itom of the shaft, now ...

It is some visible gold, and all pans ary freely.

The stripping of the surface is showing up high grade ore, and with depth. This will surely increase in value. So the testing of the ore constant as the testing of the ore constant a in as the testing of the ore con-linues, it is showing it to be high rade instead of low grade ore. Should-his keep up the company will be the wner of one of the largest high grade re bodies on the American continent, and the more I examine the property he more I am convinced that it is e great mother lode of this country. There is no doubt that the company is and can produce gold; on this I will stake my reputation as a mining man of over 40 years' experience.
With a small amount of capital spent in further development, a plant can be installed for treating the ore on a large scale that will make this one of he greatest paying mines on the con-

PROSPECTING CENTRAL

Being Worked Efficiently and Economically.

receipt of a letter from Mr. Charles B. Morgan, managing engineer of those

Regarding the operations on Porcu-pine Central claims, he says that work had been principally conduct to surface prospecting on some of them, whilst on two of them, the Askwith, adjoining on the Jarvis, in the centre of Tisdale, adjoining certain of the Bewick-Moreing holdings and Cana-Bewick-Moreing holdings and Canadian Northern Exploration claims, a more elaborate campaign of development had been undertaken. He fürther says that the Cook claim, adjoining the Town of South Porcupine, has been thoroly drained by digging long ditches across it, has been patented and is to be la'd out in about 180 town lots.

Regarding the Porcupine Northern priper ies, he says that the Collinan claim, on the west boundary line of T siale, adjoining the Campbell Veteran claim on the south, is to be patent eran claim on the south, is to be paterned and laid out in town lots, as from all appearances the important townsite in Porcupine is to be in the neighborhood of the Mattagami River exploration work to a minimum, rather than waste the treasury resources in creating a semblance of activity which may be entirely unproductive. I amendeavoring to-conserve these resources as much as is consistent with steady operations, so that we may a ply them at the right time in a de-

Elected to the Henorary Council of Great Scientific

merce, agriculture, inventions, handi-crafts, industries and the learned pro-fessions, music and drama. It takes fessions, music and drama. It takes cognizance of the men thruout the empire who distinguish themselves in any or all of these walks of life.

The honorary vice-presidents of the North British Academy are the Right Hon. Viscount Milner, K.C.B., G.C.M. G., D.C.L.; Field Marshal Earl Roberts, V.C., K.P., K.C., LL.D.; and the Right Hon. A. J. Balfour, M.P., F.R.S., D.L.

Just recently the Right, Hon Walter

Just recently the Right. Hon. Walter 1,000 Runciman, M.P., a prominent member 3,000 of the Asquith Government, has been elected a vice-president; and J. M. Clark, Esq., K.C., M.A., LL.R., F.N., B.A., Toronto, Canada, has been elected to the honorary council. Among others in the honorary council are: General Baden-Powell, Rev. Stopford A. Brooke, LLD..; Frank Bramley, Esq., A.K.A.; Howard Pease, Esq., J. P.; Briton Rivierer, R.A.

The legal department of the North British Academy is the sphere in which J. M. Clark, K.C., has received recognition. His work for science, which beautiful and the second second

Bonding the Water Mains a Live nition. His work for science, which began years ago, is thus noted. He was Ald. Chisholm headed a deputation which waited on the board of control yesterday, who wanted a water main in the part of ward one which is north of Norway and west of the district that was East Toronto. They had been notified of the construction of a sewer, for which they would have to pay, but they did not want a sewer pay, but they did not want a sewer then they had no water.

The city treasurer's department ex-The city treasurer's department explained that they wanted a bond for \$3000 and a cash deposit of \$2000 before they could sanct on the work of laying the water main. The council it is of interest to know that Dr.

mining district, and reported favorably facts of human nature on which the on it. He is the inventor of the name. British-born movement was based. So far from dwelling on racial differences it insisted on racial likeness. Its appeal was to men who had made their thought that in this case they could laying the water main. The council thought that in this case they could walve the deposit and do the work on the bond of the residents. Work will be commenced there soon.

