employees, strongly approving the mea-
sures.

Norman Maclean thinks that, despite
Mr. Heintz's opposition, the Vancouver,
Victoria and Eastern charter will be
granted.

OTTAWA, June 2.—(Special)—At a Lib-
eral caucus to-day there was a very large
attendance of members and Senators.

The principal question discussed was
the building of the Crow's Nest Pass
railway. Mr. Blair presented the ar-
gument which the government had
entered into with the C.P.R. for the
construction of 330 miles of the line
from Lethbridge to the mining region at
Rossland. The balance of the road
through to Pentstemon will be given to
an independent company. By this arrange-
ment the C.P.R. Company will get a
Dominion subsidy of \$11,000 per mile.
For this subsidy the C.P.R. has
arranged to make very important
concessions to the government. In the
first place they give over the control of
rates west of Fort William to the govern-
ment. The railway company also
makes a cut of 20 per cent. in a specified
number of articles. For instance,
a cut of 15 cents per hundred is
made for this year, and 15 cents more
for next year, or 3 cents in all.

As to the arrangement for building
the road westerly from Rossland, it was
not discussed at length, but the policy
of the government evidently is to give a
similar subsidy as far as Pentstemon and
in the course of time to continue it to
the Pacific coast.

While there were a number of Ontario
and Western members in the first in-
stance opposed to going on with the
building of the road this year, thinking
that nothing would be lost by another
year's delay, still when they saw the
large concessions made by the Canadian
Pacific, the arrangement received their
support, so that the legislation will be
proceeded with this session and the
work of construction of the road gone on
with at once.

The government also takes control of
a reduction of 20 per cent. in the rates on
coal oil, 10 per cent. on agricultural im-
plements, 35 per cent. on fruits, and a
reasonable percentage upon binder
twine, wire, boilers, nails, barbed wire,
bags, belts, animals for breeding pur-
poses, etc. All these reductions apply
on through rates from the East. There
will be no reductions on local rates.

AGAINST ALIEN LABOR.

OTTAWA, June 1.—The alien labor bill
was reported at a meeting of the com-
mittee to-day. It will apply only to the
United States, and will only be en-
forced by the Attorney-General of the
Dominion of Canada. The bill will come
into force when passed, but, as already
said, another clause provides that only
the Attorney-General of the Dominion can
enforce it. The clause holding it
over to be put in force by proclamation
was defeated, and Wood (Brockville)
and others suggested that there would
be a storm of opposition to the bill from
the Americans now working in British
Columbia.

The fine clause makes it unlawful for
any person or company to assist or en-
courage the importation of foreigners
under contract. This was passed with-
out amendment, and also the second
clause, which declares such a contract
null and void. A penalty of \$1,000 is
provided for violation of the act by an
individual, and the power of
prosecution is given to the Attorney-
General for Canada, or his appointed
agents. The master of any vessel who
shall knowingly land from his vessel any
alien laborer or mechanics under con-
tract is liable to a fine of \$500. Any
foreigner temporarily residing in Can-
ada is given power to bring in his own
servant, private secretary, etc. Skilled
workmen, such as cannot be obtained in
Canada, may be brought in, as in the
case of a new industry. Professional
actors, artists, singers and persons em-
ployed as personal or domestic servants
are exempted from its operation, and
any individual may assist a member of
his family, a relative or a personal friend
to migrate from a foreign country for
the purpose of residing here.

MANITOBA MATTERS.

WINNIPEG, June 1.—(Special)—The
contingent of the Northwest Mounted
Police selected as a portion of the Can-
adian Jubilee regiment passed through
the city to-day en route to Quebec, from
which port they sail on Saturday for
England.

A large party of Winnipeg young men
left here for the Yukon district this
afternoon via Victoria. Among those
going are: Ald. Banerman, D. H.
Conroy, Chas. Cornell, L. R. McKenzie,
J. James, S. Taylor, J. E. Thompson, D.
McMurray, J. McNabb, W. Campbell,
A. McFarlane, Theo. Nixon, V. Lipsett,
Chas. Gentry, H. A. Testar, Geo.
McLeod, H. Vase, Dr. Norquay, Messrs.
Moore and Young of Selkirk, Dr. Rip-
stein, S. Ripstein and J. Baker.

Mr. McEwen, of Estevan, has
been placed under arrest there on sus-
picion of having assisted the death of
his late husband by the administration
of some dose of poison; and
McEwen has been dead over six
months.

