

THE CITY OF LETHBRIDGE

OFFERS A

CERTAINTY

The city of Lethbridge is located in a rich agricultural and mining district, and is the metropolis of Sunny Southern Alberta.

As a location for manufacturers or wholesale houses it offers, not an opportunity, but a certainty.

The city owns its own electric light and power plant and waterworks, and will supply power and water to manufacturers at very low rates.

Suitable sites for warehouses or manufacturers are controlled by the city, and can be obtained with trackage, at reasonable rates.

The city has a population of 11,000, which is an increase over last year of 66 per cent. Building permits for 1909, \$1,268,215; increase over 1908, 246 per cent., and proportionate growth in other lines.

There are five large coal mines within five miles of the city, and the district is the richest agricultural district in the West, being the home of the celebrated Alberta Red Winter wheat, from which an average of twenty-eight bushels per acre is obtained.

There are five lines of railroad radiating from the city, the C.P.R., the A.R. and I. and the Great Northern, which gives freight competition and right freight rates.

One of the lines runs through the Crow's Nest Pass, for which district, with its large lumber mills and coal mines, this city is the natural distributing point.

Distributed along this line within 250 miles of Lethbridge, there is a pay roll of over \$1,000,000 per month. This in connection with the rich agricultural and mining district, of which the city is the centre, makes one of the best markets in America.

There is nothing that can be worn, nothing for use or ornament in the house, nothing for service in town or country, that this market does not demand.

Lethbridge to-day is not supplying one-third of the demands of its natural market.

Come to Lethbridge and help supply the other two-thirds.

Remember, this market is not a prospect, but is an actual existing fact—a certainty to-day.

West Toronto, Ont.—Stables of the Conger Coal Company; cause unknown; damage \$300.

The clause, "exposure to unnecessary danger," in accident insurance policies, was the defence advanced by the Dominion of Canada Guarantee Insurance Company in contesting a claim for \$2,000 for the death of a man named McKercher, who was killed by a train near Regina about six years ago. McKercher was employed by the Canadian Pacific Railway, and was ejected from a train near Regina, Sask., by the conductor. Shortly after his ejection another train ran over him. The case was tried in Montreal by Mr. Justice Davidson, who returned a verdict in favor of deceased's widow.
