tred in the favorite industrials, Trade reports, particularly from the steel and iron industries, were opti-mistic enough to explain the heavy buying of these shares. The weekly reviews of the steel trade indicated that operations were well up towards capacity. Pig iron production for July was at the rate of 82,691 tons daily. as compared with 79,361 tons in June. There were reports of several new orders for large amounts of war muni-tions, but they were not confirmed. Copper producers reported large en-cuirles from domestic customers, as well as the development of foreign demand. Utah Coppers report for the quarter ended June 30, showed an inrease of \$1,513,000 in total income. Bonds firm; total sales, par value, \$2,285,000.

IN STEEL STOCKS

Run of Seven Points for the Day.

The steel stocks and a few other industrials were the attractive issues over seven points. The movement in Canadian steel stocks is purely a re-flex of that in similar issues in New York and speculation is only yet in an incipient stage in this market. Steel Corporation was inactive, but 1 1-2 points higher. Steel of Canada had considerable trading and left off with a rise of half a point. In the unlisted is sues Smelters made

a good advance to 114 and held almost A better investment demand was noted in the market, but this concerned itself with the issues which conformed to that calibre.

MONTREAL, Aug. 4.—Great activity and strength in the steel stocks, notably in Scotia, which rose 9 points to 86, the highest quotation in more than two years, brought the volume of business on the stock exchange today to the largest total, with one exception, since the reopening in April. Transactions totaled 14,140 shares, Scotia and Iron contributing 4933 shares, Scotia and Iron contributing 4938 and 4901 shares respectively.

The outstanding feature of the day was the rise in Scotia. With scarcely a reaction the advance proceeded steadily from the opening at 77 to 86. The close was at 84½, or 7½ points up on the day. Apart from Canadian Car, which rose 6 to 105, the list was comparatively quiet. The tone, however, was consistently strong. Iron rose to 39½ and finished at the best with a net gain of 1½. Bridge rose 1 to 132 where it closed. Locomotive showed a gain of 1½ at 50½, and Steel of Canada rose ½ to 25. Count Reventlow in Newspaper Article Complains of Alleged Perfidy.

BERLIN, Aug. 4.—A warning that nothing can be expected from Roumania is conveyed to the readers of The Tages Zeitung in an editorial this morning by Count Ernest Reventlow. His article, which is headed "Roumania's failing quotation," summarizes the situation in

quotation," summarizes the situation in the following paragraph:

"Those friendly relations with Roumania made sacred by tradition—and on the German side by 'firm confidence—can hardly longer be considered as existing."

Count Reventlow points out Roumania's refusal to permit exports of grain or to permit ammunition for the Turks to pass thru its territory, altho Russia was permitted to tranship munitions to Serbia. He says it had been hoped Roumania would fulfil its treaty obligations or preserve at least an upright and well-wishing neutrality, but that the contrary came to pass. Roumania's neutrality became "malevolent," he asserts, with a tendency to enter the conflict on the side of Germany's enemies.

BAR PETROLEUM EXPORTS.

PARIS, Aug. 4.—A despatch to the Havas Agency from Saloniki says: "Advices received from Bucharest say that the export of petroleum and benzine to Bulgaria has been forbidden for an indefinite period. All trips around the mountain summer resorts of Sinais and Predeal have been prohibited on account of the construction of military defences there."