The Winnipeg crew for the Stanley
cup game left here yesterday and were given
an enthusiastic send-off at the depot. They
sail by the Vancouver on Saturday from
Montreal. All the men are in excellent
condition. The party is composed of:
C. G. Armytage, W. J. K. Osborne, E.
E. Lloyd, C. L. Marks, and trainer D. J.
Murphy. Capt. Galt will follow the
crew later and be present to wit-
ness the race. Since Waters, of
Troy, N.Y., wrote last week that he
was unable to alter the boat he
built for the club and return it here in
time for the departure of the crew, the
club has been in telegraphic commu-
nication with the manufacturer with the
result that yesterday a new boat was
ordered to be built at once and follow the
crew to England. The boat is to reach
Canada by July 1.

The C.P.R. land sales for May, 1897,
are nearly \$30,000 greater than for May,
1896. There is every prospect of in-
creasing sales during June. Cash pay-
ments have been much better than at
any time previous.

An Ottawa special published here-
to-day the Canadian Pacific and the govern-
ment have practically arrived at an un-
derstanding regarding the Crow's Nest
Pass railway. Mr. Shaughnessy, in an
interview, says the road will probably
be completed in the fall of 1898.

WINNIPEG, June 2.—(Special)—John
Prince Albert, diplomat, says: "John
father of 'Almighty Voice' came to
trial at Duck Lake to-day charged
with being accessory before the fact in
the case of the shooting of the
Mounted Police interpreter. He was re-
mandered."

The wife of a well known C.P.R. con-
ductor has received word that, with
several other relatives, she is heir to an
estate valued at \$4,000,000 in England.

NEWS OF THE CAPITAL.

(From Our Own Correspondent.)

OTTAWA, June 2.—In both Senate and
Commons to-day attention was drawn to
the press comment on the unsoldierlike
appearance of the Jubilee regiment. Sir
Richard Cartwright said he had reports
from the Adjutant-General that the reg-
iment is efficient and creditable.

Mr. Laurier told Mr. McInnes that
the time for the disallowance of the
British Columbia Southern railway aid
bill expires next month.

Dr. McInnes strongly advocated in
the Senate to-day the establishment of
a mint in Canada, but was eventually
induced to withdraw his motion.

The Conservatives will banquet Sir
Charles Tupper before prorogation. The
Senate to-night made it an indictable
offense to import kite-scope views of
prize fights or newspapers to publish
reports of such fights.

The Combines clause of the tariff was
under discussion in the Commons all-
day. The Opposition submitted an
amendment to leave the whole matter
to the courts.

The Premier leaves for England via
Montreal and New York to-morrow. Sir
Richard Cartwright will be acting pre-
mier.

If you once try Hester's Little Liver Pills
you will never be without them. They are
small, and easy to take, and don't forget this.

TWO NATIONS PROTEST.

Germany and Belgium Formally
Claim Equal Trade Rights With
Britain in Canada.

Mr. Chamberlain Tells of His Warn-
ing to Mr. Cecil Rhodes
Against the Raid.

LONDON, June 1.—Replying in the
House of Commons to-day to a question
put by Sir Charles Howard Vincent,
Secretary of State for the Colonies, the Sec-
retary of State for the Colonies said that
Belgium and Germany had protested
against British goods entering Canada
at a lower tariff than applied to their
Mr. Chamberlain added that the mem-
bers of the crown are now considering
the matter.

THE TRANSVAAL RAID.

When the inquiry of the parliament-
ary committee into the Transvaal raid
was resumed to-day Mr. Alfred Beit,
former director of the British South
Africa Company, read a statement de-
claring the charges of Mr. Henry Labou-
chere to the effect that he had "rigged
the market" and offered the books of
his firm to prove the truth of his
denial. Lord Robert Cecil, counsel
for Dr. Rutherford Harris, made ap-
plication to the committee to read
half of his client, asking that
Mr. Harris be re-examined on the sub-
ject of Mr. Labouchere's letter of Tues-
day last, which, purporting to be an
apology, in reality reiterated in a veiled
form the charges made by Mr. Labou-
chere against Dr. Harris. The commit-
tee refused the request under advisement.

Mr. Chamberlain testified that he was
convinced Dr. Harris had not said to
him that a force of the British Chartered
South African troops would be on the
border ready to assist the Uitlanders if a
rising occurred at Johannesburg. To-
day the raid itself, Mr. Chamberlain
said the moment a suggestion of the
government in view of the parliamentary
situation caused by the refusal of the
liberals to take part in the deliberations
of the Cortes. This attitude of the Lib-
erals is due to the personal encounter
between the Duke of Telsan, the Minister
for Foreign Affairs, and Professor Ge-
nau, a Liberal Senator, on May 21,
when the Duke slapped the face of
the Senator after a heated debate on
the subject of the resolution proposed
by the United States Senate. The Queen
Regent will hold a cabinet council to-
morrow.

