With Hood's Sarsaparilla, "Sales Talk," and show that this medicine has enjoyed public confidence and patronage to a greater extent than any other. It is not what we say, but what Hood's Sarsaparilla does, that tells the story. All advertisements of Hood's Sarsaparilla, like Hood's Sarsaparilla itself, are honest. We have never deceived the public, and this with its superlative medicinal merit, is why the people have abiding confidence in it, and buy.

Important Action of the International Union.

The Seeding Linotype Engineers Rescued Readmission.

Colorado Springs, Oct. 17.—The Typographical Union, now meeting in convention in this city, has decided in substance that no one shall be employed on Linotype machines, either as an operator or a machine setter, who is a member of the Typographical Union.

Prior to this action the International Union claimed control over only the operators of Linotype machines, leaving the repairing of machines when out of order to the Linotype Engineers, a seceding union from the International Association of Machinists. This seceding union asked admission into the International Typographical Union, but, after a strong fight, was refused, thus barring its members altogether from the offices where Linotype machines are used. The work of repairing and taking care of type-setting machines will now be done only by the printers who are members of the Typographical Union.

Thousands of printers were thrown out of employment by the introduction of the type-setting machines several years ago, and the action taken by the International Union is aimed to create a field of work for as many of these as possible.

A number of minor amendments to the constitution were made.

Kidney Trouble of Some Kind—Lame Back and Waddles—Cured by a Few Boxes of Dodd's Kidney Pills.

Brookville, Oct. 12.—As stated by Mr. Wm. A. Stagg himself, the facts of his quite recent perfect recovery from weakness and ailments many years suffered are as follows: "To a few boxes of Dodd's Kidney Pills I owe my complete cure from kidney and lame back which had clung to me for many years. As soon as I decided that the cause must be derangement of the kidneys, I procured a box of Dodd's Kidney Pills, and I am glad to say that only two boxes were taken before I was as well as ever."

My experience leads me to believe that the supply of poetry, or verse assumed to be poetry, is more egregiously in excess of now demand than any other description of literature.—Mr. Gladstone.

Manitoba School Question Believed to Have Been Settled.

Good Demand in Britain for Canadian Products of the Right Stamp.

Important Discoveries in Northern Ontario.

Ottawa, Oct. 17.—There was a full meeting of the Cabinet yesterday, lasting, with half an hour's recess, from 11 a.m. until 6 p.m. All the Ministers were present, with the exception of the Hon. C. A. Geofrion. The Manitoba school question was under discussion, and it is understood favorable progress was made. Messrs. Cameron, McMillan and Watson, of the Manitoba Government, were present for three hours. After the meeting, Premier Laurier met with his usual urbanity in reply to a question, that there was going to be "peace, harmony and everything pleasant." At 3 o'clock Messrs. Watson, Cameron and McMillan, the Manitoba delegates, were admitted to the Council Chamber, and were closeted with the Ministers for three hours.

A dispatch from Winnipeg says: Premier Greenway, in the course of an interview, said: "I have not the slightest doubt that the conference now on at Ottawa will result in the settlement of the school question. When the Manitoba Ministers depart from Ottawa for home, the people of Canada may take it for granted that the school question has been settled."

DR. BELL'S EXPLORATIONS.

Dr. Robert Bell, of the Geological Survey, has returned home from a summer's exploration of the country in the vicinity of James Bay. Going by the C. P. R. to Mattawa, he went from that point northward a distance of about 200 miles in a canoe. From Mattawa he went to Kippewa Lake, then on to Grand Lake, and across the height of land to the large river which he discovered last year and which has since been recognized by the name of Bell River. This river flows north towards James Bay. He followed the stream down to its mouth, where it empties into a large lake named Lake Mettagami, which lake discharges by way of the Nottawa River into James Bay. The river has a course of nearly 200 miles and is as large as the Ottawa, if not larger. The country along its banks, Dr. Bell says, is well wooded. Although there is very little there is an abundance of other marketable woods. The country is level, and the soil is rich and would make splendid farming land.

