ARMY HORSES PARADE
TO THE GLUE FACTORY

Valcartier Farmers Throw Additional Light on Cause of Animals Purchased—Destruction of Steres

Ottawa, April 8.—The public accounts committee today, took evidence of several of the farmers who were dispossessed of their lands for the extensions to Valcartier Camp last year. One of the most interesting features of their evidence was the light they threw on the kind of horses purchased by the government. The animals died in such quantities that one man told of seeing them lying dead all over the place, another said that for three weeks an average of four dead horses were hauled past his place each day and others told of the large number they saw on their way to the glue factory.

The farmers were an English speaking community, one of the few left in Quebec, and they were reluctant to leave as they did not know of another place where they could settle together. They also complained of the small prices allowed for their lands and of the delay in making payments.

Evidence was given by the farmers of the burning of soldiers uniforms, lumber, meats, vegetables, etc. at the end of the camp.

COCONUT OIL MAKES
A SPLENDID SHAMPOO

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain unrefined coconut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get unrefined coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

FOOD SOURING IN
STOMACH CAUSES
INDIGESTION, GAS

"Pape's Diaphepsin" Ends All Stomach Distress in Five Minutes.

Wonder what upset your stomach—what portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head aches and aches; belch gases and acids and cruetate undigested food; breath foul, tongue coated—just take a little Pape's Diaphepsin and in five minutes you wonder what became of the indigestion and distress.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diaphepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

GERMANY IS GLOOMY
OVER WAR PROSPECTS

Spirit of Modesty Has Taken The Place of Bombastic Attitude

Hitherto Noticed—Dreaded Too Easily of Victory

London, April 8.—The Daily News correspondent telegraphing from Rotterdam says Paul Michels in his weekly review of the war in the Berliner Tageblatt is evidently in an exceedingly gloomy mood regarding the present position of the German armies and speaks of the spirit of modesty that now reigns in Germany today. He says: "We only see how tremendously difficult it is made for us to preserve our national unity and freedom. Many dreamed too easily of our victory over our enemies. The people thought to gather in a harvest when really the preparations for final result still had to be created. In the meantime we have become more modest and it becomes clear to us that even with the greatest self-sacrifice it will only be with difficulty that we shall be able to conquer the opposition of the world of enemies."

"Everybody already has long ago announced the expectation that the world today and tomorrow the world could be healed by the German spirit. We have heard facts that in this way it is not a question of putting through a fantastic world policy, but the question of protecting our homes and home. As the German has begun to lay a new yoke upon the world, so certainly will the final peace will be, but in any case our objective must be the making certain of our national existence for the longest possible time."

After referring to the course of the submarine war, the writer concludes: "We are confident that this winter of our discontent will be followed by a glorious summer."

A woman in London who formerly made \$1,800 a year by teaching music has not been able to earn more than \$15 since last July. This is a typical case, said Mathilde Verne the other day. She is president of the Women Musicians' Employment Fund, and she declares that the women teachers of music have been the hardest hit of all.

BELGIANS READY FOR
THE SPRING CAMPAIGN

Forces in Fine Condition—Determined to Drive Invaders From Their Soil

Montreal, April 9.—Prof. A. Ledoux, the head of the Department of Mineralogy in the University of Toronto, who fought through six months of the European war as an officer in the Belgian army, has reached here, en route for Toronto. The professor was honorably discharged from the army some weeks ago.

Although Belgium has been devastated, and the outlook is dark for the Belgian people, says Professor Ledoux, no one desponds, and they fully expect that although it may take some time yet, the Germans will be finally driven back into their own country, and Belgium and France will be free from the invaders.

Although the Belgian army has been in the front of the fight and the losses have been very severe the king and his valiant officers have worked day and night during the winter months, with the result that today the force under His Majesty is in fine condition to open the spring campaign.

Why
Doctors Say
"Oranges"

There is hardly a physician practicing today who doesn't advocate the eating of oranges. 1st, because oranges have a beneficial effect on the blood, keeping it pure and clean. This is especially necessary during the spring and summer months.

2nd, because oranges are as a mild and pleasant stimulant for the liver. A disordered liver changes one's whole outlook on life.

3rd, because oranges contain just the right amount of fruit acid to keep the digestive organs in proper working order. Oranges help the digestion of all other foods.

Mother Tells How Her Little Son Was Made a Strong, Healthy Boy by Vinol After a Severe Sickness.

New York City.—"About five years ago my little boy, then seven years old, was very ill with gastritis, then he contracted measles from the other children, pneumonia soon followed, and there seemed no hope of saving his life. However, we fought off the disease and he recovered, but was in a very weak and delicate condition."

"The doctor prescribed cod liver oil, but his little stomach would not take it, and the doctor said there was no cure for him. I decided to try Vinol, as I had used it myself with splendid results, and it seemed to agree with him. That bloated condition soon disappeared, and now he is a strong, healthy boy, thanks to Vinol." Mrs. THOMAS FITZGERALD, 1090 Park Ave., New York City.

In all cases where the healing, curative, tissue building influence of cod liver oil, or the strength-creating, blood-making properties of tonic iron are needed, Vinol gives immediate relief, for it is easily assimilated, and acceptable to the weakest stomach, because it contains no oil or grease, and is delicious.
