3 FEEDS FOR ONE CENT

SCIENTIFIC SUMMER FEEDING

INTERNATIONAL STOCK FOOD CO.
DEAR SIRS:—About Feb. 4th I received a 50-cent package of "International Stock Food" from you. I commenced feeding it about Feb. 10th to two Durham calves. I put it in their middlings (dry) twice per day. In reference to it I can say "International Stock Food" will make calves great feeders. It gives them a better appetite; it will prevent and cure scours in calves; it will make calves grow very, very rapidly; it makes them very active and bright. Calves call for it as a much. My calves did better while feeding it than they had been doing before, and got the same feed as they did before feeding "International Stock Food." I think "International Stock Food" is just the thing.
Yours respectfully,
FRED. M. DICKEY.

Beware of imitations and substitutes. We have thousands of testimonials like this on file in our office, and we will pay you \$1000 cash if they are not genuine.

"INTERNATIONAL STOCK FOOD"—3 FEEDS FOR ONE CENT—is a purely medicinal, vegetable preparation, composed of roots, herbs, seeds, barks, etc., and is fed to stock in small quantities, in addition to the regular grain feed, for the purpose of aiding digestion and insuring perfect assimilation. It is entirely harmless, even if taken into the human system, and is prepared by a practical stockman, who is a thorough master of scientific stock feeding.

Extra Profits are made by feeding "INTERNATIONAL STOCK FOOD" to Cattle, Calves and Pigs during the Summer Season. You can secure a greater growth of your pigs, cattle and calves in warm weather than any other time, and the use of "International Stock Food" will make you a large extra profit during the Summer season. It will make your young stock grow rapidly and keep them healthy and vigorous.
