#### **NEWS LETTER FROM** AMERICAN METROPOLIS.

Ticket Speculators --- Alleged Ducal Neckwear--Yellow Journal-

(Special Correspondence.)

New York, Oct. 23.—The approaching elections continue to absorb public atteninfancy on American politics and, as a rule, is not as keenly interested. Wherefore it behooves the aforesaid stranger to walk circumspectly these days.

Mayor Van Wyck, whose term ends with the year, is now a candidate for supreme court judge, and the Bar Association, a non-political body, has just turne him down as being "conspicuously unfit for judicial office." He is a gentleman of uncertain manners and still more uncer-tain temper. It is said that in his pre-mayoral days he won a beefsteak chamtion at the blowing up of the Maine. His attempt to corner all the ice in the neighborhood, which aroused such a storm of indignation, could be attributed to no such high motive. His honor's cordial official feeling to the visiting Boer "peace delegates" in their unsuccessful mission

signs of tennis racquets and balls, others golf sticks and for the turfy man a whip and horseshoe. Some very gaudy four-inhands in red and black are named "Duke of Cornwall." If H. R. H. has been wear-indicated in the control of th ing that particular brand during his Canadian visit I sincerely trust his august parents will never find it out.

That distinguished statesman, Webster Davis, has published a book on South African matters entitled John Bull's That distinguished statesman, Webster Davis, has published a book on South African matters entitled John Bull's Crime. The Canadian department of education should, lose no time in securing an ample supply of this valuable work for use in the schools of the dominion. It will 'undoubtedly rank high as a classic and should prove as interesting and veracious as "Baron Munchausen." Yellow journalism in this city as represented by its most able exponent, the N. Y. Journal, has been under a cloud since President McKinley's assassination. The senseless caricaturing of the late president combined with the daily villification he received in the columns of that paper will be long remembered by the American people. In this connection the London Tatler, just received, reproduces side by side a photo which appeared in the Sphere is labelled "The Dangers of Mountain Climbing" and represents four men climbing due side of an Alpine precipice. The Journal adds a fifth man who is shown falling backwards and says it is "A Photograph of a Tragedy in the American troops in the Philippines the side of the American troops in the Philippines the same of the war. Four Departments of G. H. Hammond Co. Packing House Destroyed.

Chicago, Oct. 23.—rire attacked the packing houses of the G. H. Hammond Co. at Hammond, Ind., tonight and within an hour gained such headway that the destruction of the plant was feared. The Hammond fire department and the private fire fighting company of the packing company were unable to cope with the flames and an emergency call was sent to Chicago and South Chicago. Four engines from the Chicago department were loaded upon a special train on the Fort Wayne road and hurried over cleared tracks to the burning district. Aid was also sent from South Chicago.

The fire began at the south end of the plant in an old frame house used as the beef killing department. In an hour the car shops, oiling rooms, beef killing department and blacksmith shops were destroyed. It then seemed that the fire had burned itself out, but in a few minutes the four story brick building containing the cooling rooms, one of the company's largest buildings of the plant, was burning.

The packing company's plant covers 15
