

*Write it on the film—
at the time.*

Make every written record more authentic, accurate, by truth telling photographs. Then, in turn, make the photographs more valuable by writing the date and title on the film at the time of exposure. Such a record becomes a permanent part of the negative, at no extra cost for film and the making of it is only a matter of a few seconds with an

Grow a Profitable Corn Crop

The profit in your corn crop is determined by the **number** of **producing** stalks in the field. Testing the seed insures productive stalks. Grading the seed and using an **International Corn Planter** insures the correct number of stalks to each hill.

This is important. A planter that misses one kernel in ten hills causes a loss of about a hundred bushels of corn in a forty-acre field. That amounts to much more than the price of an accurate **International Planter**. With this fact before you, can you afford to take a chance on losing a hundred bushels or more of your corn crop?

There are five styles of **International Corn Planters**, all accurate planters. In the line are planters for wide and narrow rows, with a range from 28 to 48 inches. They plant by checking, power drop, and drilling, or drilling alone. All are equipped with the famous International automatic marker. Our catalogue gives full descriptions of all styles, and information about plates and attachments. See the local agent who handles **International Corn Planters**, or write to us for catalogue of these accurate, substantial machines.

ONE MAN WITH A Kirstin STUMP PULLER

Quickest-Cheapest-Best Way To Clear Stump Land

The Kirstin way of land clearing is the easy, sensible, practical, economical way. Small investment to start with—no extra cost for help, because one man alone operates the Kirstin with ease, pulling out the biggest, toughest kind of stumps in less time than by any other method. With brush, hedges, small stumps, saplings, etc., you "yank 'em out" in bunches. Clear an acre from one anchor.

The "KIRSTIN" Improved Double Leverage Model

has enormous strength and power. Until you see a Kirstin at work you cannot realize what wonderful power is developed by our system of compound leverage. The work positively is easier, to say nothing of being quicker and cheaper than with the cumbersome hand power pullers or the big horse-power pullers that require a team and two or three men to operate. Our Quick-Detachable Connections, Auto Release, Non-Twisting Cable and other special patented features put the Kirstin in a class by itself. Endorsed by Government and State officials. Used by the thousands all over the world. Holds record for lowest land clearing costs.

Write Today For Big New Catalog which explains all about the Kirstin, tells best way to clear land, describes Kirstin Service, Liberal Try-out Offer, Easy Payments, etc. Get this book before you buy a stump puller. Write today—now. *Agents Wanted*