Single Track Loop for Rosedale. The board decided to recommend to gineering and proper treatment these the council the construction of a single track loop in North Rosedale. A double track loop was advocated, but the attention of wealthy and influential British investors and mining men. the council the construction of a single track loop in North Rosedale. A double track loop was advocated, but is was declared that a single track was all that the district needed.

The board agreed to guarantee \$200. The board agreed to guarantee \$200. Toron'o, which has guaranteed a similar sum, for a course of public lectures in sum, for a course of public lectures in several famous mining suits.

Ores could be worked out at a profit and that they have already attracted the attention of wealthy and influential British investors and mining men he landed on Canadian soil. That meant special responsibility to serve mining laws of Canada, as well as his successful appearance before the privy council in several famous mining suits. Sum, for a course of public lectures in British Academy a matter of consider-gratian. The Canada-British Associahere by Thomas Mawson of the Liver-

sum, for a course of public lectures in town planning, which will be given here by Thomas Mawson of the Liver-Seymour avenue residents appeared and again complained of the blasting in a brick works close by.

"My house is cracked from top to bettern" said one. The matter will be the said on the close of the blasting was appointed on the council of the British Empire Leage, in succession to the late Principal Grant of Queen's leader of the bettern" said one. The matter will be the said one. The matter will be the said one of the bettern and the said one of the bettern and the said one of the bettern and the said one of the said on the sa bottom," said one. The matter will be taken up with the city solicitor, who will see if he can have an indictment laid with the crown attorney.

To the late Principal Grant of Queen's University. Mr. Clark was appointed in the place of the late Sir Oliver Mowat, formerly prime minister of Ontario, and subsequently minister of University.

British-Born Movement Not Racial Appeal - Will Defeat Reciprocity.

SAULT STE. MARIE, Ont., Aug. 15. —(Special.)—At the first campaign meeting in West Algoma, held at the Soo to-night, Arthur Hawkes spoke to a big crowd of Britishers on the place of the British-bern in the coming elec-tion, and a branch of the Canada-Bri-tish Association was formed. There are more Brit shers at the Soo than any other Canadian town of similar size, their pro-Canadian and pro-British feeling is possibly stronger be-cause of their proximity to the Michi-

To-night's meeting was a great suc-cess and will make the defeat of recess and will make the defeat of re-ciprocity in this riding more certain, especially as Boyce, who is running for re-election is a Yorkshire man. Mr. Hawkes made great fun of the minister of labor. The latter appa-rently did not know the fundamental

permanent homes in Canada.

The British-born man had the advantage of knowing the old land, from which all the greater institutions of the new land had been brought by its noble pioneers. He had the advantage cented American-born, German-born, gration. The Canada-British Associat on was an effort to help the Britishborn realize this and ever keep the weight of the pro-British side and against the avowed policy of the United Sta'es, to which Canada was invited to lend herself. Let those who confused re ationship of British-born and Canadian-born remember men like himself were fathers of the nativeborn. He and thousands like him chosen to leave their children and

not 'oin, but might contemplate with thankful em tion. For himself it was deeper than any schedule of prices that might be the meinspring of some kinds of political economy, that moved him to fight against the consummation of what he te leved to be a tremendous blunder.

The Percupine Stocks The Porcupine Camp

It has been almost a panie in Percupine stocks, not alone for days, but almost for weeks. There has been continued liquidstion until it seemed there was no bottom to prices. What is the matter with Porcupine?

From the camp steadily comes the news of important claim transactions. Last week, it is reported, \$835,000 worth of property changed hands, with strong interests who already have large holdings in Porcupine doing the buying. And eminent engineers continue to endorse the wonderful district. There is nothing, then, the matter with the camp.

Hence it is only a market reaction in stocks, brought on probably by the drastic seiling going on among so, many other securi-

Those afready owning Porcu-pine stocks, and those intending to buy, should at once take ad-vantage of the opportunities which are offered.