A SLAP IN THE FACE.

MADRID, June 2.—The Premier, Senor
Canovas del Castillo, has tendered to the
Queen Regent the resignation of the
cabinet owing to the difficulty the min-
isters experience in carrying on the
government in view of the parliamentary
situation caused by the refusal of the
liberals to take part in the deliberations
of the Cortes. This attitude of the Lib-
erals is due to the personal encounter
between the Duke of Telsan, the Minister
for Foreign Affairs, and Professor Ge-
nau, a Liberal Senator, on May 21,
when the Duke slapped the face of
the Senator after a heated debate on
the subject of the resolution proposed
by the United States Senate. The Queen
Regent will hold a cabinet council to-
morrow.

THE SENATE TOO CURIOUS.

WASHINGTON, June 1.—The Senate to-
day was called to order by the Speaker,
and the first business was the report of
the committee on the petition of the
counsel for the defence to order an
acquittal in the case of the Government
against John E. Searles, secretary of the
Sugar Trust, for recusancy before the
Senate sugar investigating committee.
Both Searles and Mr. Havemeyer
were present. Judge Bradley sustained
the motion of the defence and ordered
the jury to return a verdict of acquittal.
The jury accordingly returned a verdict
of not guilty and Mr. Searles was set
free. The case of E. J. Edwards and
John Scriber, the newspaper correspond-
ents, were postponed until next Mon-
day.

The judge pointed out that Mr. Searles
had testified specially that no money
had been contributed by the sugar trust
to the national campaign for the purpose
of influencing legislation or the election
of United States senators. Certainly,
the judge said, a simple investigation as
to whether the sugar trust had contrib-
uted to the campaign fund would be an
unwarranted search into the private
affairs of the company and plainly be-
hind the power of the Senate. If money
had gone for the purpose of electing
members of the Senate, it would in
time would elect a U. S. senator, it was
beyond the power of the United States
Senate to go behind the election of leg-
islative members. If the money was to
state matters, how much more so was it
of local elections?

It appeared from the report of the
committee that they were not in posses-
sion of any facts upon which they could
base the most remote hope of showing
rumors were unfounded, or which
sugar trusts contributions and the sugar
schedule. Under these circumstances it
must be held that the questions asked
were not pertinent that they were un-
warranted prying into the private affairs
of the company, and therefore beyond
the jurisdiction of the Senate; conse-
quently the discharge.

QUESTIONS FOR THE PEOPLE.

WASHINGTON, June 1.—Senator Pettigrew
to-day introduced a bill to provide
for the submission to a popular vote at
the congressional election of 1898 of the
following questions:
"Shall Congress at once enact a law
providing for the immediate free and
unlimited coinage of silver and gold at
the ratio of 16 to 1?"
"Shall the constitution of the United
States be so amended as to provide for
the election of United States senators
and the President and Vice-President by
direct vote of the people?"
It is made the duty of the secretary of
each state to forward the result of the
vote to the President, who is required
to transmit the statement to congress.

The People are convinced
that the only cure for
Hood's Sarsaparilla. They are written by
men and women, and are plain, straight-
forward statements of fact. The people have
confidence in Hood's Sarsaparilla because they
know it cures permanently, cures, even
when other medicines fail.

Hood's Pills are the only pills to take with
Hood's Sarsaparilla. Easy and yet efficient.

Rapid Heart Beat.
Mrs. Jas. Craig, Birmingham, Ont., says:—
"I was troubled with rapid beating of the
heart and a strange sinking feeling. I took
Hood's Heart and Nerve Pills, and they
cured me. The heart weakness and
throbbing, together with the nervousness,
which I thought had completely dis-
appeared, and I am now strong and well."

MR. HUDDART'S WORK.

The "Times" Thinks it Has Not Been
Properly Recognized in the
Steamship Contract.

His Personal Energy and Enter-
prise Have Made the Fast
Service Practicable.

LONDON, June 3.—The Times this
morning in an article discussing Cana-
dian affairs says:—"Canada stands
midway upon an imperial high road, the
opportunity of which enables her to re-
sist with relative indifference the forces
prected along her southern frontier. The
longer that force is maintained in its
present position the more anxious will
be the connection between the Dominion
and the mother country, the connection
we have now had ample proof that both
the Canadian parties are desirous of
maintaining."

