Major-General Hutton reached the new ranges a little before 9, and was escorted to the firing point (the 600 yards distance) by Lieut.-Col. Dillon, chairman of the Executive. MAJOR-GENERAL HUTTON.

General flutton made a happy response, expressing his great interest in rifle shooting, and incidentally paying a compliment to the Canadian members of the voyageurs of the Nile for the pluck and stam na displayed. He advocated long-range practice with the new rifle, moving targets and advancing and retiring as well as firing at unknown distances. The new commandant also referred touchingly to the death of Sir Casimir Gzowski, who had been a true friend of the association and to the riflemen of Canada for so many years. Major-General Hutton concluded with a imentary reference to the efficiency

of the Canadian Militia. Markers on Strike. A little trouble was occasioned at the opening of the first shooting by the startling announcement that the markers refused to put up a target unless they got an advance from \$2 to \$2.50 per day.

What Middleton's Scheme Was.

Inspector Greer and Chief Will arrived in Woodstock this morning after taking a trip over the line that everybody thought was going to be the Brantferd and Woodstock Railway. They failed to find any farmers who had been swindled in connection with the sale of right-of-way and the detective stated this morning that Middleton's game was evidently to swindle contractors in the letting of the contracts. For instance, if a bridge would cost \$20,000 he would let the contract for \$35,000, giving the impression that he was acting for the C.P.R. and saring the rake-off with the contractor. That Middleton was playing the alleged connection with the C. P. An unused ticket for Christ Church Sunday School picnic, Brantford, on July 5, and the photo of a well-known Woodstock society young lady, wrapped up in a lot of burning love poetry, in Middleton's handwriting, was another interesting although unimportant find.
