REVOLUTION MEETS FAVOR.

British Press Generally Approves Panama's Action.

The Fact That It Will Make Another U. S. Sphere of Influence Awakens No Resentment.

LONDON, Nov. 5.—The morning papers here display a greater interest in the outcome of the revolution of the Isthmus of Panama than in the democratic victory in Greater New York. Regarding the election the Standard says:

"It must not be supposed that the citizens of New York are indifferent to honest management of their city affairs, but in America, as elsewhere, a general national contest overshadows local interests."

Concerning the Panama situation the view is expressed on all sides that the United States is not unwilling to see the success of the revolution which would so greatly facilitate the successful carrying out of the canal scheme, and while no paper expresses objection to such a solution some are inclined to think it would be best in the interest of civilization. In this case, however, it is recognized that, if not actually hindered, Panama would become practically an American sphere of influence.

The Post says: "Panama doubtless counts on the friendliness of the United States, which can hardly fail to manifest itself since both governments are at issue with Colombia. An alliance arising in such interesting circumstances may easily become permanent. So small a power as the Republic of Panama would naturally value the advice, both on internal and external affairs, of a great power like the United States."

A writer in the Chronicle thinks that if this crisis is her fate other nations in the Western Hemisphere should take the United States in regard to the canal and carry out the provisions of her excellent constitution. Columbia might become peaceful and prosperous.

LONDON, Nov. 5.—The Times this morning says that Colombia seems to have brought the revolution on her own head by wanton procrastination in regard to the canal treaty. Even should the revolution fail in its own country, the Times says it would succeed in forcing the hand of Colombia into the acceptance of the treaty and acceptance at its original valuation. The attitude of the United States government in the matter, the Times declares to be studiously correct.

UNITED STATES SENDS TROOPS.

WASHINGTON, Nov. 5.—The navy department has received a cablegram from Commander Hubbard, of the Nashville, dated Colon, yesterday, saying that he had landed marines, such action being necessary to protect the lives and property of American residents.

BRITISH GOVERNMENT APATHETIC.

LONDON, Nov. 5.—The British official attitude towards the events at Panama is that it is entirely the United States' affair. The balance of the consequent comparative apathy appears to be shared in all diplomatic quarters in London. Except in the unlikely possibility of some outside interference no action is contemplated by the British or, so far as the Associated Press is able to ascertain from the various embassies here, by any other government.

GERMANY WON'T INTERFERE.

BERLIN, Nov. 5.—Germany, the Associated Press is advised, will observe complete indifference to the political side of the Panama revolution. Both the revolutionists and Germany, it is assumed, will respect the personal and property rights of German subjects living at Panama. It is considered likely that the commander of the German West Indian squadron will send a vessel to Colon, which is now the most interesting place within his cruising field. It is also conceivable here that the German commander might land marines, in combination with the United States and Great Britain.

IT ALL DEPENDS ON U. S.

LONDON, Nov. 5.—The question of the recognition of Panama's independence entirely depends upon the action of the United States. If Washington communicates to the powers that it intends to recognize the independence of Panama it is not likely that there will be the slightest objection on the part of Great Britain, while, according to the views of the diplomats here, the other European powers probably will quickly follow suit. There has long been a strong feeling in British official circles that it would be an excellent arrangement if the United States would undertake the preservation of good order and the stability of all the Central American states. This feeling is well known to the American diplomats in England.

TREW DYNAMITE.

Yesterday afternoon John Scribner, of Elm street, deliberately threw a box containing sticks of dynamite into a trench where men were working, near Quinn & Allan's, Main street. The excavating has been going on for some weeks. Scribner was getting \$150, but wanted more, and as this was not granted he quit work on Tuesday. He had the box of dynamite home and it was sent for on Tuesday. Yesterday Scribner brought it to the trench and without warning dropped it in among the workmen. There was no explosion, but the men were badly scared and got out of the way in a hurry. The dynamite was later picked up.

BURGLARS ROB PALACE.

BERLIN, Nov. 5.—The palace of the Prince Regent of Brunswick of Wilhelmstrasse has been burglarized and a porter named Heinrich Degen was shot in the foot by the burglar. A burglar is believed to have been a former employe of the prince regent.

THE WORLD'S PEACE.

Meeting of the Czar and Kaiser a Good Omen—Anglo-Russian Alliance Mooted.

