CURB TRUSTS A PARAMOUNT ISSUE PRODUCTION OF GOLD RELIEVES MONEY STRINGENCY FREE TRADE REMEDY FOR MONOPOLY

Bryan, Hops of Democrats, Given Great Welcome on Return From World Tour—Advocates Income Tax and Says British Government is More Responsive to Public Sentiment Than That of U.S.

Points from Bryan's Speech.
ARBITRATION
There is a perceptible growth in sentiment in favor of settlement of international disputes by peaceful means.
NAVY NOT DEBT COLLECTOR
We may not only promote peace but also advance our commercial interests by announcing as a national policy that our navy will not be used for collection of private debts.
COLONIALISM
Our nation has lost prestige rather than gained it by our experiment in colonialism. We have given the monarchist a chance to ridicule our Declaration of Independence. We should lose no time in announcing our purpose to deal with the Philippines as we deal with the Cubans.
CONGRESS NOT RESPONSIVE
In several of the nations of Europe the legislative department of government is more quickly responsive to public sentiment than is our congress.
INCOME TAX
The income tax which some in our country have denounced as a socialist attack upon wealth has the endorsement of the most conservative countries in the world.
LABOR AND CAPITAL
In advocating arbitration of differences between large corporate employers and their employees I believe we are defending the highest interests of the employees, the employers and the public. The struggle to secure an eight hour day is sure to be settled in favor of the workingmen's contention.
THE MONEY QUESTION
The unlooked-for and unprecedented increase in the production of gold has brought a victory to the advocates of bi-metalism. The paramount issue is the trust issue.
TARIFF
The tariff question is closely allied to the trust question and the reduction of the tariff furnishes an easy means of limiting the extortion which the trusts practice. Few manufacturing establishments would dare to enter into a trust if the president were to put upon the free list articles competing with those controlled by a trust.
RAILROAD DISCRIMINATION
Absolute equality of treatment at the hands of the railroads would go far toward crippling the trusts.
PUBLIC OWNERSHIP
An increasing number of all parties see in public ownership the sure remedy for discriminations between persons and places and the extortionate rates for the carrying of freight and passengers.
I prefer to see only the trunk lines operated by the federal government, and the local lines by the several state governments.

New York, Aug. 30.—Mr. Bryan's entry into New York this afternoon was a series of ovations, beginning with his landing at the Battery at 4 o'clock and reaching an early climax when he arrived at the Victoria Hotel, 27th-street and Broadway, an hour and fifteen minutes later.
Here the home-coming Nebraskan fairly was mobbed by the thousands of persons who had gathered outside the entrances and the hundreds who had forced their way into the corridors. Finally an entrance was effected by the police and Bryan reached the lobby-stairs. He was hailed and called upon for a speech, and then the crowd surged about him, cheering lustily all the while.
Twelve thousand persons, many of them women, were seated by 7 o'clock and an hour later not a vacant seat was to be seen. The heat in the garden, once the crowd had assembled, was so great that a large portion of the glass was pushed back, leaving only the stars as a canopy. The galleries early were jammed to their utmost capacity. Hundreds of policemen were on duty to act in case of emergency and fifty firemen were detailed at various stations in the giant structure.
Mr. Bryan was presented at 8.40. As he arose the audience was on its feet as one man. The cheering which began at that instant did not end until 8.45, and only after Mr. Bryan had waved his hands frantically in an effort to still the waves of noise which rolled in from the audience and beat upon the speaker's ears, did he attempt to make his speech. The demonstration was planned, stood bowing and smiling. Then his attitude was one of appeal. This at last prevailed and as the cheering died away in reverberating echoes along the girdered roof, Mr. Bryan began.
"I believe that if our nation would propose to make with every other nation a treaty providing that all questions in dispute between the parties should be submitted to the Hague court or some other impartial international tribunal for investigation and report before any declaration of war or commencement of hostilities, it would find many nations ready to enter into such a compact as sure from the public utterances of the present prime minister of Great Britain, Sir Henry Campbell-Bannerman, that such a treaty could be made between the two great English-speaking nations and their example would be followed until the danger of war would be almost, if not entirely removed. I confess that my aversion to killing increases with the years. Surely the creator did not so plan the universe as to make the progress of the race dependent upon wholesale blood-letting. I prefer to believe that war, instead of being an