Referring to the fact that Patterson,
Tait & Co., the Newcastle shipbuilders,
have secured the contract for the fast
Canadian service instead of the Allan
Line Steamship Company, the Times
says: "Perhaps in this connection
proper consideration has not been given to
the services of Mr. J. E. Huddart, prom-
oter of the Canadian-Australian Steam-
ship Company. To his personal energy
and labor it is largely due that difficul-
ties appear insuperable have been
overcome, and the adoption of the scheme
of his inception has been made prac-
ticable. The public, which profits from
these services, should gratefully recog-
nize them and him."

TURKEY AND GREECE.

LONDON, June 1.—The exact position
as to the armistice negotiations is not
yet clear. During the councils of min-
isters at Yildiz Kiosk the peace condi-
tions have certainly been discussed, but
all mention of Thessaly is studiously
avoided. The assumption seems to be
that Thessaly belongs to Turkey by
conquest, and that there is
nothing more to be said on the
subject. The powers will have to show
a united and very energetic front before
the Sultan will recede from this position.
In the meantime, in order to remove the
impression that she rejects all the peace
proposals, Greece has sent another note
to her representatives abroad repeating
that she is prepared to acquiesce in the
decisions of the powers, but that the
payment of a large indemnity is im-
possible.

Edhem Pasha having sent the aide-
de-camp whom the Sultan appointed to
watch him back to Constantinople under
a spy, the courier was forthwith
promoted by the Sultan.

A special to the Times from Constanti-
nople says there is strong reason for be-
lieving that Bulgaria is exerting an in-
fluence to induce the Sultan to transform
Macedonia into an autonomous province
under an imperial Prince.

ATHENS, June 2.—It is expected that
representatives of the two armies will
meet to-day (Wednesday) to sign an ex-
tension of the armistice.

TURKS KEEP POSSESSION.

CONSTANTINOPLE, June 2.—Edhem
Pasha has given all merchants fifteen
days in which to withdraw their goods
from the custom house at Volo. At the
expiration of that time all goods re-
maining in the custom house will be
conducted by the Turkish authorities.

LONDON, June 3.—The Turk has
promised to sign the extension of an
armistice at dawn to-day, and it is ex-
pected that peace negotiations will be-
gin promptly at Constantinople.

CANEA, Island of Crete, June 2.—
Hadji Michalis, as chief of the Cretan
insurgents, has issued a proclamation call-
ing upon the Cretans to elect a general
assembly to resume their ordinary every
day relations, and to respect the lives
and property of the Mussulmans.

THE MINING CONVENTION.

BAT-PORTAGE, June 2.—(Special)—The
Western Ontario mining convention was
called to order this afternoon. There is
a large gathering of prominent mining
men from all parts of the continent.

LONDON, June 3.—The Turk has
promised to sign the extension of an
armistice at dawn to-day, and it is ex-
pected that peace negotiations will be-
gin promptly at Constantinople.

SEATTLE, May 30.—W. H. Remington,
one of the leading smelter men of Salt
Lake, is now at the Burr. He was
met by Mr. Selover, and was called upon
by Mayor Wood, who arranged for a
meeting with the committee of mining
men which has charge of the enterprise.
Mr. Remington was not prepared to go
into particulars in regard to the plans of
the syndicate of which he is a member,
as he wishes first to study the situation
here and to confer with the committee
mentioned. All he was prepared to say
was: "I have landed here in response
to several telegrams for the purpose of
hearing a proposition looking to the
location of a smelter and refining plant
at this point, instead of in British Col-
umbia."

CHICAGO, June 1.—Heavy frosts oc-
curred during the past two mornings
over the greater part of the Northwest.
Snow and freezing weather is reported
from Northern Wisconsin and Northern
Illinois badly damaged. Corn
in Northern and North Central Illinois
is reported to be cut down by the frost.
Ice formed at many points in this sec-
tion. Potatoes have been killed at
some points, and must be replanted.
Southern Michigan and Northern Indi-
ana also report much injury by frost.

CHICAGO, June 1.—Adolph Luetger,
the rich sausage maker charged with the
murder of his wife, whom he is said to
have boiled down in a vat, was held for
the grand jury to-day without bail. The
examining magistrate said there was
strong circumstantial evidence that a
crime had been committed, and it point-
ed to the conclusion that the defendant was
guilty of the crime with which he was
charged.