ST. PETERSBURG, Nov. 5.—The meeting of the Czar and Emperor William at Wiesbaden, Prussia, yesterday, is commented on by the newspapers here as being a fresh pledge of the preservation of general peace.

The Novitch remarks attract special attention as they reiterate the suggestion of the Anglo-Russian rapprochement, which has been recently mooted by some Russian publicists. The Novitch contests the idea that Russia and Great Britain must remain rivals and says the best proof of this is found in the Anglo-Russian alliance, which is the result of the influence she had exercised on Japan in the present Russo-Japanese difference. The paper sees no reason why a more frequent exchange of views on the subject of international knowledge of each other, should not lead to a similar entente as affected between Britain and France.

A GREAT MAN BURIED.

Notable Gathering at Prof. Mommensen's Funeral—12 of his 16 Children Were Present.

BERLIN, Nov. 5.—The funeral of Prof. Mommensen, the historian, took place today. A great number of scholars, ambassadors, cabinet ministers, and foreign delegates were present. The Crown Prince Frederick William represented the emperor and empress. After the company had assembled in the Emperor William memorial church the crown prince entered by a side door, attended by his adjutant, who carried the emperor's floral tribute, a bouquet of chrysanthemums and palms. The prince advanced and laid the flowers at the head of the bier. He then withdrew and entered the royal pew, followed by the members of the court. Prof. Mommensen's children, of whom twelve out of sixteen are living, occupied the chairs with the grand children. Frau Mommensen, the widow, was too ill to attend.

KILLED FAR FROM HOME.

Fatal Accident to E. I. Man in New Hampshire—Body Goes Home.

The body of Arthur Ramsey, who was killed by an accident last month in the stone quarry of the Pike Manufacturing Co., of Pike, New Hampshire, passed through the city today, in charge of William Ramsey, brother of the deceased man. Burial will take place at North E. I., the former home of the deceased.

The accident by which Arthur Ramsey met his death occurred on the 24th of last month. It was Mr. Ramsey's duty to attend to the handcars used in the quarry for the removal of heavy stones. The car which he was attending at the time rested upon a truck of four small wheels, so arranged as to keep the car in a balance. It was the least undue pressure he brought to bear on either end.

As Mr. Ramsey was wheeling his car loaded with stones, round a curve, some way it lost its balance and tipped over, precipitating its heavy contents upon him. His side and back were crushed by the heavy stones, and he was picked up in an unconscious condition.

William Ramsey, the injured man's brother, who was working in Massachusetts at the time, was notified by telegram of the accident with which his brother had met, and at once repaired to Pike. The best medical aid in New Hampshire was called into requisition, eight physicians in all being in attendance upon the unfortunate man, who after lingering for a week expired.

Arthur Ramsey was a young man, twenty years of age, and had been in the United States for some time.

WHO'S TO BLAME?

Many Passengers Taking Wrong Trains Complain of Lack of Information.

During the past two weeks, a number of incidents have occurred at the depot which have caused much annoyance to railroad officials and which do not tend to enhance the reputation of I. C. R. employes for courtesy to strangers. In two weeks no less than six persons, all of them inexperienced travellers and not acquainted with the city, have taken the wrong train at six o'clock, and all under practically the same conditions. Yesterday afternoon a young girl came in on the Maritime express. She had been given just enough money to buy a C. P. R. ticket to Montreal and bought the ticket in error. At that hour she went to the depot and upon asking directions was gruffly and unsatisfactorily answered. Two trains were drawn up in the station and the girl went on board the wrong one, which turned out to be the I. C. R. express. At Brookville she was put off the train hurriedly, and without any explanation of what she should do. A gentleman there had her sent back to the city by the seven train, but she was, of course, too late to connect for Montreal and had to remain over until this evening. Without money or friends the young lady was in a rather wretched state, but was looked after by C. P. R. officials. This makes the sixth case of its kind in two weeks.

GUESS AGAIN.

The Victoria Colonist says: Miss Snowball, daughter of the late Lieutenant Donald Morrison, of a political party which will appeal to the country next year on a policy having in view union with Canada. The new party will also oppose the present Bond Ministry and the regular opposition led by Alfred Morin.

NEWFOUNDLAND EXCITED.