ARRESTED FOR DESERTION.
Montreal 8. S. Company Will Prosecute for Jumping of Job.
Deserting from an ocean liner has caused another sailor to be arrested, but nothing John Bishop, a fireman on the Turbulin, was arrested by P. C. McKee yesterday afternoon because he left the Allan liner Victorian, Bishop is locked up on No. 1 station, and an officer will be here for two weeks.
Late, the big steamship companies have been taking pains to look after men who do not fulfill their agreements with the boats, with a view to making an example, and thus preventing other desertions.
Will Enquire.
Hon. J. P. Brodeur, minister of marine, has informed the minister that he has asked the R. & O. Navigation Company for an explanation as to the occurrences his worship complained of recently.

Two Quick Runs.
C. P. R. Outward Ship Beats Record Over Ten Hours.
Montreal, Aug. 30.—The Canadian Pacific R.M.S. Empress of Britain, from Rimouski, Aug. 25, at 9.30 a.m. was reported 100 miles east of Maine Head, Aug. 30, at 4 p.m., and is due at Liverpool about 7 a.m., Aug. 31, having beaten the record over the course from Rimouski to Liverpool by Belle Isle by over 10 hours.
The Canadian Pacific R.M.S. Empress of Ireland, from Liverpool, Aug. 24, was reported off Matane light at 1.40 p.m. Aug. 30, and is due at Quebec shortly after midnight, having made a remarkably fast run. Her passengers will reach Montreal Friday morning, Aug. 31.
THE SICHE GAS EXHIBIT.
The sixth consecutive yearly exhibit of the Siche Gas System, now on view in the manufacturers' annex—better known as the Siche Gas Building—will well worth seeing. This system has taken medals yearly since 1902, receiving gold medal and diploma last year. Its main advantages are that there is absolutely no storage of gas and consequently no danger. Though thousands of Siche machines are in daily use in this country, there has never been an explosion of a Siche Gas Machine anywhere. Advertisers will find the two samples of illuminated signs "Siche Gas" shown at the north and south ends of the building worth investigation. These signs are much more effective and clear than the ordinary incandescent electric signs, being very distinct and easily read at a distance of over a furlong. Besides lighting the manufacturers' annex, the Siche System is employed for the fifth consecutive year to light the C.P.R. building. Mr. Dockrill, energetic representative of that railway, is boasting that he has the best lit building on the grounds.
Visitors to the Siche exhibit are displaying much interest in the instantaneous hot water heater, which boils water from the city main at the rate of a gallon a minute. The First Proof Siche is the only first proof gas machine made in the world. The model, complete with forced draught blowpipe and further special features, shown in connection with a full line of cooking and heating apparatus. The company is giving away matchboxes and neat hat pins as souvenirs. The fact that an inexhaustible supply of chintze (the raw material for Siche gas), is now assured for Canada, at a rate that will cut the cost of the gas practically in two, is increasing the volume of sales of Siche gas machines to such an extent that the company is to-day more than a month behind its orders.
Seven feet of water, clean and smooth. Try it to Carlaw Ave. Best equipped machine shot at ship yard of Schofield-Holden Machine Co., Limited.

When visiting the Exhibition stay at Pempers Turkish Baths, 129 Yonge St., next to St. James.

PROCESS BUILDING AFIRE DUE TO MEDDLESOME MAN

Fooled With Gas Generator and Blaz Resulted That Did \$1500 Damage—Manufacturers View the Fair—Retail Merchants and Their Troubles.
Those three strong men of Canada, Messrs. Manufacturers Wholesale and Retailer, had their innings at Canada's National Exhibition yesterday, while Mr. Banker, who dry-nurses everybody, sat and looked on approvingly, and Mr. Farmer and Mr. Citizen stood to one side and admired.
These half-dozen gentlemen have the present and the future of Canada in their hands and their success depends on their co-operation, but nothing so enables them to realize this as getting together at the big show. The directors luncheon was a pleasant opportunity for such an object, and while the three "strong men" mentioned were bankers enough present to make quite a clamor they permitted their money to talk. The trained lions were the directors, an appreciative audience and were naturally pleased to find themselves in such good company.
The fair has an exceptionally fine one, and the 40,000 is given as the attendance, the grounds were not so thronged as to render sight-seeing disagreeable. The crowds, however, were very great, and not a vacant seat could be found on the grand stand. Judging from the proceedings yesterday afternoon was unfortunately not of a serious nature. The trained lions were the occasion of another accident.
The playing of the Second Life Guards' Band yesterday established the fact that the highest concert order, and is rapturously received. Such numbers yesterday as "Cavalleria Rusticana," selection, the Reminiscences of the "Poppy" music, Corporal Jesse's and the noble melody "O, Star of Eve" from Tannhauser, and the excerpt from Schubert's unfinished symphony in B minor, indicated the most cultured taste and the highest skill combined with a desire to please those who believe they like "poppy" music. Corporal Jesse's piccolo solo was encored. Corporal Harman will play a cornet solo every evening from 8 cents to 25 cents per day.
To-day is Press Day, and the newspaper men of the province will own the

