

"It is hard to understand such scientific facts," and so. . . May-Lap, as it to reflect on my own clear mental vision. Our answer was: Pose a snowflake on a cube on the north pole with the six points and six faces of the cube facing Solomon's 12 bull-cows on the south pole. Then go to the shipyard and get the oxygen and hydrogen gas man to blow 12 holes through Solomon's liver, and the 12 tails through them, all pointing to the tail end of materialism and the milky way, to his soul's beyond earth, sea and air, verse. . . Bull-cows. A term used to show that both rock and term's translations are correct and interchangeable, as there is no other marrying, not giving in marriage, in the celestial marriage realm. Stretch the mental cord of your mind to the pole ends of the earth where 24 shadows of time are not recorded by the days that are turning into eternal daytime without sun and moon to turn around. "We have no need of these lights, therefore God, and the Lamb are the light thereof." The blind man see clearly. Do you? Four ways are changed to two ways. East and west have been annulled. Day become unknown. All times are middays and midnights mixed. Therefore, in Billy's choir overhead sings heavenly music as the earth opens as of old at death's door, Billy's body and all bodies go by the laws of revolving gravitation towards the centre of earth and the south pole of material destruction. Now is the heathen's opportunity to assist Billy's mother in tattooing Billy's royal domestic theological setter while the blood is coozing out. Let this heathen, suffragette, inspirator and hypodermic injector come to Mother Sunday's assistance. They can together stripe Billy's theology setter O. K. Billy will think the Pleiades central sun is close enough to the north pole to roast all the "sons of God that came in unto the daughters of men" before Noah's glacier flood turned the earth on a different axis. Billy will want to be turned upside down and put into cold storage like the antediluvians in Siberia were by his great Pleiade culmination on the 17th. . . November. Billy becomes Abraham's sacrificial son that is offered on a heathen altar in Mexico without God staying his hand and showing his father the thorn bush ram to substitute for his son Billy-Isaac. God has promised to provoke people by these lessons handed down through heathen pathology and mechanically revealed through the 24 binary hotels or in this Chinese riddle interpreted by the twelve vokes of the Chaldee sky. Billy must have the second blessing Peter got at Cornelius's household when the scales and Jewish tattooing fell from his Jewish theological eye. The Holy Ghost is God's agent through these three witness signs changed to Cornelius' 100 soldier signs. (See chart 2.)

Kindergarten Lesson.

Christ, as God's materialized agent, stands away beyond the Pleiades. He is the heavenly ox driver, with the devil in hell, No. 5 H, for a substitute. God let the devil destroy the antediluvians as they were not fit for the everlasting spirit realm. So their souls being already doomed in the second death of the soul, the first death of the body finished them in Noah's glacier flood. They will be turned out in the second destruction of the earth by fire.

This brings us face to face before God, dividing the sheep from the goats. God is the ruling power beyond the Pleiades culmina-
