GEOGRAPHY.

Examiners: { W. ALEXANDER.
N. W. CAMPBELL.
W. J. CARSON.

Values

- | | |
|-------------------|--|
| 1 + 5 =
6
6 | 1. (a) Define zones. By a drawing represent the position of the zones, giving their names and boundaries.
(b) Compare any two of the zones with respect to (i) climate, (ii) vegetation, (iii) animals. |
| 6 × 2 =
12 | 2. (a) In connection with trade between Canada and Great Britain, what is meant by "Cold storage" and "Fast Atlantic Line"?
(b) State briefly the advantages to Canadian trade from each of these. |
| 10 | 3. By a sketch map indicate the course of a vessel if it were to sail from Port Arthur (Ontario) for Glasgow. Write on the map the names of the waters traversed and of any ports of call on the way. |
| 5
5 | 4. (a) Describe fully the causes of ocean currents.
(b) Trace the course of the Gulf Stream and enumerate some of its beneficial effects. |
| 5 × 4 =
20 | 5. "The Dominion of Canada includes a sisterhood of seven fair Provinces stretching irregularly from the Atlantic to the Pacific."
(a) Name in order, beginning with the most westerly, these seven provinces with the political capital of each.
(b) Compare, as to physical features, (i) British Columbia and Quebec, (ii) Manitoba and Prince Edward Island. |
