uniform courtesy and geniality in social relations. They have hosts of friends in the newspaper fraternity of this State, who will wish them success in their enlarged field of operation.

### Reporter, Wathenn, Kansas.

**NEW TYPE.**—Our new type was procured from DAUCHY & Co., Advertising Agents, New York City, on a contract we have with them for advertising, and in justice to them we will say that they are the only advertising firm who ever did for us more than they agreed to do.

### Democrat, West Troy, N. Y.

The type with which this number of the DEMOCRAT is printed is from the foundry of Messrs. DAUCHY & Co., 75 Fulton Street, New York. Although it is but a short time since these gentlemen began the business of type casting, they have, by the manufacture of the excellent material they furnish, gained a reputation second to no other establishment in the country. We have had dealings with this firm, as Advertising Agents, and otherwise, for several years, and have always found them men of honor, straight-forward and prompt in all business transactions, and true gentlemen in every sense of the word. We cheerfully commend them to the press throughout the country.—*Fulton County Democrat.*

We know our cotemporary speaks the truth of Messrs. DAUCHY & Co., for we have always known them to do just as they agree in all their dealings with us. Their place of business is very pleasantly located, and they always welcome their patrons in the most cordial manner.

### Maine Standard, Augusta, Me.

A well-conducted Advertising Agency is that of DAUCHY & Co., 75 Fulton Street, New York. The gentlemen composing the firm are enterprising and industrious, and in all our dealings with them we have found them prompt and reliable—two of the very best qualities in their line of business.

### Chronicle, Marion, Ind.

During the past two years we have received near \$200 00 worth of wood type from the Advertising Agency
