

## RESERVATION QUALIFYING OBLIGATIONS OF U.S. UNDER ART. 10, ADOPTED BY SENATE

### Republicans, Reinforced by Four Democrats, Put Reservations Across Exactly as it Came from Foreign Relations Com.

### RESERVATION FIGHT CARRIED TO CLIMAX

#### Closure Proposal Presented Designed to Bring Final Action on Ratification Within a Week.

Washington, Nov. 13.—Squaring the issue with President Wilson, the Senate adopted today a reservation qualifying the obligations of the United States under article ten of the League of Nations Covenant. A solid Republican lineup, reinforced by four Democratic votes, put the reservation across exactly as it came from the Foreign Relations Committee and in virtually the same language which the President declared on his Western tour would cut the heart out of the Covenant, and mean the rejection of the Treaty. The vote by which the reservation was 46 to 32.

Climax Reached.

The fight for reservations has thus been carried to a climax. The Republicans presented for future action a closure proposal designed to bring final action on the question of ratification within a week. A less sweeping measure, proposing limitation on the reservation debate only, had been put in by the Democrats earlier in the day, but was rejected when the Republicans voted to sustain a point of order against it.

Closure on Debate.

A vote on the question of clamping down a closure on debate will come Saturday morning, and the Republican leaders say it will depend entirely on the Democrats whether the move rallies the necessary two-thirds to make closure effective. The Democratic leaders were not ready tonight to say how they would vote, being fearful that agreement to so sweeping a program might imperil their chances to secure action on a ratification resolution of their own.

As Article Stands.

The article of the reservation as adopted by the Senate follows: "The United States assumes no obligation to preserve the territorial integrity or political independence of any other country, or to interfere with the services between nations—whether members of the League or not—under the provisions of article ten, or to employ the military or naval forces of the United States under any article of the Treaty for any purpose, unless in any particular case the Congress, which, under the constitution, has the sole power to declare war or to authorize the employment of the military or naval forces of the United States, shall, by a joint act or resolution, so provide." In two particulars does this language differ from the proposed reservation which the President declared at Chayenne, Wyo. he would be obliged to regard as a rejection. As read by Mr. Wilson the phrase "Under the provisions of article ten" occurred at a different place, and the final word "provide" was changed to "declare."

### CIVIL SERVICE EMPLOYEES MAY PUNCH THE CLOCK

#### If Cost is Not Too Great Time Clocks Will be Installed in All Departments of Civil Service.

Ottawa, Nov. 13.—An Order in Council has been issued asking the Public Works Department to investigate and find out the cost of installing time clocks in all the departments of the Civil Service. In most of the Government Departments, it has been the custom to check the attendance of employees by having them sign the attendance book, but it is understood that if the cost of installation is not too great, they will in the future have to "punch" the clock on starting and finishing work.

According to the present arrangements it is proposed to proceed via Niagara Falls to the Ontario industrial centres, then to Ottawa, Montreal and St. John, N. B.

### Belief Yudenitch Will Be Able To Resume His Attack On Petrograd

Helmsing, Nov. 13.—(By the Associated Press)—Officials of the Northwestern Russian Government still profess the belief that General Yudenitch will be able to resume his attack on Petrograd. Finance Minister Margulies told the Associated Press correspondent today, that the Government is working on a new plan, namely a fresh campaign with the help of Finnish and Estonian recruits, the Allies to furnish the supplies and foot the bills for the operations. Repayment, the minister asserted, would be guaranteed with furs and other products of the region. M. Margulies admitted that if the Baltic States made terms with the Bolshevik General Yudenitch's army would find itself virtually interned. He spoke bitterly of the Dorpat Conference, saying: "I do not think a peace will be concluded. The Baltic States are merely trying to force the Allies to recognize their independence."

### ON EVE OF COAL CONFERENCE BOTH FACTIONS ARE HOPEFUL OF REACHING AN AGREEMENT

#### The Time of the Termination of the Washington Wage Agreement of 1918 Apparently is the Chief Stumbling Block—Believed Operators Will Not Stand Pat on Interpretation of Washington Agreement Time—Operators in a Conciliatory Spirit.

Washington, Nov. 13.—Coal miners and operators from the bituminous fields of the nation will enter into negotiations here tomorrow for a new wage agreement, with the question of the time of termination of the Washington wage agreement of 1918 apparently as the chief stumbling block.

Both miners and operators, on the eve of the conference at which the points in dispute in the recent strike are expected to be settled, were hopeful, however, as to the outcome and expressed the belief that the question of when the Washington agreement terminated could be disposed of through mutual agreement along with the demands of the miners for sixty per cent. increase in prices and shorter hours.