PHILADELPHIA, Aug. 30.—The suspicion that Frank K. Hipple, president of the embarrassed Real Estate Trust Company, who was found dead at his home in Lima, Pa., yesterday, committed suicide, was confirmed to-day by coroner Joseph N. Kane.
Since the death of Mr. Hipple, the family physician and the coroner maintained that he died of cerebral hemorrhage, while taking a bath. The coroner to-day said:
"When I went to Bryn Mawr Friday morning to investigate the sudden death of Mr. Hipple I discovered he had committed suicide. I decided to suppress the fact for a few days in order to prevent a run on the trust company.
I thought if there was anything wrong in Mr. Hipple's transactions the directors would have a chance to make up whatever deficits there were." He added that his action was voluntary and had been approved by several men prominent in legal affairs.
The coroner stated that Hipple had placed the muzzle of an 8-caliber revolver in his mouth and shot himself. The ball lodged in the brain. The shooting took place in the bath-room early in the morning. Mrs. Hipple was not aware that her husband had killed himself until the arrival of the family physician.

RECEIVER EARLE SUGGESTS PLAN BY WHICH CREDITORS WILL GET DOLLAR FOR DOLLAR.
Philadelphia, Aug. 30.—The receiver of the Real Estate Trust Company was to-day to ask the creditors to take preferred stock in the trust company for their claims, and appoint their own officers in the appointment of the receiver, would give the creditors their only chance to get back their money dollar for dollar.
Mr. Earle said he felt assured, would give a large asset of the trust company, which was supposed was not very good, really was backed by names perfectly good, and which could be realized upon. This asset is said to be \$250,000 in value.

THE STRIKE.
The strikers comprise local unions 20 and 31, branches of the International Union of Piano, Organ and Musical Instrument Workers. They claim to have absolute guarantee from the international organization of financial support during the campaign.
The strike was decided upon at a mass meeting in the Labor Temple last night, which was largely attended and of unanimous mind.
The situation as explained by General Agent J. E. Virtue, is this: On Aug. 20 an agreement was submitted to the manufacturers asking for a wage shop (employing none but union labor); abolition of the contract system, at present in vogue in the piano trade; Aug. 21 at 5 p.m., containing apprentices to a proportion of 1 to 3 mechanics; also lengthening the apprenticeship term of 3 to 4 years to 4 to 5 years; a wage increase of 15 per cent, in both piecework and day work above the present prices, which vary from 28 cents to 35 cents per day, with no change in the number of day hours.
At present they are working nine hours, with time and a half for overtime.
Having received no reply by Aug. 27, the matter was discussed and an ultimatum presented Aug. 28 notifying the employers that unless a settlement was reached the men would strike Aug. 31 at 5 p.m.
This last communication was ignored, and nothing heard from the manufacturers, except indirectly that they were prepared to fight.
There are at present 300 instruments in course of construction in Toronto, and the season is said to be the busiest. The men hardly expect to get all the 15 per cent. increase in wages asked, but hope for a substantial gain.
The Employers' Association will manage the strike so far as the manufacturers are concerned.

NEWSPAPER MAN DEAD.
St. John, N.B., Aug. 30.—(Special)—William Quinlan, for 25 years a member of the Sun writing staff, died to-day at Montreal, where he had been undergoing treatment. He was 37 years old, one of the best writers in the maritime provinces and an authority on shipping.

