

It Pays To Be Right

AND there is no place where it pays better than in the harvest field.

That is one place where mistakes are specially costly. To come successfully through the season to the harvest time, and then fail of a just reward because of inferior or imperfect harvesting machines is unfortunate, indeed. You may make sure of success by buying a Deering binder.

The Deering is designed and constructed with a view to efficient and long continued service. It meets fully the most exacting demands of the grain grower.

Should the grain be tall or short, light or heavy, standing or down and tangled, the Deering will harvest it all cleanly and without loss.

Being made in four sizes—5, 6, 7 and 8-foot cut—the Deering binder meets a wide range of uses.

The wide-cut binder is specially valuable to the large grain grower, being of unusual capacity.

Any of the following branch houses will supply you with the Deering catalogue.

INTERNATIONAL HARVESTER COMPANY OF AMERICA,
(INCORPORATED)
CHICAGO, U. S. A.

This extra wide binder is provided with a tongue truck, which reduces the draft and weight on the necks of team. We can't bring out the many special features of the Deering binder in this small space.

You should read about these in the Deering catalogue.

The Deering line of harvesting machines is complete and includes, besides grain and corn harvesting machines, binder twine, mowers, tedders, sweep rakes, side delivery rakes, hay loaders, stackers. Also a complete line of tillage implements and seeding machines, comprising disk drills, shoe drills, hoe drills, cultivators and seeders, smoothing, spring-tooth and disk harrows, land rollers and scufflers. Also gasoline engines, cream separators, hay presses, wagons, sleighs, and manure spreaders.

Call on the local Deering agent and discuss with him the qualities and advantages of Deering harvesting machines.

Any of the following branch houses will supply you with the Deering catalogue.

The "SUCCESS" Pays for Itself

by increasing the crop yield. If you will fill out the following blank spaces, clip out the ad. and mail it to us, we will promptly advise you how much more profitable it will be to distribute the manure with the "Success."

I have the following number of 50-bushel loads of manure per year:

..... loads cow horse hog sheep.

POTASH

FOR FIELD, GARDEN AND ORCHARD

This important plant food may be obtained from all leading fertilizer dealers in the highly-concentrated forms of

MURIATE OF POTASH AND SULPHATE OF POTASH.

On account of the increased demand for these fertilizers throughout Canada this year farmers ought to order at once to prevent disappointment.

The judicious use of Potash in conjunction with phosphatic and nitrogenous fertilizers cannot, and does not, fail to bring satisfactory results. Testimony to this effect is becoming more frequently heard each day.

Write at once for our FREE publications, treating of the fertilization and cultivation of various crops, as well as of the results of fertilizer experiments in Canada and elsewhere.