Operators Hopeful. Announcement by the Executive Committee of the operators of the Central Competitive Fields, in a formal statement to-night, that the Washington agreement is one of the matters "to be determined by the Conference," was taken generally to mean that the operators do not intend to stand pat on their contention that present contracts remain in effect during the "duration of the war," or until March 31st, 1920, in case a satisfactory settlement is made with the miners on that and other points. It was said by those in close touch with the situation that the operators were going into the Conference tomorrow in a conciliatory spirit, and would not insist on the interpretation of the Washington agreement.

His flight was delayed because he neglected to notify the customs authorities when he entered this country from Canada, and then because the landing field in Chicago was not in condition.

### NEW ELECTIONS WILL SWEEP AWAY FRENCH GROUPS

#### Indications Are That the Elections of Sunday Will Return a Chamber Composed of Only Two Parties.

### NATIONALISTS AND COALITION

#### Former Claim They Will Have Four Hundred in Next Chamber and Coalition 200 Seats.

Paris, Nov. 13.—Indications in the parliamentary elections to be held next Sunday are that the small groups which have, heretofore, existed in French politics will be greatly reduced, or swept away, and that the Chamber will be composed of only two parties known as the "Right" and the "Left."

The Nationalists claim they will have more than 400 members in the next chamber. Facing this party will be a coalition of various elements which claim they will have an aggregate of about 200 seats. The Radical party, in which the last Chamber comprised 175 deputies, is not expected to continue as a strong force as this party was elected through the efforts of Joseph Caillaux, the former Premier, who is now awaiting trial by the High Court and Louis Malvy, former Minister of the Interior, who was expelled from France after a lengthy trial.

The registration of candidates for election officially closed yesterday. The list numbers 2,801 candidates for 631 seats. Prominent among the last hour candidates was E. Brizard, President of the Municipal Council of Paris. Former Premier Aristide Briand, answering during the course of a political meeting a query as to what he thought of a resumption of relations with the Vatican, said the question was one which concerned France's international relations and that the only solution possible was one compatible with the country's foreign policy.

Mr. Briand declared that the patriotic attitude of the clergy during the war would facilitate a solution of the matter, but said this would be helped by the clergy renouncing politics and, under new inspiration from the Vatican, accept the law separating church and state.

### Police Continue Search After The Centralia I. W. W.'s

#### Former Soldier Fired Upon Yesterday While Patrolling Road Between Centralia and Chehalis.

Centralia, Ill., Nov. 13.—(By the Associated Press)—Police and former soldiers today continued to seek alleged members of the I. W. W. who were involved in the fatal shooting Tuesday of former service men during an Armistice Day parade.

Everetts, an alleged member of the organization, it was announced, identified four of the men held in jail here as men who were in the radicals headquarters when the parade passed. The shooting was followed by the lynching of Ernest Everetts, whose body was in the jail today, as no undertaker would bury it.

Smith, who was wrongly identified as "Buck" Smith, the four former service men will be buried tomorrow at a public funeral which will be attended by their former comrades in arms. Members of the American Legion have been guarding the jail since the shooting.

### Toronto Citizens Stirring Up Hostility Against Vaccination

Toronto, Nov. 13.—At a demonstration by a large crowd in front of the City Hall today in protest against vaccination because of the smallpox scare in this city just now, W. F. Darroch, a city school teacher, declared that there were more cases of sickness in the schools since the vaccination of school children had been begun than at any time when the influenza was raging last fall. He said he would not be surprised if there was not a single case of smallpox in Toronto at the present time.

### "PUSSYFOOT" JOHNSON, AMERICAN PROHIBITION WORKER, MOBBED BY CROWD OF LONDON STUDENTS

#### Dragged from a Platform on Which He Was Speaking, Severely Beaten and Paraded Through the Streets Astride a Plank Borne on Stalwart Shoulders—Apparently Well Organized Plan to Humiliate the Anti-Saloon League Organizer.

London, Nov. 13.—William E. Johnson, an American prohibition worker and anti-saloon league organizer, familiarly known here and elsewhere as "Pussyfoot," was dragged from a platform from which he was speaking today, severely beaten, and paraded through two miles of crowded West End streets on a plank. His assailants for the most part were medical students, and against them at times he put up a strenuous fight receiving a badly damaged eye and other injuries so that finally, owing to his weakened physical condition, he was obliged to submit to the indignity. Eventually Johnson was rescued by the police, who during the early part of the march simply kept the crowd moving. He was rushed to Bow Street station where his injuries were dressed, and he was then able to go home.

