

105 LOADS OF LIVE STOCK WERE AT CITY MARKET

Prices Lower for Exporters—Market Dull and Dragg.

Receipts of live stock at the City Market, as reported by the two railways, amounted to 105 loads since last Tuesday, composed of 1622 cattle, 1862 hogs, 190 sheep and 223 calves.

The quality of fat cattle was fair to good, a large number of them not being finished.

Trade in exporters was the most unsatisfactory since the decline in prices took place. Prices for all classes of shippers were declined, but not as much as before.

At present the outlook for the export trade is dark. The great trouble is to be that prices in the country are and have been almost too high for the time of the season.

STRIKERS STILL OUT.

Situation in Canada Foundry Remains Unchanged.

There was no change in the strike situation at the Canada Foundry yesterday. The officials are not at all concentrated, and do not purpose giving the agitators their demands. One official said yesterday that the men were striking against a proposition to give them more money. No man was compelled to work under the premium system unless he wanted to. It was voluntary with every man to say whether he would work on a straight time basis or on the premium system. If he wanted to make more money he applied to be given work under the premium system, but he wasn't forced to work under it.

The company claim that unionism does not enter into the question. They neither favor nor are they opposed to the union. They aim to give the most competent mechanics all they can earn in 80 cent per week more than is earned in other foundries is given to those who can and feel disposed to earn it.

RUBBER MERGER IN STATES, TOO. Thirty Plants Now Controlled by the United States Company.

Detroit, May 18.—The Rubber Goods Manufacturing Co. has given assurance thru circular letters that neither the Detroit nor any other of its plants will be affected, as to local conditions of the rubber goods industry in the United States.

The acquisition of the controlling interest in the Rubber Goods Manufacturing Co. by the United States Rubber Co. will increase the number of companies in the rubber goods industry from 14 to 20. The Rubber Goods Co. manufactures all sorts of rubber products, including boots and shoes, which business is largely handled by the United States Rubber Co. As these companies are now in competition with each other, the business of each supplements the other.

The capital stock of each company is \$25,000,000 common and \$25,000,000 preferred. It is not proposed to merge with the United States Rubber Co. total of \$75,000,000.
