

Farm Labor Problem

The question with every farmer is what shall be done to solve the Farm Labor Problem?

The scarcity of help has made it necessary that every possible means for facilitating the work be employed.

We would like to help you out and would suggest that you buy a

National Cream Separator

It will save time and labor in your dairy, as well as increase the quantity of your cream.

The National

is easily operated, easily cleaned, and a perfect skimmer.

For Sale: Three bull calves, sired by Lord Wayne Mechthilde Colony, and all out of Advanced Registry cows. Apply WALBURN RIVERS, Folden's Corners.

QUESTIONS AND ANSWERS. Veterinary.

NASAL GLEET.

Pregnant mare, 18 years old, discharges a foul-smelling matter from one nostril. C. M.

Ans.—This is nasal gleet, and the foul odor indicates that it is due to a decaying tooth. If this be the cause, it is necessary to extract the tooth. It is possible the discharge is due to irritation of the mucous membrane of the sinuses of the skull. Give her 1 dram each sulphate of copper and sulphate of iron twice daily. This will darken the color of the feces. If she becomes constipated, give a pint of raw linseed oil. If this treatment does not effect a cure, call your veterinarian in, and he will probably be able to locate a decaying tooth, and extract it. Do not have her operated on until after she foals. V.

THOROUGHPIN.

Three-year-old Clydesdale filly has an enlargement on inside of hock, just above the seat of thoroughpin. There is also a slight enlargement on opposite side of joint. They both disappear when weight is taken off the leg. I have used a bottle of Kendall's spavin cure, and have also blistered without result. She is not lame. C. K.

Ans.—Even though this appears to you to be too high for a thoroughpin, that is what it is. These are very hard to remove, especially in heavy horses. Repeated blistering is good practice, but as blistering has failed, try the following treatment: Four drams each resublimed crystals of iodine, iodide of potassium and iodide of ammonium, and 5 ounces each alcohol and glycerine. Apply a little with smart friction once daily. V.

DISEASED EYE.

In October last my mare's eye became diseased. I put burnt alum in it, and it got all right. In February last, the disease again appeared. The eye is hollow and glassy, with a pinkish appearance. She is four years old. I have had her to my veterinarian, but he has done her no good. W. J. C.

Ans.—I would advise you to allow your veterinarian to continue treatment, as he is in a much better position to treat than I to prescribe. He certainly did not tell you to put burnt alum in the eye. Anyone who treats that way should be prosecuted for cruelty to animals. I am of the opinion she has what is called periodic ophthalmia, and will go blind, notwithstanding treatment. She may recover this time, but will have future attacks, which will end in cataract and total blindness. I would advise putting a few drops of the following lotion into the eye twice daily, and keeping her in a partially-darkened stall: 15 grains sulphate of zinc, 20 drops fluid extract of belladonna, and 2 ounces distilled water. V.

SCOURS AND PARALYSIS.

We have taken "The Farmer's Advocate" for some years, and would not be without it. A neighbor is having a bad time with his cattle. He is feeding turnips, wheat and oat straw, clover hay, and oats and barley chop, and are turned out to water once a day. They start to scour, then take paralysis in hind quarters. They are sick about two weeks, and will eat till the last day. He has now lost eight head, and has more sick.

- 1. Is there any danger of this spreading?
- 2. What do you consider the cause?
- 3. What treatment would you advise?

Ans.—There is evidently something wrong with the quality of the food or drinking water. Be sure that the food is of the best quality, especially the turnips that they are not decayed, or have been frosted. Water from a spring, or well, that is a distance from barnyard. Give to those that are at present sick (unless too much weakened) a pint of raw linseed oil, then follow with whiskey, 3 ounces; prepared chalk, 4 ounces; linchona, 2 drams. Given in starch and three times daily. Feed liberally, but see that food is of the best. R.

MEN PAY WHEN CURED

So many men have been cheated out of their hard earned money by Quacks and fake Specialists, whose injurious dopes and so-called treatments are made to sell rather than to cure, and whose glowing promises and strong guarantees are never intended to be carried out, that they have almost lost faith in the honesty of physicians and in their ability to cure. In order to dispel all doubt, and prove to patients that he can really cure so-called incurable cases, no matter how many other treatments have failed to cure them, Dr. Goldberg offers patients a cure before they pay. Dr. Goldberg has 14 Diplomas and Certificates from various Colleges and State Boards of Medical Examiners (a reproduction of which is sent with the first letter to each patient), and he has successfully treated men on his pay when cured plan for years, permanently curing patients suffering from severe nervous disorders resulting from overwork, business and domestic cares, dissipation, etc. Nervous debility and all of the accompanying symptoms, such as headache, loss of memory, mental depression, strange sensations, irritability, sleeplessness, weakness, trembling, heart palpitation, cold limbs, physical exhaustion, etc., are promptly cured; and blood poison, prostatic trouble, early decay, skin diseases, bladder and kidney troubles are cured to stay cured. The prices are very reasonable, and no charge are made for examination and advice, no matter whether the patient takes the treatment or not. Dr. Goldberg has no free samples and no proprietary medicines to sell. He is strictly opposed to all stimulants which temporarily relieve, but after a short time leave the patient in a worse condition than before taken. His treatment is specially prepared for each individual case and goes to the bottom of the disease, purifying the blood, strengthening the nerves and general system. It eradicates all traces of disease, and makes men sound and healthy and able to meet their fellow men with a feeling that they are strong and manly and fit to cope with the most trying conditions before them.

The treatments are sent to patients in any part of the world under this pay when cured plan, and if you will write and state all about your case at once, your letter will receive prompt attention and you will be advised by return mail what how long it will take to cure you, and how much the treatment will cost you. Remember, you do not have to pay a cent for anything until you are cured. No matter how many others have treated you, or how serious your condition is, you should write today and take advantage of this liberal offer. All medicines for Canadian patients sent prepaid. Address DR. GOLDBERG, 206 Woodward Ave., Suite 631, Detroit, Mich., U. S. A.
