

KNOWS NO DISTINCTION

Rich and Poor Alike Suffer from Catarrh in this Climate.

All observant physicians have noticed the enormous increase in catarrhal diseases in recent years, and the most liberal and enlightened have cheerfully given their approval to the new internal remedy, Stuart's Catarrh Tablets, as the most successful and by far the safest remedy for catarrh yet produced.

One well-known catarrh specialist, as soon as he had made a thorough test of this preparation, discarded inhalers, washes and sprays, and now depends entirely upon Stuart's Catarrh Tablets in treating catarrh, whether in the head, throat or stomach.

Dr. Risdell says: "In patients who had lost the sense of smell entirely, and even where the hearing has begun to be affected from catarrh, I have had fine results after only a few weeks' use of Stuart's Catarrh Tablets. I can only explain their action on the theory that the cleansing and antiseptic properties of the tablets destroy the catarrhal germs wherever found, because I have found the tablets equally valuable in catarrh of the throat and stomach as in nasal catarrh."

Dr. Estabrook says, "Stuart's Catarrh Tablets are especially useful in nasal catarrh and catarrh of the throat, clearing the membranes of mucus and speedily overcoming the hacking, coughing and expectorating."

Any sufferer from catarrh will find Stuart's Catarrh Tablets will give immediate relief, and being in tablet form and pleasant to the taste, are convenient and always ready for use, as they can be carried in the pocket and used at any time, as they contain no poisonous drugs, but only the cleansing, antiseptic properties of Eucalyptus bark, Blood-root and Hydrastis.

All druggists sell the tablets at fifty cents for complete treatment. om-

PLEASE MENTION FARMER'S ADVOCATE.

GOSSIP.

Frank Rockefeller, of Belvidere, Kan., has presented the Kansas State Agricultural College with the best Hereford bull calf he could select from his herd. The calf is sired by Columbus 17th, the second-prize bull at the late International Exposition. This is another instance of the philanthropic attitude of the American farmers toward their agricultural colleges.

Mr. A. B. Armstrong, breeder of Yorkshire pigs, White Wyandotte fowls and collie dogs, has changed his address from Codrington to Warkworth, Ont., and in ordering a change of advertisement, he writes: "I have disposed of all of my fowls except White Wyandottes, which variety, after testing them all, I have found par excellence the farmer's fowl, filling the requirements of the farmer, the fancier, the broiler raiser, and the egg buyer rather better than any of the other varieties. We have a nice flock of pure, stay-white birds, and will keep them exclusively. Our pen is headed by an imported cock of No. 1 quality, and he has proven to be a very strong breeder. We are looking orders for eggs for hatching for spring trade. We expect some very fine collie pups in the near future, and are getting many enquiries for same. Yorkskires continue to receive our careful attention, and judging from the letters from our customers we are giving universal satisfaction."

Ingleside Herefords is a name well known among lovers of the white-faced beefers all over America. Fourteen years ago Mr. H. D. Smith, the present owner, established what has since been known as the Ingleside herd on his farm at Compton, Quebec, and from their superior excellence individually and wonderful success in the show-ring have become noted, and are universally recognized as the banner herd of Canada. Ingleside farm lies about 2½ miles from Compton station, and 114 miles east of Montreal. This splendid farm, which comprises 950 acres of rich, arable land, is, no doubt, the best equipped stock farm in Canada. The stables are commodious, the plan perfect for feeding and cleaning, a complete waterworks system permeates all the buildings, the windows are large and plenty of them, the ventilation adopted is the most modern, the whole of the buildings are lighted by electricity generated from the powerhouse on the farm, which also supplies the power for all the farm work, such as grinding and cutting feed, sawing wood, pulping roots, threshing, etc. The herd at present numbers 160 head, and represents the get of such noted bulls as Ancient Briton, Anxiety, Anxiety 3rd and 4th, Bourton, Bradwardine, Cassio, Corrector, Hartington, Kodac of Rockland, Laurelot, Lord Wilton, Rupert, Silurian, Sir Horace, The Grove 3rd, Fushingham, Viscount Wilton and Mark Hanna. A great many of the females in the herd are imported, and about every two years, in order to infuse new blood in the herd and, where possible, improve the standard and quality, fresh importations are made. The present main stock bull is the massive, 2,300-pound, prizewinning bull, Prince Ingleside 2nd, a son of the great bull, Sir Horace. Second in service is Bourton Ingleside, a yearling, sired by Mark Hanna, a son of Dureka; dam Lady Bountiful, by the great bull, Bourton, the sire of Ancient Briton, the sweepstakes winner at Chicago in 1893. For sale there are four young bulls, sired by Mark Hanna, and three of them out of imported dams. There are also about 25 heifers, one and two years old, the bulk of them sired by Mark Hanna, among which we noticed Doxatovyn, Ingleside 3rd, a half-sister to the sweepstakes winner last fall; a two-year-old and a yearling daughters of Sylvan 7th of Ingleside, by Mark Hanna. This pair have few equals, being wonderfully perfect in their form. For the last seven years this herd has won the lion's share, and a big share, too, of all the prizes at the leading shows in Canada. They are under the care and management of Mr. Fred Norton, and what he does not know about fitting up a Hereford to show at its best is hardly worth knowing.
