STRAW CUTTERS, ROOT CUTTERS,
CHOPPING MILLS, GANG PLOWS,
SCUFFLERS, LAND ROLLERS,
SPRING-TOOTH CULTIVATORS,

AND THE GRAIN THRESHER KNOWN AS THE

WATERLOO CHIEF,

OF WHICH WE MAKE A SPECIALTY,

It being the greatest Grain Saver of the age, cleans the grain fit for the market, saves all kinds of Seeds such as timothy, etc., and separates them from the market grain.

The superiority of this machine over all others is its ease of draft, running fully two horses lighter than any other machine of same capacity—owing to the way the machine is geared. Any check given to the cylinder by bad feeding has only a very slight effect upon the motion of the other parts. Simplicity, avoiding continuous delay and stoppage, only four belts being used, the widest only two inches. Any farmer, even without experience, will have less difficulty and less breakage than the most experienced thresher with other machines. The cylinder journals have eight inch bearing, all other journals are in proportion. Will thresh all kinds of grain equally well, and as a Pea Thresher is second to none. Before you give your order for any of the above implements, send for catalogue and prices. Address