PENITENTIARY INQUIRY.

Messrs. Meredith and Nixson, the two commissioners appointed to inquire into the affairs of the Kingston Penitentiary, are here receiving their instructions. They are enjoined particularly to report upon more economical management of the institution, if that be possible. In the past it has been conducted at a much greater expense than the Central Prison has been under Provincial management.

RICH MINERAL DISTRICT.

Mr. Arch. Blue, director of the Ontario Bureau of Mines, and Mr. Thos. Southworth, provincial clerk of forestry, who have been here for three days, left for Toronto last night. They have just made a trip over the Ironde and Bancroft Railway and its proposed extension. About 45 miles of this railway has been constructed east from Southport, Mr. Southworth says, that it passes through a wild section, sparsely settled, but rich in minerals. Mr. Southworth was looking up the chances of renewing the growth of the country, which is badly burned out. The country is poor for farming, and those not engaged in mining. Mr. Southworth says, are making a very poor living, and would be better off if they were engaged in mining development has been carried on in a small way, but with fairly satisfactory results.

CANADIAN PRODUCTS IN BRITAIN.

Agent Down at Bristol, reports to the Trade Department that Canadian hay is realizing good prices in England. He suggests that good prices can be realized by the apple trade, provided that shippers take care to send a good quality of stock is sent over.

Mr. Haywood, of Liverpool, is here. He reports that Canadian hay is now almost up to the Danish standard, and he is in Canada to see if he cannot further develop the trade. He leaves for Peterboro and Toronto.

JOTTINGS.

Premier Laurier informed a correspondent that it was hardly likely he would go to England this fall.

Next Week at the Grand.

There is probably no other woman living who has had the question, "Is she a fake?" asked regarding her so many times as Anna Eva Fay, who is to be at the Grand Opera House four nights next week, commencing on Monday. Those who pronounce her a fake are, however, very slow in giving their definition to the word, and offer no cause or reasons why they assume that she is a fake. From the fact that Miss Fay plays many return engagements it would seem as if she was willing to risk any exposure on the part of the public; besides she has appeared before the public in all parts of the world for 22 years, and it would seem to appear that it is safer to say she is not a fake, but the possessor of some mysterious power.

Miss Fay is well-known the world over, and her wonderful performance have baffled sages and scientists who have tried to give an explanation of her power. She does not claim to be a spiritualist, but on the contrary, says that what she does is according to the laws of nature. The audience is told to watch and then attribute her power to the supernatural, or to "slight of hand."

FIRE ON SHIPBOARD.

London, Oct. 17.—The German steamer Europa, Captain Bothe, from Antwerp, for New York, previously reported, having put into Plymouth on Oct. 10 in a leaking condition, and with her cargo shifted, was on Oct. 11, at a disaster at Plymouth, her cargo having caught fire, and been damaged to the extent of several thousand pounds.

BOUNDED THE CORRESPONDENT.

Rio de Janeiro, Oct. 17.—The Chamber of Deputies has requested the President to expel the London Times' correspondent from Brazil. This action upon the part of the Brazilian Chamber of Deputies is taken as a result of a dispatch announcing that a commercial and financial panic prevailed in Brazil, which statement was subsequently contradicted.

BROUGHT THE TUNK TO TIME.

London, Oct. 17.—The United States Minister at Constantinople has cabled the Government at Washington that he has at last obtained telegraphic orders from the Turkish Government to permit the departure for the United States, with safe conduct to the seaports, of all the native Armenian women and children whose husbands and fathers are in the United States of America. The subject is one that has been before the Porte for a long time.

THE DISABLED STEAMER.

Queensport, Oct. 17.—The Canadian Line steamer Compagnie arrived here at about 1 o'clock this afternoon, 13 hours behind her record time. Capt. Walker reports having experienced continuous gales and heavy seas. He adds that yesterday the Compagnie passed an American liner, supposed to be the Paris, which was under engine Oct. 8, and is proceeding under her port engine only, in latitude 50° 15' north, and longitude 36° 30' west. During the day a fresh gale from the southeast was blowing and a heavy southerly wind was running.

