There are throughout this province many young men who have neither wife nor boy, nor any claim strong.

PROVINCIAL SCANDALS.

The Globe last evening dwelt upon the associated with many great enterprises gravity of the situation in provincial afin Canada and was the recipient of many fairs, revealed by the Chandler enquiry, honors conferred upon him for dis and called upon Premier Clarke to clear his skirts and put an end to the rule of graft. The Globe could not do less and retain its self-respect, although it has been very friendly toward both the Flemming and Clarke governments. The revelations made are of such a nature as closures of shameful operations under to compel the Globe and everybody either to condemn or to openly approve of the policy of graft in the conduct of provincial affairs.

Of course the St. John Standard approves. Hence it viciously attacks Mr. Veniot and Mr. Carter distorts the second condemn or to openly approve of the policy of graft in the conduct of provincial affairs.

Veniot and Mr. Carter, distorts the evidence brought out at the enquiry in Fredericton, and endeavors to make it appear that Mr. Veniot and Mr. Carter, of the adoption of prohibition by the in revealing the political crookedness of government. This was in April of this rnment supporters, are themselves year. The Dugal inquiry was a year government supporters, are themselves committing an offence and are nothing short of public enemies. While the people of New Brunswick are shamed and humiliated by the revelations, the Standard brazenly sneers, and boasts that the Clarke government is so little disturbed that it does not even take the trouble to be represented by counsel at the enquiry where it is being shown that KING AND QUEEN

the provincial treasury was looted.

Now, however, the enquiry is to be Now, however, the enquiry is to be brought a little nearer home. Mr. Carter has asked permission to lay before Mr. Chandler definite charges to the effect that last spring the brewers, wholesale and retail liquor dealers and hotel men were held up for large sums of money by a prominent Conservative, at the time the question of prohibition or amendments to the liquor license law was under consideration. This matter cannot be ignored. Mr. Carter must be given an opportunity to present his charges and his witnesses. In view of the absolute proof furnished of the truth of other charges made by Mr. Carter and Mr. Veniot, the people of the province will insigt that this latest charge be also investigated. The people brought a little nearer home. Mr. Cartcharge be also investigated. The people should know the worst, and if there has been wrong-doing in connection with the liquor legislation of last spring, and the liquor dealers have been held up as the lumbermen were when Mr. Flemming was premier, the fact should be disclosed. The time was very favorable for such a raid on the pockets of the liquor men, for there were whispers abroad that prohibition might be adopted. Mr. Carter says money was collected from these men, and that they "were called upon to pay it." Who collected the money, and for what purpose—and what was done with it? These questions must be answered?

The leading article in The Times last evening was an appeal to the people of New Brunswick to provide machine guns for the Canadian soldiers. The Standard this morning says that The Times wants the government to do it all. What The Times did contend was that the government should long ago have known that more machine guns were needed, and should have let the people know it. A Httle knowledge of the meaning of the