ST. JOHN'S, Nfld., Nov. 4.—A sensation has been created here by the formation by former Premier Sir William Whiteaway and former Attorney General Donald Morrison, of a political party which will appeal to the country next year on a policy having in view union with Canada. The new party will also oppose the present Bond Ministry and the regular opposition led by Alfred Morin.

NEW ASYLUM MATRON.

A short meeting of the government was held this morning, when Mrs. Louise Hetherington, widow of Hedley Hetherington, was appointed to the position of matron at the asylum, succeeding Mrs. Young, who recently resigned. The appointment dates from the first of November, and Mrs. Hetherington will enter upon her duties at once. She has for the past four years occupied the position of matron at the King's Daughters' guide.

The government meets again at half-past two this afternoon.

ALASKAN LINE STILL IN DOUBT.

Large Territory Remains in Dispute.

May Be Trouble Yet Over the Section of Boundary Which Tribunal Failed to Mark.

NEW YORK, Nov. 5.—The Sun in a Washington despatch says that an important fact in connection with the recent deliberations of the Alaskan boundary tribunal appeared yesterday, when it became known that a stretch of territory 140 miles in length and of uncertain width is still in dispute and is likely to remain so some time.

The significance of this was not appreciated by the president or the state department until within the last two or three days, owing to an error in the transmission of the summary of the tribunal's award as cabled from London.

A close reading of the summary made it appear that the members of the tribunal were unable to determine, on account of lack of data, the exact course the boundary should take along the shore distance between Kate's Needle and Devil's Thumb, mountain peaks belonging to the main range between British Columbia and Alaska. Even this fact did not attract attention. It now appears that the territory still unawarded stretches north and south over the 140 miles between Kate's Needle and Devil's Thumb.

As it happens, the territory in question is of region of wildest character, absolutely destitute of valuable resources, so far as known, and covered by perpetual ice and snow. Neither the United States government nor Canada cares much about this strip, but there is a remote possibility that future developments will make it a cause for regret that the question of sovereignty over the whole region was not settled.

The part of the line in question connects nearly a quarter of the whole boundary line between Alaska and the British possessions. Devil's Thumb is a prominent mountain peak about 75 miles southeast of Skagway. Kate's Needle is a peak 140 miles due north of Devil's Thumb.

COAL STRIKE CERTAIN

Miners in Four States Will Go Out Nov. 9th, by Order of John Mitchell

DENVER, Colo., Nov. 5.—Governor Peabody and Commissioner of Labor Montgomery have practically given up hope of being able to avert a general strike of coal miners in district 15, which includes Colorado, New Mexico, Utah and Wyoming. Mr. Montgomery speaking of the situation, said:

"If the miners persist in calling a strike unless a conference is arranged by November 8 then I am afraid there will be a strike. We have tried in every way to bring about a conference and have failed."

It is understood that the Colorado Fuel and Iron Co., and the Victor Fuel Co., which employ the greater portion of the men who will be affected by a strike, have unequivocally refused to treat with any persons except their own employes direct. Notices have been posted at several of the mines ordering the men to quit work on November 8. They are signed by John Mitchell, national president.

POLICE COURT.

Gabriel Bear, who was arrested last evening on the charge of escaping from custody, in the police court this morning pleaded guilty to the charge. He was remanded for sentence.

Charles London and William Harding were arrested for fighting on Brussels street. London pleaded guilty but Harding denied the charge and both were remanded for further evidence.

Michael Olive was fined four dollars for drunkenness.

FISH MORE PLENTIFUL.

If one were to listen to and believe the hard luck stories told by fishermen it would seem that there is not so much as a dried cod on the market. But in spite of the famine yarns there has at only one time this season been an actual shortage. At other times although the supply has been limited there has always been some fish on sale. During the past week the weather has been favorable and as a result the ordinary stock of cod, had dock and herring has been increased by the arrival of mackerel, halibut and pickerel.

FUNERALS TODAY.

The funeral of John Dick, who died of apoplexy at St. George on the 3rd inst., took place this afternoon at 2.30 o'clock from the residence of his son-in-law, Richard F. Knox, 115 Mecklenburg street. The Rev. Dr. Gates officiated and interment was made in Fernhill cemetery.

At 2.30 o'clock this afternoon the funeral of the late Maria Swan was held from her residence on Peters street. Services were conducted at the house by the Rev. Mr. Matthews, of the Exmouth Street Methodist church and interment was made in Fernhill.
