Breitenstein was in rare form and the Glants were unable to touch him for more than one hit in a single inning. Second=Hand Wheels

We have a number of second-hand wheels of different makes, including a few Antelopes, that we are going to clear out at a big reduction. Remember that the Antelope's construction is of the very highest order, because in the season of '96 or '97 we did not have one broken frame or front fork in all our outputs.

This proves the above assertion. The prices that we are offering on the above wheels are especially tempting. This is your chance to get a good, reliable wheel at a close figure.

A little later we will tell you with more detail of the large and beautiful stocks we have put in for this fall's trade. It is one of the encouraging signs of the times that shoppers are buying earlier this year than for many years past. Dollar wheat seems to have its influence on everybody. We shall just name a few specials suggestive of many others:

New designs in Brussels, Axminsters and Wiltons—many special patterns made up by manufacturers to our own order, and that you will not find anywhere else.

We are special agents for Staines' English Inlaid Linoleums, and you find a large assortment of patterns, and prices special.

Have you seen the handsome carpets manufactured to our order for the Independent Order of Foresters' Temple? You can buy carpets for lodge rooms here to every advantage, and no difficulty in securing whatever quantity you want of a particular design.
