COLLINS AND KERR

MAY JOIN YANKS

Huggins Admits That Some Deal is Pending—Ward and Bob Meusel May Go—Carl Mays to Stay.

New York, Dec. 13.—A trade involving Eddie Collins, star second baseman of the Chicago White Sox, and Bob Meusel of the Yankees is likely to be consummated at the annual meeting of the American League in this city next week.

Manager Miller Huggins admitted yesterday that the Yankees would like to have Collins and Meusel, and at the same time he declared that a trade for an outfielder is being made for the vacant left field position on the Chicago club.

Officials of the New York American League Club refused to deny the report that Collins is destined for a berth on the Yankees. It was intimated, however, that such a trade is being discussed, and it would not be surprising if Collins and Southpaw Dick Kerr of the White Sox should come to New York in exchange for the third baseman Norman McMillan, the third baseman whom Kild Glesner would like to acquire to fill the infield vacancy on the Chicago club.

Miller Huggins made an appearance yesterday at the Yankee headquarters and was questioned about his plans for trading at the league meeting.

"There are three vacancies that must be filled in the line-up," the manager said. "One involves Fitcher Jack May, the southpaw from the Pacific Coast League. We have practically completed arrangements for his purchase, and only the formal signing of the papers remains. In addition we need an infielder and an outfielder, and any trades that we may have in mind will revolve around those positions."

Admits Collins is Being Considered.

Huggins admitted that Collins is being considered as the infielder in question, but he deprecated any talk about the matter as likely to damage the negotiations. If Collins comes to the Yankees, it is likely that Aaron Ward will go, and also Bob Meusel, who works in the recent world's series impressed the Yankees unfavorably.

A trade of Ward and Meusel for Collins and Kerr is not unlikely, in which case the Yankees would make another bid for Bobby Veach of Detroit as the outfielder to take Meusel's place.

May added to the pitching staff, it is probable that a pitcher might be sent to Ty Cobb's team in return for Veach.

Both Huggins and Colonel T. L. Huston denied that Carl Mays would be parted with under any consideration. They are emphatic in believing that Mays will stage a comeback in the coming season and win at least twenty ball games for the Yankees. Still, the best of condition, Mays is one of the leading pitchers of the league. His two-year contract will expire after the 1923 season, and this will probably be a stimulus for the underhand flinger.

Under these conditions it is almost

PREDICTS GREAT INFLOX OF TOURISTS

Head of Canadian Automobile Association Addresses Local Organizations—Arrangement of Camping Places.

Dr. P. E. Doolittle, President of the Canadian Automobile Association, at a meeting of the New Brunswick Automobile Association, the New Brunswick Tourist and Resources Association and the St. John Board of Trade held yesterday afternoon in the Board of Trade rooms, predicted a tourist travel in New Brunswick for the coming season greater than had ever been thought possible.

"Drive to the Right" rule, he said, would be a great factor in making the province safer for outside cars. He complimented Hon. P. J. Veniot, Minister of Public Works, on his excellent work on the road. Dr. Doolittle advocated the provision of camping places for those tourists who preferred not to stop at hotels. There had been 600,000 cars coming into Canada during the last touring season and of these only about 40,000 had come to New Brunswick.

A committee of representatives from each association was approved to make arrangements for a camping place for visiting tourists. F. A. Dykeman offered his property in Alexandra street to be used for this purpose, if it was required.

T. P. Regan, president of the New Brunswick Automobile Association, called the meeting to order soon after 8 o'clock and introduced Dr. Doolittle, who told of the object of his visit, which was to create interest in a national highway from Halifax to Vancouver. He had been in Nova Scotia and Halifax had undertaken to place markers on a portion of the route. Moncton had also assumed the responsibility for marking the road from Nova Scotia to St. John and the St. John people had promised to mark the road to the Quebec border.

In moving a vote of thanks, E. A. Schiefel suggested that a committee be appointed to select and arrange for a camping site for tourists near St. John.

R. T. Hayes, M.P.P., seconded the motion and suggested that the people of Ontario be educated concerning the Maritime Provinces and this province in particular.

George E. Barbour, president of the St. John Board of Trade, also spoke in favor of the motion.

The thanks of the meeting were tendered Dr. Doolittle.

To Select Camp Site.

It was decided to ask the three organizations represented to name a representative to each to act on a committee to select and arrange for a site for a camping place for tourists. F. A. Dykeman offered the use of his property in Alexandra street to be used for this purpose. He thought it was well situated for a camp, with a pleasant view of the harbor and city.

While the meeting was in progress a telephone message was received from Fredericton asking if Dr. Doolittle would speak before the City Club there this evening.

SCHOOLS WON THE PROHIBITION VICTORY, HE SAYS

Prof. Pitkin Declares That Children, Taught Virtues of Abstinence, Brought About Change.

Normal adults can not and will not be reformed, and only through children and youth in their teens can come improvement in the "morals of tomorrow," said Professor Walter B. Pitkin, professor of philosophy in Columbia University, last evening, speaking in Cooper Union.

"Moral reform in the past has spent an enormous amount of money in trying to change adults," said the speaker. "That is fundamentally wrong. An adult is either a finished product or he's sub-intelligent. The roots of all morality lie in the family, so that education must connect the school with the home. The teacher must influence the child's living, not just its intelligence."

The St. John's League proved this in answering a question.

"Thirty years ago they tried to change adults, and it would not work, so they changed their policy to education of the children. When the children reached maturity, we had prohibition, thus, and only thus, was their victory won."

The Eighteenth Amendment proved his thesis, Professor Pitkin said later in answering a question.

"No matter what kind of a law you have," he said, "you cannot change the habits upon which people have been brought up. That is why there are 276,000 bootleggers in the United States for the 100,000,000 of population. People can't be made over, and the sooner the politicians accept that as a first principle in politics the sooner we'll see a little sanity."

WAR'S FIRST VICTIM

Belgian Lancer Killed on August 4, 1914.

Brussels, Nov. 18.—(By Mail).—Exhaustive researches by the Department

of National Defence have conclusively proved that Trooper Fonck, of the 2nd Lancer Regiment, was the first soldier killed in the Great War. He fell on the morning of August 4, 1914, between 10.15 and 10.30.

Fonck had been sent scouting on the road from Rattin to Henri-Chapelle in the province of Liege, and while in the commune of Thimister was killed and surrounded by a German cyclist section. The department has decided to erect a stone to the spot.