FAMINE FEARED IN INDIA.

London, Oct. 17.—The Viceroy of India has cabled to the Government that, owing to the lack of rain the crops in Northwest India in several districts of Central India and in Upper Burma have been seriously damaged, and the prospect of a famine which will be inevitable. There is some local feeling in the unaffected districts of the Northwest, and the Government is taking steps to prevent the districts in which the crops are damaged, and this has caused a rise in the price of grain. The Government is sending American wheat to the Northwest, and is also sending relief works if necessary.

FOR AMERICAN READERS.

A special cable dispatch from London to a New York evening paper says: "Edward Clarke, Solicitor-General in Lord Salisbury's previous Ministry, and next to Lord Russell, England's leading lawyer, has created a painful impression in Ministerial circles by his outspoken criticism of the Government's policy in the Balkans. His hasty and unparliamentary remarks at York yesterday, when he was asked to give an opinion on the partial arbitrator or commission to decide upon the evidence in England in the case of the American people, would undoubtedly insist that England would insist that England accept the report. He urged England to accept the report, and the interest in Sir Edward Clarke's assertion is increased by the suggestion that he accepted the report from his intimate friend, Lord Russell, who recently visited America."

Watson Withdraws His Name From the Popular Ticket as Candidate For Vice President.

Thomson, Ga., Oct. 17.—Thos. E. Watson, having forwarded papers to Kansas, notifying the Secretary of State to take his name as nominee as Vice President from the head of the Populist ticket. The necessary affidavit, in due form, authorizing the withdrawal from the ticket, accompanied the other papers.

This is the first step taken by Mr. Watson since his recent visit to Kansas to thwart the efforts of the fusion entered into there with the Democrats.

The withdrawal of Watson's name will leave the Fusionists in a dilemma. They will either have to insert the name of Sewall, the Democrat nominee, or leave the Vice-President ticket blank on the Populist ticket.

BROTHERHOOD OF ST. ANDREW.

New York, Oct. 17.—At yesterday's session of the Brotherhood of St. Andrew fitting testimonials on the death of the late Archbishop of Canterbury and Bishop of Cleveland, Cox of Western New York, were read. Addresses were made by N. Ferrar Davidson, president of the Brotherhood in Canada, and J. C. Clougher, of Toronto, and others. The next convention will be held in Buffalo, N. Y., and will be international in scope.

The W. C. T. U. County Convention Assembles in Strathroy.

Encouraging Reports From Many Quarters—Election of Officers—Resolutions Introduced.

Special to The Advertiser. Strathroy, Oct. 17.—Although the weather did not promise all that could be desired, still from east, west, north and south, throughout the county of Middlesex, many of the earnest white ribboners wended their way to meet in convention yesterday, Oct. 16, in the Front Street Methodist Church, here. For those who went from London, and the more distant points, and required to take an early train, a most refreshing lunch was served on their arrival at the church, and after a half-hour resting spell, a cup of hot coffee and some pleasant conversation, 9 o'clock had arrived, and the meeting was called to order. Forty delegates were in attendance.

Mrs. Carruthers, Strathroy, opened the meeting by announcing the hymn, "To the Work," and led in earnest prayer. The county president, Mrs. Calvert, of Napier, occupied the chair, and Mrs. Thornley, of London, sat at her side. In the absence of the recording secretary, Mrs. Paisley, of Mount Brydges, Miss Cosford, of London, was appointed secretary pro temp.

THE COMMITTEES.

The following committees were appointed: Plan of Work—Mrs. D. H. Williams, London; Mrs. Heard, Strathroy; Miss London, Mount Brydges; Miss Charlton, Ilderton; Mrs. Dunlop, Napier; Mrs. W. Jones, London; Mrs. Orr, Strathroy; Miss Gibb, Mount Brydges; Mrs. Paisley, Ilderton; Mrs. W. Jones, London; Mrs. Orr, Strathroy.

