Some unhappy wight, under the inapposite signature of Felix, has recorded in last Saint John Courier, his misapprehension of the word "Member." Johnson quotes Addison for defining it "One of a Community," but poor felix seems to have been so entirely engrossed with the importance of the senatorial office, that his mind was incapable of stretching beyond the absorbing idea of "Member of Assembly."—Nothing would please us better than to see the Petition or Address he alludes to, published; and along with it the name of every MEMBER who has signed it.
