

Great minds don't think alike.

The success of our business is based on innovative thinking and bold new ideas.

That's why we provide an environment that fosters individual skill and creativity.

And because we're IBM Canada Ltd., we can provide the resources to enable our people to think freely, to pursue their goals and break new ground.

Here's what some recent graduates have been doing at IBM:

- Heather Hill, University of Waterloo, was involved with database development and all reporting aspects of system accounting, voice and data communications.
- Dan Shire, Queen's University,

developed an expert system to assist in the configuration of system control units for customers.

- Sylvie Allard, Ecole Polytechnique de Montreal, was responsible for designing quality control processes to ensure new product reliability.
- Michael Rodger, University of Western Ontario, installed a system to address the business needs of a large communications company.
- Brett MacIntyre, University of Manitoba, was involved in implementing SQL/DS 2.2 and also worked as a follow-up with the author of a book on SQL/DS.

When you're thinking about your career options, think of IBM.
It's the thought that counts.

We're still singing the same tune.
But now we're performing on a bigger stage.