THE SECRETARY'S REPORT.

The corresponding secretary, Mrs. Talbot, of Dorchester, read her annual report, of which the following is a synopsis: London—Organized in 1877; membership, 235; honorary membership, 35; total income, \$1,430; 19 departments of work taken up. Napier—Organized in 1889; membership, 20; average attendance, 7; total income, \$1,430; 19 departments of work taken up.

RESOLUTIONS.

The following resolutions were introduced: "Viewing with alarm the danger to the future health of the children of the nation through the rapidly increasing use of tobacco in its various forms, resolved, that we impress more earnestly upon the minds of the young in bands of hope and Sabbath schools the injurious effects of the tobacco habit."

"Resolved, that we heartily appreciate the decision of the Premier of the Dominion in allowing a plebiscite on the question of prohibition, and pledge ourselves as W. C. T. U. workers to do all in our power to advance its interests."

"Resolved, that we heartily appreciate the efforts of Mr. John Charlton, M.P., to secure an act raising the age of consent in this Province, and that we pledge ourselves as local unions to assist in any way we can with Mr. Charlton's bill is brought to vote."

"Whereas the growing tendency to disregard the sanctity of the Lord's Day, resolved, that we as W. C. T. U. workers, pledge ourselves by example and precept to preserve its sacredness, and as far as our influence extends, and that we will unite with other societies in every effort to procure restrictive legislation on this question."

"Resolved, that the thanks of the convention of the county of Middlesex be heartily tendered to the members of the House of Commons for their action in abolishing the trade for the sale of liquors in the House, and we trust that it is but the beginning of greater things to follow."

EVENING MEETING.

The evening meeting was held in Front Street Methodist Church. A good attendance was in attendance. Mrs. Calvert, of Napier, county president for Middlesex, presided, and Mrs. Thornley, of London, was also on the platform. After the Scripture lesson, Rev. Mr. Wilson led in prayer. An anthem by the choir followed. Mrs. Coghill, of Wyoming, sang "Abide With Me."

The address of welcome was given by Miss Hoven, of Strathroy, and Mrs. Talbot, of Dorchester, replied. Mrs. Paisley, of Napier, sang a solo particularly suitable to the occasion.

Mrs. Thornley was introduced. She said the gardeners tell us that the chilly, murky, damp days are days of growth. If this be so, we as temperance people have had our growth. We have had days of hard criticism and misrepresentation, etc. Our main work now towards education, not so much preventive work. Through the press thousands of columns have gone forth with their educative influence to the general public. One thousand public meetings, 3,000 children's meetings, and 3,500 women's meetings, for wives and daughters, were held through the Province last year.

Almost every Sunday school in London has taken up the temperance lessons. We are striving to educate the children, so they won't need to be rescued through scientific temperance teaching. And we are proud to say that this was Mrs. Ross' constituency, and through the efforts of the W. C. T. U. that this was brought into effect. Some find fault because we don't do rescue work. We have come to the days where we are criticised for our plans and methods. It used to be because we did the work. This is a long step ahead, but we have not yet got past all the snags. We have just passed through a political campaign. 6Worck .. 2,6

S. & S. Corsets Cut Low

For highest up elegance in Corsets at lowest down prices we recommend you to our stock. To have a perfect-fitting dress you require a perfect-fitting corset. The appearance of many a perfectly cut and finished dress is spoiled by the poor fit of the corset underneath. Many corsets are made to look well—they catch the eye of the buyer at once, but they don't wear well, nor do they give satisfaction in any other way. We have such facilities for buying corsets and every other garment that ladies wear, that manufacturers are ever anxious to secure our trade. They know we sell large quantities. Thus they offer us the best they make on reasonable terms, and then we're able to offer our customers at close prices the
