## WHITE'S UNIVERSAL HISTORY.

Elements of Universal History, on a new and systematic plan; from the earliest times to the Treaty of Vienna; to which is added a summary of the leading events since that period. For the use of Schools and private Students, by H. WHITE, B.A., Trinity College, Cambridge; with Additions and Questions, by JOHN S. HART, A.M., Principal of the Philadelphia High School, &c., in one volume, large 12mo., neatly half bound.

This work is arranged on a new plan, which is believed to combine the advantages of those formerly in use. It is divided into three parts, corresponding with Ancient, Middle, and Modern History; which parts are again subdivided into centuries, so that the various events are presented in the order of time, while it is so arranged that the annals of each country can be read consecutively, thus combining the advantages of both the plans hitherto pursued in works of this kind. To guide the researches of the student, there will be found numerous synoptical tables, with remarks and sketches of literatures, antiquities, and manners, at the great chronological epochs.

The additions of the American editor have been principally confined to the chapters on the history of this country. The series of questions by him will be found of use to those who prefer that system of instruction. For those who do not, the publishers have had an edition prepared without the questions.