Debate on Prohibition. The occasion of the attack was a meeting in Essex Hall, just off the Strand, at which a debate had been arranged, under the auspices of the Overseas Club and Patriotic League, between Mr. Johnson and Mr. Mitchell Banks, a lawyer, on "The How and the Why of American Prohibition." The chairman of the meeting was F. A. McKenzie. He too, was seized by the crowd but was soon released. The meeting had no sooner opened than there was an uproar, due to the activities of a few young men who immediately engaged in heckling both prohibitionists and anti-prohibitionists pleading for order.

Well Organized Group. Outside the building there were patent signs of pending trouble. A great crowd of students had gathered, and after Mr. Johnson began to speak hundreds of the students, who evidently were organized, broke down the iron gates of the entrance to the hall, brushed aside the police, charged down the aisles and seized Johnson and McKenzie. These two replied with bags of flour. They hoisted them into a wagon and proceeded to Kings College nearby where both were invited to state their case for prohibition for the students, but were not allowed to proceed because of the howls.

The rioters then discarded McKenzie and mounted Johnson on a plank. This a stalwart group mounted on their shoulders and marched through the Strand, Covent Garden, Leicester Square, Piccadilly Circus and Oxford Circus to Portland street where the police intervened and effected a rescue.

### PREMIER DRURY ANNOUNCES THE NEW MINISTRY

#### The First Cabinet Council of Farmers in Ontario Will Enter Upon Their New Duties This Afternoon.

### MEMBERS MET IN CONFERENCE

#### Premier Drury Professes to be Confident That His Government Will be Strong Enough to Carry on.

Toronto, Nov. 13.—Premier E. O. Drury and his Ministers will be sworn in at Government House at 11 o'clock tomorrow morning, and will enter upon their new duties in the Parliament Buildings tomorrow afternoon, by holding a Cabinet meeting. This is the programme arranged today at a conference of the majority of the members of the Government, and next week will see the Drury Government fully established as an administration. The only absentee from today's conference was Walter R. Rollo, of West Hamilton, the Minister of Health and Labor.

The conference was virtually a Cabinet meeting, though the Ministers were minus the halo that will be theirs when sworn in by the Lieutenant Governor. It is of interest to note that this first Cabinet Council of farmers in Ontario was held in the simple, unadorned quarters of the U. F. O., over the Farmers' Co-operative Store on King Street, East, where all the preliminary gatherings were held with the farmers and labor representatives were arranging the joint party for the legislature.

It is thought that amongst the first matters given attention by the government will be the question of investigating the Board of License Commissioners, as asked by Chairman J. D. Flaherty, as asked by Chairman J. D. Flaherty. The appointment of the government representative on the Provincial Hydro-Electric Commission probably will be made at an early period, and it is expected that Lieutenant Colonel Carmichael, minister without portfolio, will be the appointee. Another question which will have to be dealt with before long is the fixing of the date for the meeting of the legislature which will not likely be called until next February. One of the things to be done at the first sitting of the legislature will be to create the portfolio of minister of mines, pending which Mr. Mills will be without portfolio.

Mr. Drury professes to be confident that his government will be strong enough to carry on. He said tonight that half a dozen members of the two old parties had assured him that they would stand by the government on any question of confidence action. The question of bye-elections has not been dealt with yet by the premier. He and Mr. Doherty, and Mr. Roney will have to find seats.

The Hebert cabinet had farewell to office today, when Sir William and his late colleagues held final cabinet council.

### CHICAGO SALOON KEEPERS PREPARE FOR BUSINESS

#### Feel Confident Federal Court Will Rule in Their Favor on War-time Prohibition Act.

Chicago, Nov. 13.—So certain were Chicago saloonkeepers today that Federal Judges Carpenter and Fitz-Henry would decide against the War-Time Prohibition and Enforcement Acts, that they were arranging for delivery of liquor stocks. Among liquor men it was hoped that bars would be selling liquor as of old by Saturday night.

Decisions in Kentucky and Rhode Island, favorable to the liquor interests caused saloon keepers here to expect a similar decision in the local district court where injunction suits filed in Perola and Chicago were combined.

### Rumanian Gov't Consents To Sign Peace Treaty of St. Germain

Paris, Nov. 13.—(Havas).—According to the Presse De Paris, the session of the Supreme Council had just closed today when Victor Antonescu, Rumanian Minister to France and General Comand, former Premier of Rumania, transmitted to the French Foreign Office a telegram from the Rumanian Government, sent November 6th, but which only reached Paris Wednesday. The telegram, says the newspaper, announced that Rumania had decided to sign in its entirety the Treaty of St. Germain without enforcing reservations on the article concerning minorities, but would demand an understanding with the parties of the compact as to a friendly spirit in the application of this article. The Council was unable to deliberate on the communication.