PLANO WORKERS WILL STRIKE
BOTH SIDES ARE DETERMINED
300 Men Quit Work at 5 p.m.
To-Day and Prospects Are for General Tie-Up.
Three hundred piano and organ polishers will go "out" at 5 o'clock this evening. All factories of that nature in the city will be affected. While the men profess confidence, the manufacturers declare that they will not accede to the demands made. The men submitted an agreement which is so rigorous that we will not consider it, said one.
If the woodcarvers and other workmen quit in sympathy, which is not unlikely, 1000 men will be involved.
The manufacturers concerned are: Heintzman & Co., Limited, "Toronto Junction"; the Nordheimer Piano Company, Toronto Junction; the Newcombe Piano Co., Limited; Mason and Rieker Piano Co., Limited; Gourlay, Winter and Leeming, the Mandelsohn Piano Company, and the Gerhard Heintzman Company, Limited.

LIBERALS HERE WEDNESDAY MAY TALK OF LEADERSHIP

G. W. Ross Has Not Intimated Intention to Resign, But Crisis May Be Precipitated.

The annual meeting of the general Reform Association of Ontario will be held in Toronto on Wednesday next. H. M. Mowat, K.C., who is president of the association, is at present on the ocean and will be home for the gathering.
It was said last night by F. G. Inwood, the secretary, that routine matters would be dealt with.
On the street, however, there is a good deal of talk of the new leadership. Clearly the agitation is being worked up to get rid of the old leaders and the old issues, and if the Liberals talk at the convention as they do on the street the heads of the incompetents will be demanded.
But there is no situation to face. Mr. Ross has not expressed the slightest intention of resigning. If he does not retire before the convention, the association will elect itself an advisory position, for the bulk of the party, while desiring a change, will not wish to forsake the old leader, and a few of the more outspoken ones may precipitate a crisis.
A leading member of the association to the World show, there undoubtedly was a good deal of dissatisfaction which might manifest itself at the convention.
Another said he did not think it was for the association to choose a leader. "Mr. Ross is still leader of the parliamentary party in Ontario—it is for the party in the house to choose a new leader if they want one."
"Who will succeed Mr. Ross?"
"The World has suggested some good men. But I fancy no one in the party will presume to pick a leader till the old one retires."
"The World has suggested some good men. But I fancy no one in the party will presume to pick a leader till the old one retires."
A. E. Kemp, M.P., was asked if a call had been issued for a gathering of the Conservative and Liberal Reform association, he was reminded, usually got together in fair time.
Mr. Kemp, however, had not heard of a meeting and thought one had not been called.

SUNDAY'S POLITICAL POW-WOW.
Montreal, Aug. 30.—(Special)—A good deal of interest is taken here in the Sunday demonstration in Ontario—It is for the party in the house to choose a new leader if they want one."
"Who will succeed Mr. Ross?"
"The World has suggested some good men. But I fancy no one in the party will presume to pick a leader till the old one retires."
A. E. Kemp, M.P., was asked if a call had been issued for a gathering of the Conservative and Liberal Reform association, he was reminded, usually got together in fair time.
Mr. Kemp, however, had not heard of a meeting and thought one had not been called.

COOLER.
Observatory, Toronto, Ont., Aug. 30.—(Special)—The weather to-day has been fine through the Dominion. The temperature has risen slightly in the Prairie provinces, and continues quite moderate elsewhere. Dawson, 46-70; Victoria, 54-72; Kamloops, 42-58; Calgary, 42-70; Winnipeg, 42-62; Port Arthur, 40-62; Pelly, 38-68; Toronto, 52-75; Montreal, 52-70; Sunday, 48-60; Quebec, 58-75; St. John, 62-64; Halifax, 60-68.

Lower Lakes, Georgian Bay, Ottawa Valley and Upper St. Lawrence—Fresh to strong westerly to northwesterly winds; fine and a little cooler.
Lower St. Lawrence and Gulf—Fresh to strong winds; mostly fair, with local showers.
Maritime—Moderate to fresh southwesterly to westerly winds; partly fair, and warm with local showers.
Superior—Northwesterly winds; fine and cool.
Manitoba—Fine and a little warmer.
Saskatchewan and Alberta—Fair and warm.

The World is at home to our visiting friends during the exhibition every day, from the rising of the sun to the going down thereof, and long after.
The string is always on the W. B. Hatch and it hangs outside, and we are happy to meet you and will make it our pleasure to make you glad you have met us.
If you have grievances to air, let us assist you. If you have praises to sing, let us write the music. Come in and tell us how the good folk in your home towns are working out their salvation.
Good morning, we would like to meet you.
