

Cyclonic systems, 283
Cysticerci, 333

Dairies, cowsheds, and milkshops,
689

Damp-proof course, 270

Danysz bacillus, 512

Daylight illumination, 559

Deacon's waste-water meter, 42

Dead, disposal of, 627, 697

Death certificates, 660

Death rates, 638; calculation of,
639; significance of, 640; rural
and urban, 643, 649; in relation
to density of population, 644;
correction of, for age distribu-
tion, 642; standard, 642; in-
fluence of birth rate upon, 647;
of combined districts, 639; at
special age periods, 640; of
special diseases, 645; fallacies in
connection with, 660

Deaths, in public institutions, 639

Dengue, 522

Deodorants, 598

Destructor furnace, 74

Dew point, 294

Diarrhoea, 64, 473; from meat
poisoning, 345

Dibdin's experiments, 146

Diets, 321; training, 305

Diffusion of gases, 207

Digestibility of food, 321

Digestive processes, the influence
of bacteria on, 315

Diphtheria, 414, 455; from milk,
370

Disconnection of house drain, 107

Disinfectants, liquid, 609; gaseous,
614; solid, 620; standardizing of,
599

Disinfecting station, 607

Disinfection, 598; by boiling water,
602; by burning, 601; by dry
heat, 602; by steam, 603; of sick-
room by sprays and gaseous air
purifiers, 621; of stools and sputa
by liquid reagents, 624; of ships,
625

Disinfectors, steam, 603

Distillation of water, 58

Distributors, sewage, 154

Distoma hepaticum, 339

Domestic dry refuse, removal of,
73; disposal of, 73

Dortmund tank, 138

Drain sewers, 88, 121

Drains, house, 104; testing of, 115;
law as to, 671

Drying power of air, 294

Ducat's system, 149

Durax paving, 272

Dust, in air, 187; from trade pro-
cesses, 190, 232; household, 72,
204

Dustbins, 73

Dwellings, movable, 710

Dynamite, 229

Dysentery, 65, 506

Earth system, Moule's dry, 83

—temperatures in relation to diar-
rhoea, 475

Education Code, 591

Elastic force of vapour, 295

Electric light, 261

Electricity, atmospheric, 301

Ellison's conical brick ventilators,
224

Embalming, 629

Endemic diseases, 412

Energy obtainable from food, 323

Enteric fever, 462; from polluted
water, 13, 49, 65; from milk, 369;
relation of, to height of ground
water, 266

—carriers, 465

Entozoa, eggs of, in water, 66

Entozoic diseases on sewage farms,
166

Epidemic diseases, 412, 699

Epizootic diseases, 525

Equifex disinfectant, 606

—sprayer, 623

Ergot, 384

Erysipelas, 413

Evaporation of rainfall, 3, 7, 21; of
water on sewage farms, 165

Excremental emanations, 181

Excreta, human, 76

Exercise, 303

Exit shafts for foul air, 227

Expectation of life (*see* Mean dura-
tion of life)

Explosions of boilers, 2501; of
lamps, 261

Extraction, ventilation by, 228

Extractives, 317

Extracts of meat, 353

Fabrics, injury to, by disinfection,
602

Factories, ventilation of, 232; and
workshops, 711

Fæces, composition of, 76

Fans, extraction by, 233; propul-
sion by, 235

Fat melting, 196

Fats, 317

Fatty acids of butter, 377

Feeding bottles, 330

Fellmonger, 196

Fermentation of organic matters,
11, 181; vinous, 391; acetic, 391