Key West, Fla., June 1.—The U.S.
cruiser Marblehead returned at noon
to-day with the tug Danmiles in tow,
charged with blustering. The tug was
turned over to the customs officers. About
twenty-five Cubans were found on
the Danmiles. Very little ammuni-
tion was found aboard the tug, and re-
port has it that the crew threw the cargo
overboard.

If sick headaches be misery, what are Cer-
ebral Pains? People who have used them speak
of their worth. They are small and
easy to take.

ROYAL BAKING POWDER

AN IRISH HORSE WINS.

The Jubilee Derby Confers That
Distinction for the First Time
on the Green Isle.

Yachting Fleet in Commission—
Wheeling Races Projected for
Summer Evenings.

EROM DOWNS, June 2.—The Derby
of 1897 was won to-day by Mr. J. Gub-
bins' brown colt Galteemore, by Ken-
dall, out of Morganette. After the usual
parade the flag fell at 3:16 p.m. to a
capital start. Prime Minister was first
away, followed by Montevoy, Allegro,
Oakdene and History, with Galteemore,
Frisson and St. Cloud II as whippers.

In passing Sherwood Prime Minister
was joined by Oakdene, who shortly
afterwards took the lead with Galteemore
third. On entering the straight
Oakdene drew clear followed by Galteemore,
Frisson and History, and the
quarrette ran in front of the field. In
crossing the road Galteemore easily took
the lead, and a quarter mile from the
goal he was well ahead of his horse alone,
but Velasquez continued to gain and
soon closed on Galteemore. A short
race was run, but Galteemore was beaten, but
the Irish colt was far from that.
Galteemore responded splendidly,
drew out in inimitable style, and won
very easily. St. Cloud II was fifth and
Frisson was last.

Before the race the paddock was more
crowded than usual. The gaily colored
strives of the Indian whiff saws bright-
ened the scene, and the brilliancy
of the race to an otherwise somewhat
dull scene. During the race there was
little excitement, but when the horses
returned to the paddock, and Mr. Gubbins
led his horse into the crowd, he was
lustily cheered. Wood, Galteemore's
jockey, also came in for a hearty recep-
tion.

Galteemore is the first horse bred in
Ireland and owned by an Irishman which
has won the Derby, and the merit of
the colt can be better appreciated when
it is remembered that Galteemore won
the Newmarket stakes of two thousand
pounds this year. In that event as to-
day Lord Rosebery's Velasquez ran sec-
ond to Galteemore.

Betting before the start was four to
one on Galteemore, ten to one against
Velasquez and twenty-five to one
against History. Galteemore had been
predicted a sure winner for some weeks
previous to the race, although there
were those who thought that the jockey
Charles Wood's nine years' absence
from the turf, he not having a mount in
that time, would count against him.
But Wood showed that he was just as
fit as when he won on St. Blaine in
1887.

It was predicted that the crowd which
would be present at the Jubilee Derby,
as the race for this year was termed,
would eclipse all records in point of
numbers, but the expectations were not
realized. The weather was not of a
kind to attract large crowds of people to
the race course. The sky was dull and
threatening, the atmosphere heavy and
damp.

YACHTING.

Last night by the launching of the
Volage, Commodore Kirk's flagship—
saw the last of the "A" class yachts
affiliated with the Victoria Yacht
Club. The Volage has had a long rest
in Watson's yard, and for this reason
will be commanded by Capt. Charles E.
Clark. Victoria is now represented in
"A" class (i.e. 6-rating and over) by
four vessels—the Ariadne, Volage, Jubilee
and Korn.

On Tuesday evening last was also suc-
cessfully launched Mr. F. Morrall's new
1-rater, the Allie, modeled after W. F.
Stephen's famous Scarecrow, well
known to readers of Forest and Stream;
this little yacht will also sail under the
Victoria Yacht Club flag. There are
now in the club twenty yachts, whose
total cost will reach over \$30,000, the
total number of yachts now on the role,
little and big, being 31, and the mem-
bers having reason to believe that they
now have the strongest club in the
Northwest.

THE WHEEL.

The Victoria wheelmen at a special
general meeting yesterday evening de-
cided their track and ground committee
to wait upon the management of the
tramway company, owners of the track
at Oak Bay, to see what can be done in
the direction of lighting those grounds
so that evening meets can be held during
the present season. The night racing
has quite superseded afternoon meets in
the cities of California and even in
Seattle, and if the lights can be secured
in time for Jubilee week the races then
to be given by the local club cannot but
prove among the most attractive fea-
tures of the celebration.
